China For Shirt Waist Sets.

materials were being neglected woe- dust!" fully, so she decided to employ china the too-popular gold and silver pretties. In consequence, china sets promise to be favorites this winter, especially for morning wear. Don't jump to the idea, however, that they are inexpensive. On the contrary, they are made of the most delicate china, and their cost mounts high. The shirt waist set includes, of course, cuff buttons, pins for the blouse and a square belt buckle of large size. All the patset that goes with it is adorned with her a lace scarf: goldenrod -New York Press.

Bee Scouts.

Swarms of bees are sometimes compelled to take refuge in remarkable shelters. A peculiar and instructive instance was observed by the writer in the spring of 1908. The swarm flew over a large vineyard which contained few buildings. One of these buildings was constructed of hollow concrete blocks. The swarm flew directly toward a small hole in one of the blocks and disappeared in the interior. No doubt the swarm had rested on a tree or shrub on the preceding day and had sent out scouts

to seek a home. The couts found the little hole leading into the great cavity of the

THEIR SKIN TROUBLES CURED.

Two Little Girls Had Eczema Very Badly-In One Case Child's Hair Came Out and Left Bare Patches -Cuticura Met with Success.

"I have two little girls who have been troubled very badly with eczema. One of them had it on her lower limbs. I did everything that I could hear of for her, but it did not give in until warm weather, when it seemingly subsided. The next winter when it became cold the eczema started again and also in her head, where it would take the hair out and leave bare patches. At the same time her arms were sore the whole length of them. I took her to a physician, but the child grew worse all the time. Her sister's arms were also affected. I began using the Cuticura Remedies, and by the time the second lot was used their skin was soft and smooth. Mrs. Charles Baker, Albion, Me., Sept. 21, 1908."

NEGRO LINGO.

Senator Taylor of Tennessee tells of an old Negro whose worthless son was married secretly. The old man heard of it and asked the boy if he was married. "I ain't sayin' I ain't," the boy replied.

"Now, you Rastus," stormed the old man, "I ain't askin' you is you ain't; I is askin' you ain't you is." -Troy Times.

Perry Davis' Painkiller has no substitute. No other remedy is so effective for rhemma-tism, lumbago, stiffness, neuralgia or cold.

TEST ON FERTILITY OF EGGS. The third or fourth egg laid after being mated will usually prove fertile. The whole clutch of eggs are not fertilized at one service of the male, but usually several eggs are. Recent experiments have shown that in a case where the male had been removed from the pen four eggs hatched and five more had germs. Other tests do not show so large a number, but the supposition is that the male will fertilize two or three eggs at a service .- From the Farmers' Home Journal.

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va. - "I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's carebutgotnorelief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked ike a charm. It re-

lieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound." - MRS. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lym, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free,

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a relage for modesty in his effer of FREE consultation by letter. Zil correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong, Sick Women Well.

Athletic Training. "Mothers," said Mrs. Agnes A. Botha, of the Philadelphia Children's Home Care Society, in the New York Telegram, "should have more to say about the athletic training of their young boys in our public schools. Many fine boys are being weakened physically and neglected mentally

the ages of ten and eighteen. "A mother is inclined to let the boy's father decide this matter, but this is all wrong, because nine men out of ten will encourage a boy to stand at the head of his school athletics wen at the sacrifice of his oth-

through too much athletics between

his business associates and brag about gowns and theatre dresses. what his boy is doing in the school athletic ciasses. "As a matter of fact, no boy should be allowed to go seriously into athletics until he is twelve or fifteen years of age. Ordinary play is enough to keep a boy strong and growing nat-

urally without abnormal muscular de-

"The usefulness of public school athletics, in their prevailing extent of development, is more or less open, and there is a considerable difference of opinion as to the best methods of iducting such by-plays of public ication. But there is no question the desirability of placing scholar-

p unreservedly foremost in the ad-

ustment of conditions. In private schools each institution mey fairly decide the question of the importance of athletics at it chooses. Parents who do not approve of athletics have the privilege of sending their children to schools where athletics are not exalted-and there are some such. The question of athletics in the public schools, however, is quite a different matter. It appears to be the desire of the public, who support the schools and for whom they are conducted, that athletics shall have a place. But that place must be secondary to the main pur-

pose of popular education."

0000000000000000000000000 About the busiest industrial region on earth is the lowland of England from Lancashire and the Mersey River on the west to Newcastle-on-Tyne in the northwest. Here are scores of cities and towns, the home of the textile industries, the potteries, the great shops busy with iron and steel and other raw materials, manufacturing goods of high value for a market as wide as the earth. Over all this lowland hangs a black pall of soft coal smoke, the landscape studded with the tall spouting chimneys. For all this endless activity in manufacture is wholly due to the location account in Great Britain, bringing into existence these great artisan populations, making demands on every continent for the metals and timber clared that on his native heath the and textile fibers for the busy mills, British butler developed virtues he and then calling on the farms and seldom carries across the Atlantic. ranges of America, the Argentine and where she visited was an aged man, | meat to feed these industrial millions.
