

# THE PICKENS SENTINEL-JOURNAL.

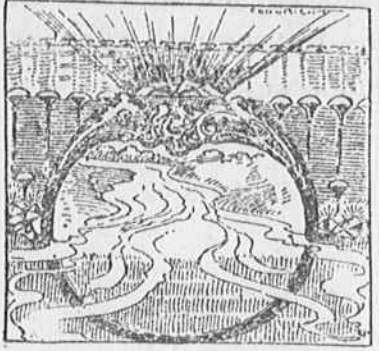

Entered April 23, 1903 at Pickens, S. C. as second class matter, under act of Congress of March 3, 1879

39th Year

PICKENS, S. C., APRIL 21, 1910.

Number 48

## The Key Stone

is the "stone" that supports the entire superstructure. The "Keystone" of this store's

## Jewelry Business

is fair prices, superior goods. If you want a flawless diamond come here and get it. Precious stones and ornamental jewelry from here is guaranteed highest grade obtainable.

## H. Snider, Jeweler

Casley, S. C. Breeders Guide The S. C. Rhode Island Reds, are the best known breed for producing good winter layers. Eggs at \$1.00 and \$2.00 per setting. E. H. Craig.

## Our Goods Stand Up On Analyses

Clemson College has been analyzing our fertilizer again. Our 14 per ct. acid analyzes 14.46. Our 16 per ct. acid analyzes 16.57. Our 10-4 goods analyze 10.92, 4.94. Our 8-3-3 analyzes 8.34, 3.39, 3.26.

Our goods always stand up on analyses. We put the stuff in them to make them stand up. They can't do anything but stand up.

Nearly all the farmers who took prizes in last year's corn contest used Anderson Fertilizer in making their corn. Three fourths of the finest crops made in Anderson County last year were crops fertilized with Anderson fertilizer. There were no better crops made in Anderson County last year than those fertilized with Anderson fertilizer.

Mr. J. S. Fowler, one of the finest farmers in this county, or any other county far that matter, says our 8-3-3 is an ideal fertilizer for cotton. His lands are dark and he has made a proper choice in selecting a fertilizer for dark lands. Where the soil is more or less sandy we have an abiding faith in our 8-4-4. The extra unit of potash in the 8-4-4 will be found helpful to the crops on sandy soils.

Mr. Jno. S. Cromer, another one of the "finest," used 1000 lbs of our fertilizer on some of his fine lands last year and it paid him. This year he expects to use 2000 pounds or a ton to the acre on some of his fine lands as an experiment. We believe it will pay.

A good farmer, farming on fine lands in a high state of cultivation, can hardly put down too much fertilizer to the acre. We hardly know what would be too much in a case of this sort.

## Anderson Phosphate & Oil Co.

J. R. VANDIVER, Pres. D. S. VANDIVER, Man.

## Draugh's Practical Business College For Greenville.

On April 16th, Draugh's Practical Business College, number thirty-five, will open in Greenville, S. C.

This college was secured through the efforts of the Greenville Board of Trade, and is another evidence of the good that can be accomplished by a live business organization in a city that has as many advantages as Greenville.

Draugh's College in Greenville will be under the direct supervision of Arthur C. Minter, general manager of the Southeastern division, and will be fitted up with the latest improvements, just as his college in Atlanta, Macon, Montgomery and Knoxville are. The local manager and faculty will be up to the high standard set by Mr. Minter in his other colleges which he is operating under a royalty lease from the Draugh Practical Business College Co.

Every one who is familiar with the success with which Mr. Minter is meeting in his other colleges is sure that the Greenville college will be of great benefit to the young man and women of this section as the course of study are up-to-date in every respect, the teachers are specialists in their respective departments, and the equipment will include banking and wholesale

## This contractor got results.

Some years ago a contractor building a railroad in a warm climate was troubled a great deal by sickness among the laborers.

He turned his attention at once to their food and found that they were getting full rations of meat and were drinking water from a stream near by.

He issued orders to cut down the amount of meat and to increase greatly the quantity of Quaker Oats fed to the men.

He also boiled Quaker Oats and mixed the thin oatmeal water with their drinking water. Almost instantly all signs of stomach disorders passed and his men showed a decided improvement in strength and spirits. This contractor had experience that taught him the great value of good oatmeal.

Packed in regular size packages, and in hermetically sealed tins for hot climates.

## Railway Mail Clerks Wanted

The Government pays Railway Mail Clerks \$800 to \$1,200, and other Employees up to \$2,500 annually.

Uncle Sam is now opening examinations through the country for Railway Mail Clerks, Custom House Clerks and other Government Positions. Thousands of appointments will be made. Any man or woman over 18, in city or country can get instruction and free information by writing at once to Bureau of Instruction, 105 Hamilton Building, Rochester, N. Y.

## COOPER PARDONED

Governor Patterson Nullifies Order of Supreme Court.

## SON IS GRANTED NEW TRIAL

Before Supreme Court Had Finished Handling Decision Against Carmack's Slayer, Governor Had Written Pardon.

Nashville, Tenn.—In the case of Colonel Duncan B. Cooper and Robt. J. Cooper, father and son, convicted of killing former United States Senator E. W. Carmack on the streets here November 9, 1908, and sentenced to twenty years each in the state penitentiary, the Tennessee supreme court, by a divided vote, affirmed the sentence as to D. B. Cooper.

COLONEL DUNCAN B. COOPER.

As to Robt. Cooper, the court also by a divided vote, is reversed and remanded to the lower court for a new trial.

Chief Justice Howard was reading a dissenting opinion in the case of Duncan B. Cooper, Governor Patterson wrote a full pardon for the defendant, in which he stated: "In my opinion, neither of the defendants is guilty, and they have not had a fair and impartial trial, but were convicted contrary to the law and evidence."

The reversal in the case of Robt. Cooper is based on the grounds of error in the trial before Judge Coker in charging the same to Robt. Cooper's theory of self-defense. In the defense of the two defendants together, assisting testimony of Governor Patterson as in talks with defendant Robt. Cooper and advice given him as to Colonel Cooper before the trial, and the admission on cross-examination of Robt. Cooper as to intent of certain statements will necessitate his conviction in certain instances.

The action of Governor Patterson in pardoning the most slayer of Senator Carmack has excited a stir in Tennessee, and his action is more or less loudly denounced.

What effect the governor's action will have collectively in the state is problematical.

## ROBIN COOPER'S CASE.

Difficulty of Securing Jurors May Prevent Rehearing.

Nashville, Tenn.—Robin J. Cooper has filed a new bond in the criminal court to answer, when wanted, to answer to the charge of murdering former United States Senator Edward W. Carmack. Many believe this is the last formality in the famous case and that because of the difficulty in getting a jury, young Cooper will never be called to the bar.

The pardon of Cooper, under, continues to be the one startling topic in Tennessee. The Governor's supporters issued a synopsis of evidence issued by Governor Patterson during his term. This number 44, exclusive of communications, of these pardons, 152 were given to men convicted of murder, it is said.

Colonel Cooper apparently is greatly relieved by his release. He is seen on the streets more frequently than at any time since the shooting. Namely he is accompanied by a few friends and his course down the street is marked by cordial greetings and congratulations from his friends.

## MISSIONARIES FLEEING.

Situation at Changsha, China is Said to Be Quite Serious.

Hankow.—The situation at Changsha, the capital of Hunan, is grave. The rising begun by the natives in revenge for the actions of Chinese of fields in cornering and controlling the export of rice, continues. The governor's yamen in which the national army had sought refuge, was set on fire by the rioters and destroyed. The missionaries and other foreigners fled and were taken aboard a merchant steamer in the harbor.

The British consuls and custom officers have been abandoned. Two more British gun boats are hurrying to the scene. No fatalities are reported. The property known to have been destroyed are the buildings of the Wesleyan China Inland missions, of the Methodist China Inland mission and of the Norwegian mission.

## CONG. H. S. BOUTELL.

Chosen a Member of Rules Committee in the House.

CORPORATION TAX.

## Supreme Court May Uphold Its Constitutionality.

Washington.—The fact that the supreme court did not include the corporation tax cases when it ordered the Standard Oil and the tobacco cases back to calendar for reargument, is construed by leading members of the house judiciary committee to mean that the court has probably upheld the constitutionality of the corporation tax.

The decisions of the supreme court have practically been uniform in all cases where the right of the government to impose an excise tax has been questioned, in the corporation tax cases the question at issue is whether or not the tax in dispute is properly one of excise. The case was argued a few weeks ago and the decision of the court may be handed down almost any day, according to Solicitor General Bowers, of the department of justice. The decision may be handed down before July 1, when the law is intended to go into effect.

## FATAL FAMILY FEUD.

Two Killed and Several Wounded in Emanuel County, Ga.

Lyons, Ga.—Two dead, one dying and probably one or two others slightly wounded are the results of a Sunday afternoon battle in an inter-family feud of long standing, which took place in Emanuel county just at the line of Toombs county. The dead are A. S. Collins, road overseer for his district, and a well-to-do farmer, and his son, Wilson Collins, both of whom died during the progress of the fight.

Alma Lewis is so badly wounded that he is expected to die.

The battle was between the families of Collins and the family of Lewis, and was the outcome of a dispute over a public road crossing. The two families reside less than a mile apart and the county line runs between their homes. Fathers and sons met in a lane near the Lewis home. Just how the battle started is not known. The members of the Collins family were armed with pistols while two shot guns were used on the other side.

## ATLANTA IS CHOSEN.

Wins Over Nashville for Southern Golf Association Meeting. Birmingham, Ala.—Atlanta was unanimously selected as the next meeting of the Southern Golf Association at a meeting of the directors here. The time for holding the meeting was changed from June 14-18 to June 7-11, inclusive.

Forest Adair, a director, and a delegation from Atlanta accomplished good work and easily won out over Nashville, which tied Atlanta for the honor of being the next meeting place at a conference in Chattanooga.

## SCORES IN A PANIC.

Building Collapses as Thousands of Merry Makers Throng Street.

New Orleans.—A twelve-year-old boy was killed, five persons were seriously hurt and fifteen more slightly bruised when a building at South Rampart and Canal streets collapsed. Thousands of masked merry-makers celebrating the Shriners' convalescence were thrown into a panic.

## Dies at Age of 110.

Macon, Ga.—Green Hughes, said to be 110 years of age, an ex-slave, and the son of a negro who was the slave of George Washington, died here. He was at the home of his youngest son, who is himself 75 years of age. Hughes belonged to the well-known Hughes family at Danville, Ga. He came to Georgia after the war from near Mount Vernon, Va.

## Fatal Blaze at Nashville.

Nashville, Tenn.—One man was killed and three more or less injured in a fire which damaged the plant of the Bradford wholesale manufacturing plant to the extent of about \$40,000.

## STORM SWEEPS GEORGIA.

Town of Manchester Hit by Wind of Cyclonic Fury.

Manchester, Ga.—Six negro hants are missing, carried away by the fury of the elements. It is supposed a score of houses were wrecked and much property damaged in a cyclone which struck Woodland. With but little warning, lowering clouds wrapped the place in semi-darkness, and the storm broke in awful fury before the people had time to seek shelter or to prepare for rough weather.

Accompanied by the usual muffled rumblings, torrents of rain and sheets of hail, driven by cyclonic winds, fell for several minutes, and not until the clouds had lifted did the people realize that the town had been almost completely swept off the map.

A freight train standing on the side-track of the Atlanta, Birmingham and Atlantic railroad was blown over on the main line. A passenger freight coming into the yard during the height of the storm crashed head-on into the storm-swept cars, as a result of which considerable damage was done to both trains. Several hours were required in clearing the tracks.

Other sections report more or less damage from wind and hail.

## STORM IN ALABAMA.

One Village is Wiped Off the Map—Number of Fatalities.

Montgomery.—Correspondents report losses of life and heavy damage to property by a storm which swept over southwest Alabama.

Awins, a small village in the southeastern corner of Wilcox county, is reported to have been the heaviest sufferer. Awins is in a remote section, but it is said that at least one person was killed, and it is believed there were a number of deaths. Practically every house in the village is said to have been wind out. The storm was violent in many parts of the state and it is believed that there were many fatalities.

## Rain Aids Cotton Crop in Georgia.

Cordele, Ga.—The rain in this section has brought badly needed relief to the crops and added much to the prospects for a good grain season. Only one heavy rain has fallen in South Georgia since Christmas, and the fields were very dry. The farmers coming into the city report that a good rain had fallen all over the county and that no further fears are now entertained for a good stand of corn and cotton.

## Prisoner Hangs Himself.

Brandon, Miss.—Making a noose out of his shirt, Tom Cord, a negro prisoner, succeeded in strangling himself to death in his cell in the county jail here. Two days ago he seized an ax and brained an old negro named Johnson, who, according to his statement, had placed a "hoodoo" under his door.

## 8,000,000 Feet of Lumber Burn.

Chattanooga, Tenn.—A dispatch from Johnson City, Tenn., says 8,000,000 feet of fine timber, belonging to the John T. Dixon Lumber Company, of Elk Creek, has been destroyed by forest fires burning in the mountains for several days. The loss is estimated at \$50,000, partly insured.

## Women Strikers Battle.

Louisville, Ky.—Women tobacco stemmers who tried to return to work in the American Tobacco Company's factory at Twenty-fourth and Main streets were attacked by women strikers and a pitched battle followed. Bricks were used as weapons and several combatants were injured before the police stopped the fight.

## Walsh Left \$10,000,000 Estate.

Washington.—The will of Thomas F. Walsh, the mining magnate, leaves \$10,000,000 to charity and the rest of his estate practically in its entirety, to Mrs. Carrie B. Walsh, the widow, and Mrs. E. B. McLean, a daughter. The estate is valued at from \$8,000,000 to \$10,000,000.

## Storm in Oklahoma.

Guthrie, Okla.—More than \$250,000 damage was done by a storm that raged throughout the state. It was a combination of rain, hail and high winds. A cyclone is reported to have destroyed Lone Wolf, in Kiowa county. At Tuttle, Grady county, two churches were demolished. The damage at Oklahoma City alone is \$100,000.
