Do you want a better shoe FOR LESS MONEY Than You Have Been Buying?

Or would you rather go on submitting to the exactions of the Leather Trust, and Middlemen, taking whatever quality they see fit to give you, and paying any price they choose to ask?

"Endwell" shoes are a good example of what happens when a manufacturer refuses to be dominated by the Trusts. They are made by Endicott-Johnson & Co., the only shoe concern in the United States that is independent of all Trusts and jobbers. Endicott-Johnson buy hides in the open markets of the world—Tan their own leather—make their own shoes and sell them direct to the dealer. These shoes come direct from their factory to our store, no commission or kick off to any middleman.

Endicott-Johnson shoes are the new shapes and with all shapes of toes, and all different leathers.

"Endwell" shoes end in foot-comfort with all the links of fashion. See them you are pleased, wear them you are convinced.
