Hon. B. E. Perry, We learn, has received the appointment of Provisional Governor of South Carolina.

The 56th New York—Complimentary. The following preamble and resolutions, bearing an intimate connection and interest to this community, we insert with much pleasure. May the sentiments expressed therein find a response in this district, and the officers and men composing the 56th regiment show such a kindness of sentiment and manner, as shall win for them the title of friends:

Summerville, July 1, 1865. GEN. VAN WYCK,

Sir: Mine is made the pleasant duty of communicating to you, and through you, to your noble old regiment, their appreciation by the people of Summerville. May the 56th N. Y. Volunteers ever make friends of enemies.

At a meeting of the citizens of Summerville, held this 1st July, '65, the following preamble and resolutions were unanimously adopted:

Whereas there can be more honorable amity, than that extorted from *quandam* enemies, by mutual good offices and good conduct; and whereas, true courage is perfectly consistent with true kindness of sentiment, therefore

Resolved, That we citizens of Summerville, unhesitatingly express our respect for, and regret at the departure from our midst of the 56th Regiment N. Y. Volunteers, and their officers and men, whose courteous and gentlemanly offices, have not been surpassed by any regiment ever quartered in this place.

Resolved, That we commend the officers of the 56th, to the confidence of any Southern community amongst whom they may be stationed, as gentlemen worthy of respect and hospitality every where.

Resolved, That these proceedings be published in Charleston Courier, and a copy sent to the officer in command of the 56th Regt. N. Y. V., to be disposed of as he deems proper.

Signed M. THARIN, Sec. Wishing you Gen., and the gentlemen associated with you every success, in your efforts to restore peace and amity, I am with great respect, yours very truly, R. J. LIMEHOUSE, Chairman.

Journeys—How Made Now—Days. The January frosts, and the march of Gen. Sherman's columns through South Carolina, in February, did the business for travellers generally. Eighty miles or so of the S. C. R. R. out of six, and 25 miles of the Greenville Road unavailable. The up-country in fact separated from the low country, and not by an "imaginary" line either—yet people have to travel to and from business is inexorable, appointments must be kept.

At first the only means of transportation was represented by comfortless farm wagons, and people paid \$25 or \$50 to get to Columbia, with the satisfaction of feeling on their arrival at the capital, as though they had been dragged by the heels through a marble yard and beat with a stone mason's mallet. Those rough times are now mended, and we are happy to report that matters in the transportation way are much improved. Mr. Lassalle, the Sup't of the G. & C. R. R., now runs a special train to Alston, in close connection, with the down train from Greenville, on Tuesdays, Thursdays and Saturdays.

From Alston passengers are transported to Columbia, in Messrs. Courtenay & Olney's light spring wagon, which is fitted up expressly for the comfort of the travelling public. This conveyance offers special inducements to families, as it is roomy and cool. Parties on the move, should make engagements with Mr. J. F. Glenn, agent, at the Newberry depot. Baggage is necessarily limited to one light trunk, as heavy and cumbersome packages interfere with the comfort of passengers and prevent that dispatch which it is desired should characterize this line.

When families or parties of six or eight wish to avail themselves of this conveyance, Mr. Glenn is authorized to make engagements for the trip on moderate terms.

From Columbia Dr. J. Russell Baker will dispatch passengers to Orangeburg, S. C., or to Kingsville, at which point travellers take the cars via Florence to Charleston.

In this connection we would mention that our up-country friends have, by this line, an opportunity of forwarding letters to Columbia and beyond, without other expense than will be imposed by the United States Post-office regulations.

The mail bag will be at Mr. Glenn's office, Newberry Depot.

It is needless to say that passengers from Columbia connect with the up train from Alston, and letters left with the agents in Columbia, Dr. J. Russell Baker, will be promptly dispatched.

HORACE GREELY'S ADVICE TO THE NEGRO.—We hear that many of the blacks; thoroughly distrustful of their old masters, place all confidence in the Yankees who have recently come among them, and will work for them on almost any terms. We regret this; for while many of these Yankees will justify that confidence, others will grossly abuse it. New England produces many of the best specimens of the human race, and along with these, some of very meanest beings that ever stood on two legs—cunning, rapacious, hypocritizing ever ready to skin a flint with a borrowed knife and make (for others) a soup out of the peelings. This class soon become too well known at home—"run out,"—as the phrase is—when they wander all over the earth shuffling and swindling, to the injury and shame of the land that bore them and cast them out. Now let it be generally presumed by the ignorant blacks of the South that a Yankee, because a Yankee, is necessarily their friend, and this unclean brood will overspread the South like locusts, starting schools and prayer meetings at every cross roads, getting hold of abandoned or confiscated plantations and hiring laborers right and left, cutting timber here, trying out tar and turpentine, there, and growing corn, cotton, rice and sugar, which they will have sold at the earliest day and run away with the proceeds, leaving the negroes in rage and foodless, with winter just coming on.

The cup is full—we have no more to say!

THE LABOR QUESTION.—The New York Herald has the following summary at the close of an editorial upon the labor question at the South:

"The labor question, which is also included in reconstruction, admits of a very simple solution. Those Southerners, white or black, who will not work, must starve. This is the invariable rule throughout the United States, and we see no reason to make a special exception in favor of either the recent rebels or the recent slaves. We will have no appendix to the abolition agitation. The negro ought to be let alone severely for a year or two, and he will then manage to take care of himself. We pursue this policy with our white population. Why should we adopt a different policy towards the blacks?"

WELL PUT TOGETHER.—At a printer's Festival in Boston, a short time since, the following capital toast was drank:

THE EDITOR.—The man that is expected to know everything, tell all he knows, and guess at the rest, to make known his own good character, establish the reputation of his neighbors, and elect all candidates to office; to blow up everybody, suit everybody, and reform the world; to live for the benefit of others and have the epitaph on his tombstone. Here he lies at last; in short, he is a locomotive runner on the track of notoriety, his lever is his pen, his boiler is filled with ink, his tender is his scissors, his driving wheel is his public opinion; whenever he explodes it is caused by the non-payment of subscriptions.

CHARCOAL FOR TURKEYS.—Four turkeys were confined in a pen and fed on meal, boiled potatoes and oats. Four others of the same brood were also at the same time confined in another pen, and fed daily on the same articles, but with one pint of finely pulverized charcoal mixed with their meal and potatoes. They also had a plentiful supply of broken charcoal in their pen. The eight were killed on the same day, and there was a difference of one and a half pounds each in favor of the charcoal, they being much the fattest, and the meat greatly superior in point of tenderness and flavor.

In 1581, Philip I, sent the young Constable de Castile to Rome to congratulate Sixtus V. on his advancement. The Pope asked, "are there so few men in Spain that your King sends me one without a beard?" "Sir," said the fierce Spaniard, "if his majesty possessed the best idea that you imagined merit lay in the beard, he would have deputed a goat to you and not a gentleman!"

WASHINGTON, June 27.—Edmund Ruffin of Virginia, who fired the first gun on Fort Sumter, is dead. He committed suicide near Richmond, on Saturday last, by blowing his head off with a gun. A memorandum was found among his papers, says the Richmond Republic, stating that he could not live under the Government of the United States—that he preferred death to doing so.

NATIONAL BANK.—The books for subscription to the "People's National Bank of South Carolina," were announced for opening yesterday, the 3d inst., at the banking house of the People's Bank, in Charleston—D. L. McKay, W. H. Houston and J. S. Riggs being the commissioners. The advertisement does not say for how long a period the books are to be kept open.—Courier 4th inst.

The New York world says there is no ground for the report that an extra session of the United States Congress will be called, and that there is no truth in the rumors of changes in the Cabinet.

The Rev. Dr. Bachman, we are glad to perceive, has so far recovered his health and strength as to resume his pastoral labors, at the German Lutheran Church in Charleston. [Phoenix.]

A French writer has said, that to dream gloriously, you must act gloriously while you are awake; and to bring angles down to converse with you in your sleep, you must labor in the cause of virtue during the day.

LOCAL ITEMS.

We invite the attention of our readers to the card of Dr. J. E. Dapray. Dr. Dapray is a surgeon dentist of high professional ability. Having been associated professionally with some of the first surgical dentists of the South, and in the enjoyment of a very large practice in Charleston, immediately prior to the war, he is prepared to perform the most critical and delicate work to be found in the range of his profession.

Hot Weather.—For the past two weeks the thermometer has ranged from 98 to 100 deg. in the shade. In this office it would exceed those figures, if put to the test, and unless we get rain soon, and a more temperate atmosphere, we will, it is to be feared, melt away entirely. We could not tell the power of the blazing sun under which we have "perspired" for the past two weeks, as some graceless scamp "borrowed" our thermometer.

As we go to press the atmosphere has become cooler with a fine prospect for rain.

The following named officers, so far as known, comprise the military command of the Western district, and of the town of Newberry: Brevet Brig. Gen. CHAS. H. VAN WYCK, commanding Western District of South Carolina—head-quarters at Newberry. The 56th New York regiment, Lt. Col. ROCKWELL TYLER, commanding, occupy the College building. GEORGE H. FOSSARD, Surgeon. HENRI B. LOOMIS, Adjutant & A. D. C., Assistant Provost Marshal, located in law range. CARL H. E. LORD, Commissary of Subsistence, and LIEUT. NORMAN PERAINS, Act'g. Commissary of Subsistence.

Good.—In these times of demoralization and lax morality, it is a relief to chronicle an event such as this: a faithful Christian man has dropped in upon this community, and if it does not improve, whose fault is it? We have missed him long, and his advent is hailed with pleasure. But we regret that he came back to us in questionable company, all of which, however, he soon got rid. He acknowledges to having formed the acquaintance of no less than six species of the genus soldier's body-guard, viz.: Confederate, Federal, army, prison, rail-road and steamboat. Enough for one man truly.

NEW ADVERTISEMENTS.—We invite attention to the following new advertisements in to-day's paper:

General Orders No. 1, revocation of permits to sell liquors, by order Brig. Gen. Van Wyck; Sealed proposals for food supplies for troops, H. E. Lord, Captain & C. S. V.; Mr. Martin's choice stock new goods, at the "corner store," under the "Martin House"; Webb & Lovelace, splendid roping and fine stock generators; English and Classical School, by Prof. P. C. Edwards, by Ordinance; Notice; Store wanted; Information wanted; Durbee & Walter, Commission Merchants, Columbia, S. C.; J. N. & J. C. Martin, 100 bales cotton, 10,000 lbs. bacon, wanted.

Information is wanted, for the public benefit, as to the name, whereabouts and character, of a singular individual who was last seen in the neighborhood of Beth Eden church. The singularity of his conduct, passing and re-passing the same point several times, without apparent object, excited no little curiosity and alarm. In our opinion he should be taken up and cared for. Information as above is solicited.

Since the above was in type the mystery is all explained, and his name ascertained, the poor fellow overcame by the heat of the day and a hearty dinner, fell asleep and dreamed of being ring-master in a circus company, consequently he performed the singular feat of driving almost in a circle.

Notice.

NEAR FROG LEVEL, July 8, 1865. Whereas Dr. R. Calvin Kibler having rendered satisfaction to me for the assertion made against him, charging him of being captain of a party who cursed and abused myself and mother-in-law, I respectfully withdraw the charge, being satisfied that he was not a long. I further state I had no allusion to his former character.

In justice to Captain J. A. Kibler and Adam Sheeley, I would respectfully make known to the public, that I am satisfied that everything pertaining to them and their kindred was false, and I am sorry their names appeared in my communication among the others.
