## Around Clinton

### New York . . .

(Cont'd. from Page 1)

goods you make, we have to keep a step ahead so that we are making the kinds of goods that can be sold. Styles in cloth and trends change. When markets are high, there is lower demand for higher count fabrics, such as style P which is the 39" 80 x 80 4.00 print cloth. When the market is like that, there is greater demand for styles like E, which is the 39" 68 x 72 4.75.

**As you know we make pocket twills for the clothing trade. When their business is good, then the demand for that cloth is pretty good. But when their business falls off, our business on these twills is inclined to suffer.**

We have salesmen employed solely by us to sell only our own goods, and also representatives out of town with two in the Boston area, one in Chicago, one in Los Angeles handling the entire Pacific Coast, one in Cincinnati and one in Baltimore, Atlanta and Dallas, Texas. We also use some brokerage houses from time to time.

(To be continued)
