ton and Lydia, and it is our purpose to have the funds raised at each mill go into the Clinton Community Chest.

When the campaign takes place in the mills, you will be given a card to fill out stating you are contributing a certain amount of money in cash, or that you want a certain amount to be taken out of your pay over a period of three weeks for this purpose. Then this money will be distributed to the different charitable organizations that you have been solicited for in the past.

It is hoped that everyone will contribute their share, keeping in mind that this is the only time in the next twelve months that you will be asked for money. The payroll department will make payroll deductions so that you can spread your contribution over a period of three weeks instead of making one cash donation, if that is the way you prefer it.

Watch for complete details of your Clinton and Lydia Unified Charity Drive, and remember, only one solicitation for the year will be made instead of the dozens you have had in the past.
