

WHAT'S MY LINE?

These X-Ray photographs of the principle devices used in two departments at Lydia Cotton Mills should enable the employees in those departments, at least, to identify them. If you can't turn to Page 8 for the correct answers.

Long Safety Records Established By Several Departments In Mills

A number of departments at both Clinton and Lydia Mills have outstanding safety records as evidenced by the safety scoreboard which is published for the first time this month elsewhere in this issue.

Three departments are tied for the top spot at Clinton Mills. They are No. 1 Carding, First and Third Shifts, and No. 2 Carding, First Shift. All of these departments have worked 1909 days without a lost-time accident as of last May when the records were compiled.

No. 1 Spinning, Third Shift, is climbing up the ladder with 1706 days without a disabling injury, followed closely by No. 1 Carding, Second Shift, with 1428 days.

At Lydia Mills, three departments also are tied for first place with exceptional safety records. The combined Slasher, Drawing-In and Tying-In Departments and Second and Third Shift Shops all have worked 1760 days with-

out a lost-time accident.

We congratulate each employee in these departments for this fine record and example for other departments in our mills.

Strictly For The Girls

WAY BACK THEN

It was in 1829 that an Englishwoman wrote a book on how to keep house. One of her comments: "Every woman, high or low," she said, "ought to know how to make bread. If she do not, she is unworthy of trust and confidence."

Deliciously reminiscent of the old-fashioned cobbler is this quick pineapple cobbler. In this recipe the popular tropical fruit is blended right into easy-to-use biscuit mix.

PINEAPPLE COBBLER

Combine 1½ cups biscuit mix, ½ cup milk and one 8 oz. can (1 cup) crushed pineapple. Place in a well-greased and floured pan, 8x8 inches, and press dough out to edges evenly. Drain ½ cup pineapple tidbits. With your finger or the back of a spoon make grooves 2 inches apart and ½ inch deep, in straight lines across top of dough. Fill the grooves with pineapple tidbits. Bake in moderate oven (350 degrees) for 30 minutes. Serves 6.

CAMPFIRES TO BEGIN

All Campfire and Bluebird activities for fall will be started the third week in September.

Former Employees Write From Korea

CPLS. TULLIS, WILSON
... a long way from home.

The following letter has been received from Cpl. Thomas A. Tullis, son of Mr. and Mrs. Henry C. Lewis of Clinton Mills, from his station in Korea:

Dear Editors:

I used to be an employee of Clinton Cotton Mills, as did my buddy, Cpl. Jerry Wilson, son of Mr. and Mrs. C. C. Wilson. I would be very glad if you would put the enclosed picture in THE CLOTHMAKER. Although I am a long ways from home in Korea I often think of he folks there. I have a year and a half service in the army and a year overseas. I will be coming home in about five months.

Please say "hello" to all of the employees there for me and tell all of the young girls from the ages of 18 to 25 that their lover boy is coming home pretty soon.

My address is Co. M, 32d Inf. Regt. APO 7, San Francisco, California.

I certainly enjoy receiving THE CLOTHMAKER and really enjoyed the last one with the write-up about the Cavalettes. They must have another fine team this year.

Yours sincerely,
Cpl. Thomas Tullis.

NEWS ITEMS AT LYDIA
