Address to Cotton Planters

Merchants and Bankers by Harvie Jordan, President Southern Cotton Association.

At a meeting of the Executive Committee of the Southern Cotton Association, held at Asheville, N. C., September 6.8, 1905, where representatives from each cotton producing State and Terititory were present, a report on the condition of the cotton crop made up to August 25th, was carefully compiled from returns of more than 15,000 correspondents, showing a condition of 73 per cent as compared with a condition of 84 per cent for a corresponding period of 1904. An es timate of the crop for this season based on reports from the same correspondents indicated a yield of 9,588,333 bales of cotton. Taking this information as a guide in connection with the present enormous demand for spot cotton by the spinners of the world, the present high prices of cotton goods, and the heavy cost to the producers for cultivating and harvesting this crop the committee agreed that eleven cents as a minimum price, basis middling at all interior points, would be a reasonable and conservative price to be asked by the producers this season for their staple. It has been generally reported, and not publicly denied, that spinners can pay twelve cents per pound for mid dling cotton at the present time and still make good profits in the manufacture of the raw material into the finished fabric. Peace has been recently declared between Russia and Japan. The whole civilized world is in a most prosperous condition and the spindles in all the cotton mills of Europe and America are running night and day to supply the tremendous demands for cotton goods.

CONSUMPTION UNPRECEDENTED.

The enormous crop of American cotton reaching the unprecedented figures of nearly 14,000, 000 bales has been easily absorbed by the spinners at an average little or no profit in this crop. price of nine cents per pound. Of this crop there were only a up the present heavy receipts small reserve stock of little more and demand not less than eleven than a million to be carried into cents for every pound of middling season of 1905 6 on the first day cotton you have to offer. The of September. If no more than Southern Cotton Association, ten million bales of cotton are The Farmers' Elucational and harvested this season to be added to the small reserve stock carried over from the crop of 1904, the mills of the world, at the present rate of consumption, will face a famine in raw cotton before another crop can be planted, cultivated and placed upon the market. The mills have contracted the combinations of the world for many months ahead for the delivery of goods to be manufact- the like of which was never witured out of cotton yet to be bought from the producers. The exporters have sold to the spinners cotton to be delivered in the future months which is yet to be bought from the producers. The spinners and the exporters are heavily short, with nothing but paper contracts in their possession, while the farmers of the South hold the spot cotton in their hands and control absolutely the key to the situation. market, but sell slowly and prove

of the splendid position they ocrights to demand a fair price for this crop at the hands of the buyers? Will not the merchant and local bankers through the South for their products. line up solidly in unbroken ranks with the farmers against the combination that are so actively at work to depress prices and defeat the will of the people?

MUST DO OUR DUTY Every man in the South, no matter what his avocation, is expected to do his duty during the coming months and to throw his full moral and financial ability in the great fight that we have engaged in. Mhe "Bear" speculators of Wall Street and London are using every device known to human ingenuity to depress prices. The International Cotton Spinners of Great Britain have combined to crush the present efforts of the farmers to maintain fair prices, and ex porters are doing all in their power to hammer down the market. The solution of the problem is easy and simple. The ability of the farmers to win this fight is unquestioned. Stand together as brothers, battling for the protection of your firesides and your nomes, your wives, children and your country. Stop selling cot ton at present prices. Call upon your merchants and bankers to aid you in the heroic struggle that lies ahead. the lint cotton under good sheds to keep it dry on the farm or place it in warehouses, where the receipts are needed as col lateral to borrow money to meet maturing obligations. All other lines of business borrow money, why not the farmers, when by so doing they can hold their cotton off the market and materially advance its price? Pay no at tention to the "bearish" litera ture being printed and circulated broadcast throughout the South. This is done with but one object and that to discourage and induce you to sell your cotton at prices below its value. As producers you know that the crop is short and that unless you get good prices, at least eleven cents per pound, there will be but

Hold your cotton and check Co-operative Union, The American Society of Equity, The Farmers' Alliance of North Carolina have all agreed on the minimum price of eleven cents and the membership of these powerful organizations, standing together in unity and harmony, can defy and win another notable victory, nessed before.

Call your county and district meetings throughout the entire belt. Build up your membership in the Southern Cotton Association and stand firmly together for justice and protection. If you will check the sale of your cotton for 30 or 60 days this Association will guarantee an advance in the price easily to eleven cents per pound. Do not rush you cotton on a depressed

tions of doubt that Southern among the producers, merchants cupy, and like men, assert their farmers have the ability, the determination and the strength to force the world to recognize their The world knows that through power in maintaining a fair price this powerful organization the

> The Southern Cotton Association must be maintained and July 3rd, just five months later South. Its power to protect the interest of the producers is recognized and teared by all the leading speculative and cotton interests of America and Europe. If we go down in defeat the enemy will be merciless and it will take twenty years for the South to recover again. Stand by the Association and thereby protect your individual interests. The South is both mentally and financially able to manage and protect her interests from the dominating and devastating hands of her enemies.

Last January the price of cot ton was depressed to six cents per pound and the Southern Cotton Ass'n. was organized at the New Orleans Convention Jan.

and bankers so as to advance the price to ten cents per pound. price of spot cotton was ad anced to ten cents in the South on financed by the farmers of the Not only this but the assistance given the "Bear" operators by certain officials in the United States Department of Agriculture was exposed through the efforts of the Association and the rascals were promptly turned out This work has already saved millions of dollars to the South and will continue to do so if fostered and maintained by the people. If the South could advance the price of a 14,000,000 bale crop from 6 cents to 10 cents, clearly it would require but little co operative effort to secure not tess than eleven cents for a 10 .-000,000 bale crop.

> Let the people know the truth, know the power of their strength and then let them act promptly and the victory for higher prices will soon be won, then their great staple will be selling at its real value to the world.

Will the farmers take advantage to the world beyond all ques- 26, 1904, to bring about harmony LANGASTER & CHESTER RAILWAY COMPANY
