

Cotton! Cotton! Cotton!!!

Many Reasons Why Farmers Should Hold Staple For Better Prices.

The following has been handed us for publication by President Strait, of the County Cotton Growers' Association, who gives it his hearty endorsement:

FARMERS HOLD YOUR COTTON FOR HIGHER PRICES!

Because, it is worth 11 cents or more!

Because, it is bound to sell at much higher figures!

Because, the man who makes the Cotton should help to make the price!

Because, trade is broad and strong, and record-breaking as to textiles!

Because, the mills are making money on basis of 11 cents and 12 cents for Cotton!

Because, the world needs every bale, and will take it greedily at 11 cents if we hold firm!

Because, we are no longer slaves to the North, but a free people, with our Banks full of money, and the Merchants and Bankers at our backs!

Because, we live in a record-breaking age, and the present Cotton crop, which has matured and opened unusually early, will be found to be very short, when the world wide and unprecedented demand for cotton goods is considered!

Because, the Farmer needs the money, and deserves it more than the speculator!

Because, money don't buy as much now as formerly!

Because, everything the Farmer buys has gone up in price, why not Cotton!

Because, the Southern Cotton Association has fixed price for good Cotton at 11 cents, and this Association is fighting our battle, and has put millions of dollars in the pockets of Southern people!

Because, we should be true to Southern manhood and the Southland!

Because, if we show the white feather and sell, we will feel like kicking ourselves out of sight, when Cotton is selling at 11 cents to 12 1/2 cents per pound.

Stand pat for 11 cents!
J. E. Wannamaker,
Pres. Orangeburg Cot. Asso.
