NEGROES AT CAMP JACKSON

Four Sent From Florida Have Been Mustered In.

Columbia, Sept. 7.—The first negroes, selected for service in the national army, to arrive at Camp Jackson, reported at a late hour Thursday night, and have been mustered into service. They were four in number and hailed from Escambia county, Fla. The increment to report here was to have been white men exclusively, and it is said that the negroes were sent by mistake. They have been assigned to the First provisional regiment, infantry, depot brigade, and are quartered in section G.h.

Following are exact figures for the number of men who have reported at Camp Jackson and mustered into service up to 2 o'clock this afternoon: South Carolina, 511; North Carolina, 318, and Florida, 140. South Carolina is all in. North Carolina is still due 481 of her first increment and Florida 178. All of the first increment of 5 per cent from both of the latter States are expected by Sunday night.

Col. Edward Bell, infantry, commander of trains and military police, said this morning that the establishment of the provost guard in the city of Columbia had been delayed by the fact that the war department had not authorized him to lease a building to be used as headquarters for the guard. This authority will be forthcoming in a few days, he says.

"However," added Col. Bell, "the city of Columbia has been so orderly—both soldiers and civilians—that it does not look like we will need a guard." The military police commander is quite lavish in his appreciation of the fact that the sale of whiskey in South Carolina has been reduced to almost nothing.

"Ninety-five per cent, of trouble among soldiers is caused by whiskey," he declared, "From what I can learn it is almost impossible to get whiskey here however, I would be glad to see the city council pass a stringent ordinance prohibiting the sale of Jamaica ginger and certain extracts, except upon the prescription of a responsible physician. I understand Mayor Griffith has framed such an ordinance.

AMERICAN LABOR TO CRUSH DISLOYALTY

Conference Elects Gompers President of Alliance for Labor and Democracy.

Minneapolis, Minn., Sept. 7.—The American Alliance for Labor and Democracy, organized three weeks ago with President Wilson's approval, concluded its big loyalty conference here tonight with the election of officers and the adoption of a sharp declaration of principles.

The alliance elected as its leader Samuel Gompers, president of the American Federation of Labor.

Fran k Morrison, secretary of the American Federation of Labor was elected secretary, and J. G. Phelps Stocks, New York, treasurer.

The outstanding provisions in the declarations of principles include:

- Suppression of disloyalists and pro-German propagandists.
- Solidification of labor behind the government.
- Conscription of wealth as well as of men.
- Heavy taxes on incomes, excess profits and land values.
- Government control of industries in case of labor disputes.
- Action against speculative interests which enhance prices of necessities of life.
- Insurance for soldiers and sailors.
- Equal suffrage.
- Endorsement of President Wilson's decision not to permit the war to be made an excuse for lowering labor standards.
- Declaration that wage earners must have a voice in determining conditions under which they give service.

A committee was appointed to extend aid and encouragement to new Russia. It is composed of Mr. Gompers, Frank P. Walsh, John Spargo, former member of the executive committee of the Socialist party; and James Duncan and Charles Edward Russell, the latter two members of the American mission to Russia.

"I am unable to say whether the committee will go to Russia," said Mr. Gompers.

"The Red White and Blue" special departed for the East shortly after midnight, after a big mass meeting.

"It is a big movement" was the parting words of delegates. "In ninety days American labor will have crushed the disloyalists and will have a clear field in its noble battle for humanity."

TO STICK TO WHEAT PRICE

Food Administration Will Not Heed Isolated Protests.

Washington, Sept. 8.—The price of \$2.20 a bushel for wheat fixed by President Wilson will be maintained it was made clear today at the food administration, despite isolated protests from farming interests that the figure is too low.

The result of the price fixed, food administration officials say, is that the farmer will receive about 33 per cent more per bushel than last year.

The consumer should, they contend, obtain a saving of at least \$3 a barrel on flour.

A TEMPERANCE LESSON.

Newton Newkirk, who has been amusing newspaper readers for a number of years by chronicling the doings of rural folks in the Bangville Bugle, studies local color in the Maine villages during his vacation periods.

On one of the trips he formed the acquaintance of an old resident who had the reputation of being inordinately fond of cider.

Uncle Hez presented a sorry spectacle when Newt met him in the road one day.

"What has happened to you?" inquired the writer.

"I was up t' Sam Spradlin's and drank a couple o' dippers o' hard cider."

"I see—"

"On my way back here I crossed the bridge over Gander creek—"

"Uh-uh!—"

"And just as I reached the middle of the bridge I heard a splash!"

"What made the splash?"

"Well, there was a man flounder-in' about in the water, and when I looked around to see who it wuz, derned if it wuzn't me."—Pittsburgh Chronicle.

A READY WITTED PARSON

Boston Transcript.

The evening lesson was from the Book of Job and the minister had just read, "Yea, the light of the wicked shall be put out" when immediately the church was in total darkness.

"Brethren," said the minister with scarcely a moment's pause, "in view of the sudden and startling fulfillment of this prophecy, we will spend a few minutes in silent prayer for the electric lighting company."

The Polish question is also to be discussed during his visit, it is stated.

Would you mix your cattle-feed with cotton?

YOU know that such a combination would be carried through the digestive tract without giving the milk-producing and fat-producing food a chance to be assimilated. The lint on old style hulls acts the same way. It forms a pad or cushion-like covering around the concentrates that prevents the digestive juices from extracting the full amount of protein.

contain no lint to clog or flux the digestive tract. They are digested and they allow the other forage to be digested the same as hay or any other roughage. When you mix your feed with Buckeye Hulls you know that you are using roughage that will help—not hinder—the meal, corn, oats, or whatever concentrate you prefer.

Other Advantages

2000 pounds of real roughage to the ton—not 1500. Cost much less per ton. Go much farther.

No trash or dust. Easy to handle because sacked. They mix well with other forage. They take less space in the barn.

Mr. C. K. Henderson, Aiken, S. C., says: that he would rather have Buckeye Hulls than any others. He uses Buckeye Hulls altogether—says they are cheaper and better.

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.

A RUG ON YOUR FLOOR Is Worth Two In Your Mind.

Surely there are worn and frayed rugs here and there about your house—rugs that you've been THINKING of replacing. But just planning to get new ones doesn't improve the appearance of your floors a little bit.

These rugs will do all you want them to. They'll make your home look cheerier and cleaner and more prosperous. They'll wear probably longer than you can reasonably expect. They'll cost you but little, and pay for themselves many times over in length of service, in their brightening effect upon your home and in the satisfaction of having visitors and friends remark, "You have such beautiful rugs."
