

FORMER SHERIFF COMES OUT WITH THE FACTS

Prominent Man Says Money Couldn't Buy Good Tanlac Did For Him.

"COULDN'T MAKE MIS-TAKE."

"I Never Felt Better in My Life," Says Mr. Anderson, "A New Man Already."

"Money could not buy the good Tanlac has done me and I gladly recommend it for what it has done in my case," said Hon. Archie R. Anderson, ex-sheriff of Harris county, Texas.

Mr. Anderson is unquestionably not only one of the best known but also one of the most popular men that ever held office in Texas. After serving as deputy sheriff of Harris county for 12 years he was elected chief of police of Houston. He had occupied this office only a short time when the sheriff of Harris county died. Mr. Anderson's friends then persuaded him to make the race for the unexpired term of sheriff, to which he easily was elected. He was honored with re-election seven different times and served the people in this most important office fifteen consecutive years. Four years ago Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of that city.

"I was in a run down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night and did not feel like getting up in the morning I felt so tired. I had the worst form of indigestion, suffered all the time with gas on my stomach and was continually belching up undigested food. I had to take my coffee without sugar, for when I drank it with sugar I would belch for hours. I would bloat and swell up like I was poisoned and suffered with neuralgic pains of the worst sort, and nothing seemed to help me except in a temporary way. I just can't tell how I did suffer in the past four years and up until a few weeks ago when I began taking Tanlac.

"When I read the testimonials of some who had been relieved of troubles like mine I felt I just couldn't make a mistake by taking Tanlac, and it has done even more for me than I had expected. I began to feel better after taking my first bottle and I have just now started on my third, and I'm a different man already. I sleep like a log now and eat just any and everything I want without the slightest discomfort afterwards. I am glad to endorse Tanlac because it does the work, and I'm telling all my friends just what I am telling you. I never felt better in my life than I do since taking Tanlac. I am willing for you to publish my statement and let every suffering person who may wish benefit by my experience with this great medicine."

Eating Implement for Wounded.

Popular Science Monthly. Even the ordinary table ware is undergoing changes and improvements to meet the needs of the soldiers who have been wounded. The latest is a combination knife and fork which will enable a man to eat in comfort without having to call on some one else to cut up his food.

The knife blade is equipped with a bone handle at one end, and at the other it curves up and around and ends in four prongs like those of an ordinary fork. Below the prongs is a broad flat portion slightly dented in, to prevent the food from slipping off. This also serves as a spoon. In reality the implement is a combination of knife, fork and spoon.

FREEDOM OF THE PRESS.

A Very Different Thing From Un-restrained License.

Greenwood Journal. We are a very strong advocate of the principle of freedom of the press, but we do not believe in giving the press license to slanders and abuse, and vilify men who are in public office from the President down and call that freedom of the press. In the old days in South Carolina when gentlemen settled their difficulties in rather barbarous, but most effective way, a newspaper was afraid to resort to such mean contemptible tactics to gratify its spleen. The editor knew full well that he would be called to account, and made to show that there was manhood enough in him to face the issue fairly and squarely or else be branded an arrant coward. But in more recent years any coward may abuse men whose shoes he is unworthy to bear and escape without let or hindrance. We have seen this carried on almost indefinitely to the disgust of all men who believe in respectability.

Men of the class, who do this kind of thing, are too low down to notice. To do so would put the gentlemen abused on a level with them and so rather than get down to their level it is endured. There would be no use to call them to account in the courts; for they are as bankrupt financially as they are morally. The only relief—there should be relief—should be found in the government refusing to carry such filth through the mails. Letters containing obscenity are debarred and so should newspapers that resort to public abuse and vituperation.

Tom Watson's paper did all of these things and more. It defied the very government which guarantees the liberty of the press, and did a great deal to excite unreasonable prejudice in the minds of the people. In closing the mails to him not one single lick has been made against the freedom of the press. But there are other newspapers that are as vile and as bitter as The Jeffersonian. The only reason that prevents their shafts from being just as piercing is lack of ability. They should be ruled out, too, and ruled out promptly.

Yellow complexion, pimples and disfiguring blemishes on the face or body can be gotten rid of by doctoring the liver, which is torpid. HERBINE is a powerful liver correctant. BERLIN PUTS OUT 'FEELER'

So-called German Peace Terms Circulated in Washington.

Washington, Sept. 9.—What purported to be an outline of Germany's peace terms has been circulated among diplomats here within the last two weeks, but has been regarded by the entente embassies and most of the neutrals as a "feeler." The origin of the so-called terms was not disclosed, but they are said to have been written by Foreign Secretary von Kuhlmann before his visit to Vienna, which since has been pointed to as strengthening the possibility that they bear evidences of authenticity.

Briefly, the so-called terms were as follows:

Restoration of Belgium and Northern France, to be paid for out of the sale of Germany's colonies to Great Britain.

Alsace-Lorraine to be independent States. (High French officials recently have started anew the determination of France to be satisfied with nothing less than the recovery of her lost provinces.)

Trieste to be free port. Serbia and Rumania to be restored, and Serbia to have a port on the Adriatic.

The Balkin question and the status of Turkey to be subjects for negotiation.

Disarmament and international police.

This outline of terms, circulated without definite stamp of any official authority, it will be noted, bears in many respects a resemblance to the German tenor of the peace proposals of Pope Benedict.

When Children Are Cross, Be Kind. Don't be cross with children when they are cross. If they are irritable and pouty leave them alone to their blues by trying to divert their attention to some interesting book or game or toy. Get them outdoors to play or to walk. Take them for a ride. The common retort to cross children is in being cross yourself, but this only hurts the children and makes them moody and later despondent.

I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

SHOULD HAVE ROLLER MILL

To Editor The Lancaster News:

We are bending every effort to aid and encourage the farmer in producing an abundant supply of food products of all kinds and especially is this true when we consider the more staple crops, such as corn, wheat, oats, rye, hay, potatoes, etc. This is as it should be and is all good. But there is another side to the problem of an abundant food supply, that is the question of distribution. This should be done in such a way as to give the farmer a ready means of disposing of his surplus of any crop at a reasonable profit. This side of the problem should be handled by the men of the towns. It should be the patriotic duty of the people of every county seat to see that a medium is established that will give a proper balance to the supply and demand of food products in their county.

We are now asking the farmers of Lancaster county to sow a large acreage of wheat and other fall grains. The acreage to be sown will depend largely upon two things. First, the amount of seed available at reasonable prices, and second, the facilities for handling and utilizing the grain after the harvest. To aid in the first case I would suggest that the seed merchants buy a good quality of seed and sell on as close margin as possible. To overcome the second obstacle would it not be good business for the men of Lancaster to install a small roller mill to which the farmers of the county could bring his wheat and have it made into flour. Such a mill owned by a number of the leading business firms of the town should be profitable indirectly if not directly. At present it is necessary for our farmers to haul their wheat to Monroe, Rock Hill or Kershaw. Such a mill established here would turn more trade to Lancaster and enable more farmers to make profitable use of their wheat crop. More wheat would be produced. Better farms and a more prosperous people would be the result. Is it worth while?

Yours for service,
R. W. GRAEBER,
County Agent.

VERDUN BATTLE DIES DOWN

German Aviators Continue to Bomb Allied Hospitals Behind Western Lines.

The Russian troops on the Riga front apparently are still impeding the Germans in their attempts at further advances into Russia and in the south along the Bekovina frontier, as in lower Rumania, they have taken the offensive with the Rumanians and won victories over the Teutonic allies.

Around Verdun the fighting between the French and the Germans has died down to intermittent artillery duels. In Champagne there has been a resumption of somewhat violent operations in which Gen. Petain's forces have won successes.

From the Belgian coast well down into Flanders the artillery duels continue of a most violent nature, but with Field Marshal Haig's guns apparently doing the major portion of the work. Aside from the usual trench raiding operations, however, the infantry is still keeping to the trenches.

German aviators continue their shelling of allied hospitals behind the lines. Monday night they carried out their latest raid in the region of Dunkirk, where bombs which

fell on a hospital wounded five women.

The Swedish foreign office announces that it will not recall the Swedish minister to Argentine because of his connection with the use of the legation by the German charge d'affaires for the forwarding of messages to Germany. The foreign office asserts that the Swedish minister did not know the contents of the dispatch.

Germany's reply to Pope Benedict's peace proposal has not yet been made public, although work on it is in progress. Unofficial advices say Emperor William has returned from the eastern battle front to confer with the imperial chancellor and the foreign minister concerning the contents of the document.
