The following is from the Rock Hill Record of Monday and will be of interest to the people of Lancaster, where Ira Dunlap was born and reared to young manhood:

There was hung in the lobby of the National Union Bank at noon today a splendid oil portrait of the late Ira B. Dunlap, who for many years was president of that institution. It is the work of Miss Clara Barratt Strait, who by this bit of work again proves herself an artist

of the highest rank. The portrait is radiant with life—vibrant to a remarkable degree. Those who loved Ira Dunlap rejoiced once more to see that smile which was such a characteristic of the man. The bank is to be congratulated upon its possession of such a fine portrait of its long-honored officer. Certainly, Miss Strait is to be congratulated for this splendid work from her brush.

GRAND JURY SUBMITS REPORT FOR COURT TERM

Praises On All Bills, Visits County Institutions And Makes Few Recommendations.

To His Honor, I. W. Bowman, Presiding Judge:

We, the grand jury of Lancaster county, beg to herewith submit our report for this term.

We have passed upon all bills of indictment handed us by the solicitor.

A committee from our body has visited the county jail and we find it clean and well kept and in good sanitary condition. The few prisoners in jail told our committee that the food was good, well cooked and wholesome. We recommend that a porch be erected on the east side of the jail building for the convenience of the jailer and his family.

A committee from our body visited the county chaingang and find same well kept and in good sanitary condition and none of the prisoners had any complaint to make.

The stock we find in good condition.

A committee from our body also visited the County Home and we consider it badly in need of attention and the work should be done at once. The house is without screens, the hall from the inmates' rooms leads right into the kitchen and the inmates' rooms and the kitchen are entirely covered with fly specks. We again recommend that the house be screened and painted throughout with one coat of paint and some repair work done on the front porch. We also recommend that the keeper be instructed to clean off the cemetery and keep it in good condition.

We further recommend that fifty fruit trees of different varieties be planted, in order to have an orchard for the future, and that the county agent have charge of purchasing same and attend to the planting.

A committee from our body examined the books of the probate judge's office and the mode of carrying on the work and we find the work done in order and in the proper way.

We recommend that the bridge across Camp Creek on the old Camden road between Camp Creek church and Carmel be repaired or rebuilt, as it cannot be used in its present condition.

This body wishes to go on record as being strongly opposed to the law which enables violators of the prohibition law to be let off with a fine, said fine being suspended until some future date, thus enabling said violators to sell enough whiskey to pay their fine, which has a tendency to discourage the officers of the law in the faithful discharge of their duties.

We recommend that the county engineer have the grand jury room painted with two coats of paint and the floor of the front porch be repaired, as it is in bad condition. This room is also used by the county board of registration and the office is continually visited by the women of the county.

We wish especially to commend the county engineer and the county board of commissioners for the splendid work done on the county roads with the funds in hand. The best work on the roads of the county has been done in the past year.

We also wish to commend our sheriff and his several deputies for the magnificent work they have accomplished in running down violators of the prohibition law and wish to assure them of this body's hearty support.

We beg to extend to His Honor and the Solicitor our thanks for the courtesies extended this body during this term.

Respectfully submitted,
R. H. Massey, Foreman.

Many Have Had Spanish Settlers.

Off the coast of Queensland, Australia, are the New Hebrides islands, which some scientists believe were once occupied by the Spanish, for a little way from St. Philip's bay, evidences of such occupation have been dug into from time to time, along with certain other ruins, which from the little examination they have had indicate an even more remote occupancy.

Origin of Dollar Mark.

Some claim that it is a modification of the English symbol (£) for the pound. Another explanation is that it came from the letters U. S. written one over the other. Yet another theory is that the two upright marks represent two pillars of brass before the temple of Solomon, which early appeared on our coins and became intermingled with a scroll.
