From the Alexandria Gazette, Feb. 9.

Yesterday evening, at a late hour, the Seminole question was put to rest. Mr. Clay spoke for some time, and was answered by Mr. Floyd, and Mr. Irvine, of South-Carolina. Your readers will readily excuse your not giving any more of the speeches. Every question, and there were several, was carried against the report of the military committee, and in favor of gen. Jackson's conduct, by an immense majority. On that part connected with Arouthnot's execution, the question being taken by ayes and noes—the majority was 108 to 62. On that which respected Ambrister, the majority was 107 to 63: and a motion of Mr. Cobb's, to deciare the seizure of Pensacola and St, Carlos de Barancas comrary to the constitution of the United States, was negatived by 100 votes to 70. Thus has the uninterrupted employment of about 200 legislators, for three weeks, terminated: and such is the bargain which the American people have got for about 30,000 dollars of compensation money. lumping pennyworth, no doubt!!

INTERNAL IMPROVEMENT.

We are happy to find that great exertions are made to improve the Inland Navigation in every part of Junius. our State.

On Pedee, the neighbors interests ed have associated to find laborers and promote the undertaking, while the operations are directed by the State Engineer with skill and experience, and the incidental expences defrayed from the funds appropriated

by the Legislature.

Major WILSON, the Engineer, has contracted for opening the Broad and Saluda to their confluence, and the Congares and Santee Rivers to the ocean. By this, a very large proportion of the interior of our State will now receive their supplies and send their produce to market by water carriage, which hitherto, they could only do by land; the freighting business will therefore be greatly increased on those rivers, and we find preparations made to profit by it .-The Congaree and Santee Steam Boat Company have obtained an accurate survey of the Sea Coast, and made engagements for rendering it perfectly practice ble for Steam Boats -thereby evincing a foresight and prudence that must ensure success. They have likewise sent orders for an Engine on the most approved plan, and made such other arrange-

ments that their boat will certainly

that they will receive that proportion of the business.

Major Wilson has likewise conracted for opening the Wateree and Cataba, up to the Falls of Rocky mount and for making a good portage round those Falls, so as to communicate with the upper part, which the Cataba Company of North Carolma have undertaken to render navi gable as far as the Mountains .-This enterprising Company intend We feel it our duty to caution the to connect the upper part of the Ca-I taba by a Canal or portage, to the ER, who has been figuring in this Wataga or the Natachukey Rivers. place and in Augusta for some time of Tennessee, by which the produce past. He left Augusta indebted to of the rich valley of Tennessee, as that of the finest portion of North Carolina, will be shipped, and their mality of a farewell. Along the supplies received through Charleston

The Santee Canal Company will likewise profit by this increase of business—they have lately erected Steam Engines to secure a permanent supply of water from the river, ville, and Raleigh would do well to so that it is confidently hoped there will be no more interruptions from

On Pedee, a similar arrangement The U. S. ship John Adams, was has been made with that of Edisto. at New-York 25th ult. waiting a and the vinyaw and Wando Canal she is to proceed to Jamica, to bring gressed in connecting those fine rivers with Charleston. Beyond the North Carolina line, on these aters, the Yadkin Company, aided by the State, will open that navigation, so that a large portion of the most productive part of North Carolina will hold a direct trade with Charleston by water carriage, and their produce be shipped from this port with all the advantages attending such transactions—advantages that are enjoyed in a greater or less degree by every inhabitant of Charleston, by the increase of commercial advantages.-Our prospects are very flattering if we use but common exertions to sccure and promote them.

SAVANNAH, February 4. A rumor was very prevalent in London that the king of Spain had absconded from Madrid .- By letters received it is stated that he had destroyed himself, and by others, that be had been murdered. The Times observes, that the aspect of affairs in Spain was such a made it but too probable some crisis was at hand. Certainly something serious has occurred in Spain.

Sir Philip Francis, the supposed author of Junius, departed this life on the 22d Dec. last, in the 79th year of his age. Papers and documents are said to have been found which conclusively prove that Sir, Philip Francis was the author of

CANCERS. In consequence of a notice published in the Mercury of the 8th instant, extracted from the Baltimore Patriot. requesting a complete description of the plant called " Evergreen," which is said to be a complete cure for the cancer, a lady called at this office on Wednesday last, and left us a sample of the plant. She says it is better known by the name of mountain tea, than that of Pipsissaway. She had herself been afflicted with a cancer: had had it extracted by knife: but it returned and became worse than before. She had observed a publication in the newspaper recommending Pipsissaway, but did not know the plant by that name, until informed by a lady that it was generally known by the name of mountain tea. She procured a quantity of the tea, made a decoction of it; drank copiously of it throughout the day, and bathed the cancer with it-By a regular proceeding in this course, a cure was completely effected without any inconvenience. The tea is pleasant and mild. 'The lady showed us the mark where the cancer had been on her lip; and said that she wished the fact made public for the benefit of others who might be lafrom Columbia, there is no doubt boring under this dreadful complant.

THE MAIL ROBBERS CAUGHT. Copy of a letter from the Post Master of the City of New-York, to the Post-Master General, duted Feb. 3d, 1819.

"I have the pleasure to inform you that two of the mail robber, mentioned in my letter of yesterday. (their names Mauric and Bertran ... both F. nchmen,) were this mornia., apprehended by two of our police officers, and are now under examination before our city police magistrates. They found upon them, secreted in their cloths, about one thousand dollars; the search not yet completed. The third robber is also a Frenchman, of the name of Doctor Henrie, who, it is believed, is making his way for Philadelphia, There can be no doubt but that these are the villians who perpetrated the robbery."

NEW-YORK, Wednesday, 1 o'clock, Two men were arrested in the upper part of the city, and brought to the police office at 12 o'clock, where they are now under examination .-A note from Col. Christian, the magistrate, to Con. Bally, cays, "they are no doubt the identical persons: about 1000 deliars are already found upon them. One of them is a stout. tall man; the other writes his name "Ih. Maurie." Part of the money |

The name of the tall man is Bertrand, or Bairtram, an Italian.

1050 dollars are found upon them; among which 4 notes of 100 dollars each, from a southern correspondent to Messrs. W. W. and T. L. Chester, in this city.
