

Among other depositors, we recognize Domestic, Washmakers, Clerks, Laborers, Carriers, Carpenters, Tailors, Shoemakers, Hatters, Tobacconists, Printers, Chair-makers, Book-binders, Boatmen, Public Officers, Merchants, Bank Porters, Sodawater-sellers, Nailers, Tayloresses and Farmers.

We were particularly gratified to see lads, and young men from 16 to 20 years of age, principally clerks, bringing in their little deposits of from two to six and ten dollars.—Let this description of youth, as well as others, be persuaded to relinquish the extravagance of dress and the indulgence in idle amusements, and put their savings at interest, and when they commence business for themselves, they will start in life, not only with a little capital, but also with habits of the most honorable and salutary kind.

As this is the commencement, and a very auspicious commencement, of the operations of the Savings Bank in this city, we have deemed it proper, on our own editorial responsibility, to detail to the public these interesting particulars. And believing as we do, that this institution, if suitably encouraged, will prove a distinguished blessing to the poor and, in its effects, an incalculable benefit to the moral state of the community, we cannot omit again to request our fellow-citizens in general, to urge upon their domestics and poor neighbors, the importance of placing as much as possible of the fruits of their industry and economy at compound interest in the Savings Bank.

BOWLING-GREEN KEN, JUNE 19.
The President of the U. States and Gen. Jackson, arrived at this place on Thursday evening last.—Learning that the President would be here about that time, several gentlemen of the town and neighborhood were deputed to meet the President and the General at South-Union, about 13 miles from here, to welcome their arrival, and to invite them and their suite to take dinner the next day in town.

We understand, that the President will be deprived of the opportunity of visiting other parts of the state, which he had intended, by the call of public business for his return to the Federal city.

CHARLESTON, JULY 17.
Attempt to Fire the City!—We would urge the necessity, as well as duty, of all the good citizens, to be vigilant at this time, and endeavor to detect the vile incendiaries, which it is too apparent now infest our city, and whose aim appear to be the destruction of our property by fire. Wednesday morning, about 2 o'clock, the house situated on the N. E. corner of Church and Chalmers' street, occupied by Mr. John Foster, as a grocery, was discovered to be on fire. It appears, from Mr. F's own statement, that a parcel of combustible matter was put through a small hole in the shop, made for the purpose of admitting air. The counters and shelves had already taken fire, and the flames were progressing rapidly, when Mr. Foster, being awake at the time, immediately gave the alarm, and succeeded in checking the flames.

Extract of a letter to the editor of the Boston Daily Advertiser, dated Port of Spain, Trinidad, May 17.

"I have the satisfaction to send you a file of the Corren del Drinoco, in Spanish, from which you may extract much novel information relative to Venezuela. In three of the numbers you will find the famous speech delivered at the installation of the second Congress. It is worthy of perusal. I sincerely wish I had time to translate it. You will also find an article in number —, entitled North America, which is a well written invective against President Monroe, with respect to the conquest of Amelia Island. Its author is Mr. German Roscio, a member of the Congress. He resided many years in the U. States, and is a man

of eminent talents, and a profound politician.

"I have also the pleasure to transmit to you a file of our miserable inland Gazettes. The actual state of political affairs and military movements, is as follows: The second Congress has been recently installed at Augustura, as you will see by the papers. The Patriot army, under the command of General Bolivar, is on the left bank of the river Apurita, and near the enemy. The vanguards of the two armies have recently had several skirmishes, in which the Patriots were successful.

"The independent Gen. Paez has under his command a well disciplined cavalry; we wait with impatience for favorable intelligence from that quarter. All the English forces, who have lately arrived from England to aid the Patriot cause, have concentrated at the island of Margaritta, in number 2000, under the command of Colonel English and Major Ursler, and were to have landed at Laguira, in order to make a decent upon the Caraccass, which is left unprotected, by the absence of Morillo's army. The expedition has already sailed from Margaritta, and we are in daily expectation of receiving the glorious news of the fall of Caraccass.

"While on another quarter, the city of Cumana is besieged both by land and sea, by the military and naval forces of General Bermudas and Admiral Brion. Cumana must fall. Barcelona is unprotected, and will therefore meet the same fate with Cumana. Quiria, Malburin, Cumanao, and the extensive plains of the interior, are in possession of the Patriots. Every thing has a very flattering appearance. The arms of freedom and independence must triumph. The New World must be free and independent from north to south.

"The news from New Grauada is also very flattering."

CAMDEN.

THURSDAY, JULY 22, 1819.

At a meeting of the citizens of Camden on the 5th instant, the following Gentlemen were appointed to officiate in celebrating the Fourth of July, 1820.

- EDWARD C. BREVARD, Esq. Orator.
- JOHN BOYKIN, Jr. Esq. Reader of the Declaration of Independence.
- THOMAS SALMOND, Esq. } Committee
- THOMAS LANG, Esq. } of
- Capt. POSTELL M'CAA, } Arrangements.

THE COMET.

We regret that the state of the atmosphere has prevented our making any accurate observations on the Comet, whose appearance we noticed in our last number. Its declination on Tuesday evening, at 9 o'clock, was about 50° 30' N. and its Right ascension, 148°.—When viewed through the telescope, the nucleus appeared like a rude mass of matter, illuminated with a pale dusky light. From the apparent diminution of its splendor, since we first saw it, we believe it to be receding from the sun, and will therefore probably disappear, before we shall be able to determine the situation of its nodes, or the inclination of its orbit to the ecliptic. It rises about three o'clock in the morning, in the North Eastern part of the horizon, when it may possibly be seen more distinctly, and shine in greater splendor than in the evening.—*Columbia Gazette July 20.*

Two Comets.—A Writer in the National Intelligencer affirms there are two Comets visible at present. He says—"Whoever may have the curiosity to see them, can by rising early or sitting up late, be gratified with a sight of both, the same night. I was at first inclined to believe them to be one and the same thing; but upon observation, I discovered that the one to the eastward appeared above the horizon in a little more than four hours after the one to the westward sunk below it. On the 5th of July, about 15 minutes after 2 o'clock, A. M. one appeared above the horizon in about an E. N. E.

direction; and at 40 minutes after 9 o'clock P. M. the other sunk below it, in a W. N. W. direction.

SPANISH TREATY.

Captain Ripley arrived at Boston, 47 days from Cadiz, states that the treaty ceding the Floridas to the U. States, had been ratified; and that Lt. Read, was to sail with it for this country on the 1st of June.

Captain Rumney, arrived at Alexandria, in 32 days from Gibraltar, brings intelligence that it was reported at that place, "The treaty with Spain was not signed on the 26th of May.

The London Courier of May 28, announces the arrival of Mr. Forsyth at Madrid on the 14th of the same month. The circumstance induces the Editor of the New-York Evening Post to think it evident the treaty was not signed at the time Capt. Ripley left Cadiz. That it will be signed, is morally certain. Spain, in her present crippled and paralyzed condition, will not dare to temporise with the United States. Doubtless Ferdinand has read with attention the following declaration of Mr. Secretary Adams!—"If the necessity of the case should again compel the United States to take possession of the Spanish forts and places in Florida, declare, with the candor and frankness that becomes us, that another unconditional restoration must not be expected."

The subsequent article is from the Washington City Gazette. We have referred to the Alexandria ship news for the arrival mentioned below, and which, if correct, must bring accounts 17 days later, and might be relied on as authentic—but it appears there is no arrival from Cadiz in the marine list of that place.—Probably it is the arrival from Gibraltar in 32 days which the Editor has reference to.

THE SPANISH TREATY.

"By a vessel arrived this morning at Alexandria, 30 days from Cadiz, we learn that the treaty with Spain was not ratified; and it was confidently asserted there, that it would not be. British influence was said to be operating to prevent it. The vessel which carried out our minister, was still detained, from which some American gentlemen at Cadiz thought favorably of the results.

"From this however, we may draw a different conclusion, and that Mr. Forsyth was detaining her to return immediately."—*Fed. Rep.*

MARRIED—On Tuesday evening last, by the Rev. Isaac Smith, Mr. JAMES NEWBERRY to Mrs. MARY WOODWARD, both of this place.

NOTICE.

Those persons who are friendly disposed to the establishment of a BIBLE SOCIETY in this place, are respectfully informed that a meeting will be held for that purpose at the Baptist Church on Sunday next at one o'clock.

Alexander M'Ra.

July 21, 1819. 71-73

RALEIGH AND PLYMOUTH Line of Stages.

THIS Line of Stages was established last fall, with the view of connecting the main Southern with the Edenton line, thereby opening a communication North and South, by way of Norfolk—a thing long desired. And the experiment has abundantly proved, that this route is capable of affording all the advantages which its warmest friends expected.

The proprietors have now enlarged their plan, and will in future run four horse Stages, and in a style suited to the importance of the route. They are determined to spare neither expense nor trouble to render this line commodious to travellers. The Stage runs through from Raleigh to Plymouth in two days, resting the first night at Tarborough, and arriving at Plymouth in the afternoon of the second day, in time to take the steam-boat and reach Edenton that evening.—The Edenton Stage sets out the next morning and arrives at Norfolk in the evening. Thus in three days, by easy travelling, and the nights allowed for sleep and rest, the Stage performs the route from Raleigh to Norfolk; and one day more takes the passengers to Baltimore.—This line is run each way, three times a week. The road is one of the best in the country, and the accommodations are very good.

The lines from Fayetteville to Raleigh and from Edenton to Norfolk, are kept in excellent order and superior style. An agreeable passage is therefore open from this state and the States south of this, to the northern and eastern States; whereby a man may travel from this, in comfort and ease, take his accustomed rest, and arrive in Baltimore sooner than he can by the upper route of Stages.

If good Stages, Horses and Drivers, with an obliging attention to travellers—if an excellent road and good fare, with the privilege of resting of nights—if convenience and dispatch, are calculated to recommend a line of Stages to the public, then is this line entitled to the public patronage. And that patronage is respectfully solicited by THE MANAGERS.

Raleigh, June 30, 1819. 71-74
