Bradford's Springs.

IT is a circumstance of no small importance to the citizens of this State to have a convenient and healthy situation, to which they can have access during the Summer and Autumnal months.

The Bradford Spring, at this time, exhibit such a situation. The buildings, here, are capacious and convenient; and are as well calculated for the accommodation of the delicate and infirm, as those who are in search of pleasure.

The situation is, probably, one of the most eligible that this country affords. The elevation is considerably above the common level of the surface. The rise and declivity of the hill is gradual and regular: and its summit smooth and unbroken. The Springs empty out of the basis of the hill, at different apertures, where it abruptly breaks off, in almost, a perpendicular descent.

The water is a strong mineral. It is transparent and palatable. The ingredients which form the composition of this mineral, have not yet been accurately ascertained by chymical analysis. A few individuals have annually visited those Springs, and those alone, can form an adequate idea of the advantage which results from attending them.

The ruinous condition of the buildings in all probability, and the want of accommodation has, hitherto, prevented a number of persons from attending these Springs. But the subscriber flatters himself that he is now, well prepared for the accommodation of a number of persons. And he pledges himself to spare no exertions to render the situation of all those who attend these Springs both comfortable and agreeable

NEW-YORK, AUGUST 20.

LATEST FROM ENGLAND.

The following extracts are from Liverpool and London papers, received by the ship Hercules, capt. Cobb, in 46 days from the former place:—

LIVERPOOL, JULY 1.

The market during the past month may be said to be generally dull, and prices undergoing a slow but gradual decline. The reduction was fully 1-2d per lb. but within a few days past there has been a strong disposition to buy; and Uplands and New-Orleans have been selling again at improved prices; the middling and good qualities are most in request, and have advanced 1-2d per lb. We quote Uplands from 10 1-2d to 11 1-2d for ordinary to fair; 11 3-4d to 12 1-2d for good to fair; and for very good 12 1-2d. New-Orleans from 10 1-2 to 13d; and good Upland to 14 1-2d. Sea Islands 23d to 2s 4d; very fine 2s 10d a 3s. Bengals 5 3-4d a 7d.—Surats have declined, in consequence of the preference given to Uplands.

Ashes has undergone some decline—39s has been accepted for some New-York Pots of fair quality.—Boston is 31s dull. Pearl Ashes are very dull, prices nominal. We quote from 44 to 46.

Tobacco.—There is a pretty fair demand for home trade and exportation, and prices are about maintained. 4 1-4d has been accepted for ordinary stemmed, and 4 for good quality.

Turpentine is in very limited demand, 11 to 12s per cwt.

Tar is in fair demand, at 14, 9d a 15s.

Rice has been in more demand, and good qualities have improved.—22s a 22s 6d are now obtained for the best, and 23s is asked.

Our grain market has improved a little. The best Wheat is saleable at 8s 6d a 9s per 70 lb. Sour Flour has advanced in price, 30s a 32 is asked for New-York, and 32s 6d a 33s for Philadelphia. Sweet Flour has also improved a little; the quantity in market is very small; 36 a 38s may now be quoted. Sweet Flour in bond meets with partial demand; it is offered at 30s for Philadelphia. 22 a 22 1-2 is offered for sour.

Bark, 14 a 21s.

Beeswax, 11l a 12l 10s.

Extract of a letter from a respectable house in Liverpool to their correspondent in this city, dated 1st July, 1819.

The weather lately having been rather cold and wet, our harvest will not be so early as the fitness of the spring led us at one time to anticipate, but so far no actual injury had been done to the growing crops, and they are reported in general to look well. With future favorable weather, it will therefore be perceived from the state of the average returns at present, that our ports may be expected to close next quarter against all descriptions of Foreign Grain, more especially when it is considered, that while the import rates remain fixed at what they were, the market prices of every thing under a return to a metallic currency are relatively reduced.

Aggregate average of wheat for the week ending June 19 .68 11.
