

BOSTON, SEPTEMBER 7.

It is announced from several quarters, though we know not on what authority, that the 45th parallel of latitude has been determined, by the commissioners for settling northern boundary of the United States to run some distance south of the place where it has been formerly reported to run; and consequently that the fortifications at Rouse's Point on lake Champlain, on which some hundred thousand dollars have been expended by the government, besides an extensive tract of territory, inhabited by citizens of the United States, will fall within the jurisdiction of Lower Canada.

NEW-YORK, SEPTEMBER 4.

Declaration on the Independence of Texas.—The Louisiana Herald, received this morning, contains a copy of a Declaration, issued on the 23d of June, by the Supreme Council of the Republic of Texas.

The citizens of Texas have long indulged the hope that, in the adjustment of the boundaries of the Spanish possessions in America, and of the United States, they should be included within the limits of the latter. The claims of the United States, long and strenuously urged, encouraged this hope. An expectation so flattering prevented any effort to throw off the yoke of Spanish authority, though it could not restrain some unavailing rebellions against an odious tyranny.

Animated by a just confidence in the goodness of their cause, and stimulated by the high object to be obtained by the contest, they have prepared themselves unshrinkingly to meet, and firmly to sustain any conflict, in which this declaration may involve them.

Done at Nacogdoches, this twenty third day of June, in the year of our Lord 1819. JAMES LONG, President of the Supreme Council. BISHOP TAIN, Secretary.

SEPTEMBER 8.

Latest from South America.

We have been favored with the Curacoa Courant of the 7th of August, containing the following:

Accounts from Lagaira since our last, state that official intelligence had been received there of the capture of Barcelona, by the Patriotic expedition of Margarita. There were only forty men found in the works at Barcelona when it was surrendered. It seems they defended themselves till the whole of their ammunition was expended, and were every soul afterwards put to death by the conquerors. Goraia, who commanded at Barcelona had sent a detachment of cavalry, consisting of 30 men and a lieutenant, to reconnoitre the enemy, who proceeded to the suburbs of Barcelona, without meeting any opposition; they there surprised a picket of six men and a sergeant, whom they put to death before any alarm could be given.

We are also informed, that Guerrero, who commands the Spanish flechas, lately captured a sloop from St. Eustatia, under Dutch colors, and an English schooner from St. Thomas, both laden with provisions and clothing for the use of the independents in Barcelona. These vessels were sent into Cumana to be unloaded, and the sloop, it is said, has since arrived at Puerto Cabello, and is offered for sale there.

Parcira, an Indian chief, attached to the Spanish cause, had intercepted 2000 head of cattle, sent by Morino for the supply of Urdaneta's army, and the English expedition from Margarita, of which Urdaneta is commander in chief. It appears that the accounts from Puerto Cabello, which we gave in our last, relative to an engagement having taken place between the Spaniards and Patriotic naval forces, turns out to be somewhat incorrect. It seems the fleets were for some time in sight of each other, but that neither of them showed any disposition to fight.

A letter from Aux-Cayes, dated the 15th of July, says, "M'Gregor, with about 300 men, embarked last night in this road, on board of three or four vessels. It is supposed that he intends to make an attempt to recover Porto Bello. From the dispositions made by Bolivar, to attack the vice-royalty of Santa Fee, it is believed that M'Gregor's expedition will have a favorable result.

BALTIMORE, SEPTEMBER 13.

From Havana.—Capt. Glashure of the Sarah Ann, in 9 days from Havana, states that on the 29th of August arrived at that port the Spanish frigate Sabina, with her convey, of twelve transports, in 40 days from Cadiz, having on board three thousand troops, under the command of Don Juan Manuel Cayigal, Governor of the Island, the late governor Don Joseph Cienfa Fuegos being recalled to Spain.—The white inhabitants of Cuba were considerably alarmed on account of some attempts of the blacks to an insurrection.

WASHINGTON, SEPTEMBER 8.

Indiana.—Jonathan Jennings is re-elected Governor of the State of Indiana by a majority of three to one over O. Harrison, his opponent; and Ratliff Boon is elected Lieutenant Governor by a majority of two to one over his opponent, J. D. Pauw.

Michigan.—A Delegate to Congress is about to be chosen by the

people of Michigan, for the first time, under an act passed at the last session of Congress. Several candidates are already named; amongst whom are, A. B. Woodward, William Woodbridge, John R. Williams, Henry I. Hunt, and Major Maxwell.

The present Governor Bibb, of Alabama Territory, is a candidate for that office, under the new constitution; and Messrs. Henry Chambers and John Crowell are candidates for Congress.

CAMDEN.

THURSDAY, SEPTEMBER 23, 1819.

Pensions.—The Pension List of the United States is of a formidable length; and every day additional names are inscribed on it.

We do not mean to quarrel with this, because we sincerely approved, when it passed, the principle and motives of the act for granting pensions to the survivors of the Revolutionary War. But the number of these objects of national generosity, or, if the reader prefers it, of national justice, has far exceeded the calculations made by the venerable father of that measure.

Calcutta, Bombay, Rangoon and Ceylon were suffering (on the 26th March last) severely by a cholera morbus. It had extended to Ceylon and carried off both natives and Europeans at Colombo. Accounts from Calcutta of the 24th March, represent the cotton crop as very unfavorable, and that the prospects of the cultivators were blasted.

COLUMBIA, SEPT. 2.

Report of deaths in Columbia within the last two weeks.

Malignant Fever, 2—Hydrocephalus internus, 1—Sudden death, 1. The above cases of malignant fever were evidently brought from Charleston.

We have still the satisfaction to state that Columbia is blest with an almost uninterrupted state of health, not a single case of serious fever having occurred among its inhabitants this summer, and but three deaths within the last four weeks.

By order of the Faculty, EDMUND C. PARK, Sec'y. Pro. Tem.

Health of Darien.—We learn by the Darien Gazette of the 13th inst. that the health of that place is perfectly good;—"that there is not at the present moment a case in the town considered as dangerous, nor has one occurred throughout the season that exhibited any infectious symptoms.

The Hospital for Indigent Strangers.—Eleven persons have been restored to health and discharged from this Hospital, which was recently established by the city council of this city.—Fourteen others, males and females, still remain, most of whom are convalescent. This establishment reflects the greatest credit as well on the public authorities as the city generally.

Charleston Times.

The British government brig Hecla, Lieut. Parry, and Griper, Lieut. Hoppner, sailed from Sheerness May 18, and from Scilly on the 24th, for Davis's Straits, in search of the north-west passage.

Lieutenant Franklyn has embarked for the British Possessions on this continent, with a view of proceeding by land to explore the northern regions, nearly in the track of Mr. Hearne.

Privateering.—We hear an expedition of two boats is fitting out at Boston against the Sea Serpent, which has so courteously visited our shores; a bounty of 100 dollars to be paid if they get sight of his Snakeship, 500 if they stick a harpoon into him, and 10,000 if he is taken.—Salem Gazette.

A Pittsburg, (Penn.) paper says, "Grasshoppers are so numerous and voracious near that city, that they lately ate, in one night, a hat which was left in the field."

In Ohio, this autumn, corn is expected to be at 25 cents and wheat at 50.

A Paris paper says, the farmers in the south of France are reduced to despair in consequence of the cheapness of Wheat.

The New-York papers say, that in the N. W. parts of that State, particularly at Geneva, Wheat was selling at 50 cents a bushel, Butter 12 1-2 cents, Ducks, (not canvas back, we presume) 37 1-2 cents, and every production proportionably cheap. This may be considered cheap living; but as the Irishman said, when told that potatoes were sold in his own country for a pistareen a bushel, where said he, is the pistareen to be got?
