Com. Rodgers' visit to the Eastward is understood to have objects of greater importance than the examination of candidates for promotion in the Navy. We understand that this experienced and scientific officer, left Washington for the purpose of making a complete inspection into the state of our naval preparations in the Atlantic ports N. and E. of the Metropolis; and that which cannot fail to have a highly beneficial effect upon those branches of the naval service which his tour will extend to on the Lakes.—*Nat. Messenger.*

Grand Menan.—The New Brunswick Gazette announces that Colonel Arnold and two other British Engineers, have proceeded to the Island of Grand Menan, for the purpose of surveying its defensible points, and designating points for Fortifications. This island almost touches the American boundary, and effectually commands the Bay of Fundy, and must of course, be of immense importance in any future wars between the United States & G. Britain.—*Bos. Cent.*

Evidence of respect.—While the Clerk of the House of Representatives of the Tennessee Legislature on the 31st ult. was reading the Rules of Decorum drawn up and reported, Gen. Andrew Jackson was discovered to be among the spectators in the lobby—the Clerk was stopped, on motion of Mr. Grundy, who moved that the General be invited to a seat within the bar; the House unanimously voted in the affirmative, and the members tendered the high evidence of their respect, by rising as the General entered.

Dr. Pascalis (says the National Advocate) in an account of the yellow fever in Spain, mentions a village which escaped contagion entirely in consequence of the number of bakers, which gave rise to the idea, that the smoke of the ovens purified the air, and deprived it of its deleterious effects. We can readily believe this to be the case, and from personal observation. The city of Tunis is partly surrounded by a canal, in which all the filth of that confined place is deposited: there is no water, or running stream, to cleanse the canal: the filth is settled, and constantly covered with a thick green scum, and emitting a most offensive odour, as it is under the walls of the town—it is also under the windows of the houses inhabited, generally, by Europeans, and yet no ill effects have been felt from it. This is accounted for by the numerous baths in the city, which are heated by burning rosemary bushes and balsamic herbs, which purifies and sweetens the air. Seldom have instances of malignant fever occurred there, though the plague prevails—yet, Europeans, by quarantining themselves in their houses, and taking the air on their terraces, escape the contagion. Europeans have taken a fever by residing in the neighborhood of the ruins of Carthage and Utica, and exploring the subterraneous passages, inhaling the confined air, &c.—but, in the city, there is not so much danger.

The late election in Vermont has terminated in the re-election of Gov. Galusha, Lt. Gov. Grigham, and a republican council.

The first Election for Officers of the State of Alabama took place about the middle of last month.—We have heard only from Montgomery county, in which *W. W. Bibb* has a majority of 90 votes over *Marmaduke Williams*, for the Office of Governor. None but a native can be Governor of the State.

Delaware.—The Delaware General Election has just taken place.—We are surprised that *HENRY MOULTON*, of Federal politics, is elected Governor of that State, by a majority of upwards of 600 votes over *MANAEN BULL*, the Republican candidate.

Patriotic Recommendations.—We observe in a Newark paper, that the Grand Jury of Essex County, New Jersey, in considering the increase of vice and crime have with great propriety traced it to the "want of employment among the laboring and industrious portion of community." After some very appropriate remarks illustrating the necessity of encouraging domestic industry, they conclude by recommending to their fellow citizens the use of domestic manufactures in preference to foreign—and the institution of Societies for the promotion of Agriculture and Manufactures throughout the County and State.

According to the Catalogue, lately printed, of the Officers and Students of the University in Cambridge, Mass. the number of Officers of Instruction and Government of the University is thirty-one, viz: The President, twelve Professors, exclusively devoted to their duties in the University, two Tutors, four Proctors, a Regent, and an Assistant Librarian, seven Professors who lecture in the Medical School, two Professors of the Law School, and an Instructor in the French and Spanish.—The number of students in the several departments and classes is 383.

University of Pennsylvania.—At a late meeting of the Board of Trustees of the University of Pennsylvania, the honorary degree of Doctor of Laws was conferred upon the Hon. William Gaston, late Member of Congress from the State of North Carolina—and at the same time the Degree of Bachelor of Arts was conferred upon Samuel S. Smucker, of Pennsylvania.

The Western Canal.—The Palmyra (N. Y.) Register states that the Engineers have commenced the survey of the Northern route of the Grand Canal—that 25,000 men, with a competent number of horses and oxen, are now at work on the middle section—and that it is still believed that this section will be fitted for navigation this fall.

A letter from Cape de Verd Islands, received in Boston, states that the late expedition into the interior of Africa have reached Housa, within 850 miles of Tombuctoo.—It is now reduced to a certainty, that the celebrated Mungo Park, who undertook to explore the interior of Africa, is no more; that he died in a town near Tombuctoo. Accounts from the Gambia, Mediterranean and England, all confirm his death.

The exhumation of the body of Charles Bonaparte, the father of Napoleon, and that of Louis Bonaparte, son of the Ex-King of Holland, took place on the 19th August at Paris. The translations of their remains was made from the Chapel of the Castle of Saint-Lieu-Tavernay to the vault of the village Church.

A Paris paper says—"Professor Meinkie has recently made a very important discovery. He has found the means of lighting, by electricity, and artificial gas, in glass tubes, which diffuse a light without burning.—The electric sparks spread and multiply to an infinite number. With one of these electrical machines a whole city can easily be lighted, and with very trifling expence.

Remarkable Field.—Mr. Ralph Pomeroy of Buffalo, N. Y. raised a garden the present season, from a small parcel of corn, 12 ears, producing 2896 kernels. The ears had 12 rows,

State of South-Carolina.
BY HIS EXCELLENCY
JOHN GEJDES,
Governor and Commander in Chief, in and over the said State.
A PROCLAMATION.

WHEREAS by a verdict of a Jury of Inquiry, held on the seventh day of September last, over the body of Captain GEORGE BROWN, in Chester District, in the State aforesaid, it was found that the said Captain George Brown was wilfully and cruelly murdered by two persons unknown, who have since absconded, and are about to evade the punishment due to the enormity of their offence against the laws and the security of society:

Now, therefore, I deem it proper to issue this my Proclamation, calling on the officers and other good citizens of this State, to be active and vigilant in the apprehension of the persons who committed the said murder: And I do hereby offer a reward of TWO HUNDRED and FIFTY DOLLARS, to any person or persons, who shall apprehend and lodge in any Gaol in this State, and prosecute to conviction the said offenders.

Given under my hand and the Seal of the State, at Charleston, this eight day of October, in the year of our Lord one thousand eight hundred and nineteen, and in the forty-fourth year of the sovereignty and Independence of the United States of America.
JOHN GEJDES.

Grand Lodge of Ancient Free-Masons of South-Carolina.
WHEREAS by the Rules and Regulations lately adopted for the government of this Grand Lodge, and the several Lodges under its jurisdiction, "A GRAND ANNUAL COMMUNICATION" is to be held in Columbia, on the first Friday, in December, in every year; and as time has not permitted copies of these Rules, since the printing thereof, to be distributed among all the Lodges out of Charleston the following extracts are published for the information of such Lodges, as shall not receive their copies in due time.

RULE XVII
Of the Grand Communications.
There shall be a general Grand Communication of all the Lodges under the jurisdiction of the Grand Lodge, held in Charleston every year, on St. John the Evangelist's day. At this Communication, no business of a private nature shall be transacted. The Officers shall be installed, and the day passed in innocent festivity and brotherly love.

Grand Quarterly Communications shall be held in Charleston, on the last Friday in March, June and September, and on the next Friday but one preceding St. John the Evangelist's day: and a Grand Annual Communication shall be held at Columbia on the first Friday in December, in every year, and shall sit and sojourn from day to day, until the business before them be finished, provided no term shall exceed one week; and in case of the absence of the Grand Secretary, the proceedings at such meeting shall be transmitted to that Officer in Charleston, previous to the quarterly communication in December, duly certified by the presiding Grand Officer and acting Secretary, and which shall be recorded on the Journals of the Grand Lodge.

At the Annual Grand Communication to be held at Columbia, each Lodge under this jurisdiction, may be represented by its Master and Warden, or by a proxy or proxies; provided, such proxy or proxies are Past Masters, and are and have been members of the Grand Lodge, at least three months previous to such Communication; and that their appointment be certified under the hand of the Master, and countersigned by the Secretary of the Lodge so to be represented. And at said Grand Communication, it shall be the duty of the Recording Grand Secretary to give a copy of the Communication in Charleston, and members comprising the Grand Lodge; but in case it shall not be convenient for him to attend, the Grand Master shall under his hand depute some member of the Grand Lodge to act as Secretary at such Communication, who shall be furnished by the Recording Secretary, with a copy of the proceedings at the last Communication in Charleston, and a list of the Members of the Grand Lodge, duly certified by him.

RULE XVIII
Of the Election of Officers.
The election of Officers shall be by ballot, at the Quarterly Communication next preceding St. John the Evangelist's day in every year, in Charleston. But no Lodge, or Member of the Grand Lodge, shall be entitled to a vote at such election, who shall be in arrears to the Grand Lodge exceeding one year.

RULE XX
Of the Subordinate Lodges.
Every Lodge out of the city, shall annually make its return according to the above prescribed form, either to the Recording Grand Secretary in Charleston, or to the Quarterly Communication in March, or to the acting Grand Secretary, in Columbia, at the Annual Communication there to be held in December; and the said Lodges shall, at the time of making their returns as above, pay up, and settle their fees and contributions with the Grand Treasurer in Charleston, or with his Deputy in Columbia, under the same penalties as are expressed and contained in the section immediately preceding this.

The form for making returns, above referred to, will be found in the Rules. All these returns embrace the period of a year, from one St. John the Evangelist's Day to another, they will be made out conformably to the usual mode, as prescribed in Dalcho's Ahimian Reason, until the next ensuing St. John's Day in December, after which they will be rendered according to the form prescribed by the new Rules.

Those Lodges whose old Warrants of Constitution have not yet been surrendered, are hereby required to send them to Columbia, during the next Session of the Legislature, and they will be furnished with new ones. They will at the same time send the names of their Master and Wardens for the year 1818.

It is very desirable, in order to ensure a regular and certain communication between the Grand Lodges and distant Lodges, that the Lodges in the country do, without delay, inform the Grand Secretary of the Post-Office, which shall be nearest to their respective places of meeting.
THOMAS W. BACOT, Grand Master.
H. MITCHELL, Recording Grand Secretary.
