THE LEADER.

AN INFIDEL'S CONVERSION.

Rev. James O. Andrew, in a letter many years ago to the late Bishop McKendree, gives the following account of an infidel's conversion. It may inspire new faith in some pious mother, who has been praying for many years for the conversion of her children:

Mr. Howard had been an infidel about twenty years, during which he seldom attended the House of God, insomuch that he observed to me after his conversion, that he had heard but three sermons in six years. The world had been the sole object of his pursuit, and he had succeeded in amassing a considerable quantity of its wealth. He was in this situation in the beginning of 1817.

He possessed among a number of other slaves one named Peter, who usually attended to his cattle, and in whom he reposed considerable confidence. Peter had been for many years a faithful member of the Methodist church. Some time in the early part of the above-named year Peter died. When he saw the corpse Mr Howard was struck with astonishment,—for he had seen him in health, perhaps, only the day before he beheld the lifeless clay,—and exclaimed: "My God! Peter, are you dead?"

At that moment, he says, the reflection came into his mind: "Yes; yes, you are dead, but you are happy. But how can this be? If you are happy, I am wrong." He banished the reflection from his mind, but it returned again and again.

At length he resolved to search the Scriptures for himself, and see if there was a sufficiency of cogent reasoning in the Bible to convince him of its truth. He would, during this examination, read no other religious books, nor converse with any religious person, but confined his examination and reading altogether to the Bible.

After thus reading and examining for four or five months, he became fully convinced of the authenticity of the Scriptures. This took place on Sabbath morning, about eleven o'clock. About one o'clock, he sat down and wrote a full recantation of his former principles in a letter to one of his most intimate associates in Deism, requesting him to make it known to his former companions in infidelity, exhorting them to search for themselves.

He next morning called his family together and made known to them the change which had taken place in his mind. He said: "We have all served the devil together, and, if we do not repent, we shall all perish." From that morning he commenced family prayer.

Comparing his life with the sacred Word, he now began to feel that he was a wretched sinner, and that something more was necessary than a simple admission of the truth of the Scriptures. He felt that he must be born again, and began to cry mightily to God. After seeking [illegible] about a fortnight, being in great distress, he sent out on a [illegible] bath morning, and calling together his neighbors, addressed them to this effect: "You who have an interest at a throne of grace, I have collected you together that you may pray for me; and you that do not pray, I wish you to witness the condition of one infidel."

They began to pray about ten o'clock, and continued in prayer till about two, when the Lord spoke peace to his soul, and gave him the witness of his acceptance. Shortly after this he came to Wilmington, and in the presence of his former companions, united with our society, and has ever since seemed to enjoy the life and power of religion.

It may, perhaps, be proper to observe that his mother had been praying for him about forty years; that during all that time she had seen only one of her children converted; but now the Lord gave her to see her whole family gathered into the church in the space of two months.

SEEING THROUGH WATER.—The latest number of the Edinburgh Review says: "Currents in the very bed of a river, or beneath the surface of the sea, may be watched, as Mr. Campbell informs us, by an arrangement that smugglers used in the old days. They sank their contraband cargo when there was an alarm, and they searched for it again by the help of a so-called marine telescope. It was nothing more than a cask with a plate of strong glass at the bottom. The man plunged the closed end a few inches below the surface, and put his head into the other end, and then he saw clearly into the water. The glare and confused reflections and refractions from and through the rippled surface of the sea were entirely shut out by this contrivance. Seal hunters still use it. With this simple apparatus the stirring life of the sea bottom can be seen at leisure with great distinctness. So far as this contrivance enables men to see the land under the waves, movements under water closely resemble movements under air. Sea weeds, like plants, bend before the gale; fish, like birds, keep their heads to the stream, and hang poised on their fins; mud clouds take the shape of water clouds in the air, impede light, cast shadows, and take shapes which point out the directions in which currents flow. It is strange, at first, to hang over a boat's side, peering into a new world, and the interest grows. There is excitement in watching big fish swooping, like hawks, out of their sea weed forests after a white fly sunk to the tree tops to tempt them, and the flight that follows is better fun when plainly seen." (Vol. I. p. 67). Mr. Campbell suggests plate glass windows in the bottom of a boat. It would bring men and fish face to face; and the habits of the latter could be leisurely watched."

Many persons approve no books but such as are representations of their own opinions; and they read not to have nature reflected on them and so be taught to know and love everything, but to be reflected themselves as in a pocket-mirror, and to exchange admiring looks with their own narrow cast of countenance.

Gen. Grant expresses himself as on the whole pleased with his Southern tour. He regretted to find the people in some quarters, however, sullen and inclined to be morose.

PLANTATION BITTERS.

A great many side hits are being made at the Plantation Bitters by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in same size bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate.

They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure dyspepsia and constipation.
They cure diarrœa, cholera and cholera morbus.
They cure liver complaint and nervous headache.
They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The recipe and full circular are around each bottle. Clergymen, merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, etc., will find immediate and permanent relief in these bitters.

But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States stamp over the cork and steel plate side label.

been tampered with. Any one [illegible] has not Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other expectorant is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

We can only assure the public, that its quality is carefully kept up to the best it ever has been, and that it may be relied on to do for their relief all that it has ever done.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of our remedies, but space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the complaints they cure.

Those who require an *alterative medicine* to purify the blood will find AYER'S COMP. EXT. SARSAPARILLA the remedy to use. Try it once, and you will know its value.

STERLING'S

BLOOD PURIFIER.

Whatever contributes to the purity of the Blood promotes health and prolongs life, and inasmuch as the Blood is really alive, therefore the life of the body is dependent on the Blood. Every part of the body is nourished and sustained by the Blood. Health and life depend upon the proper distribution of this vital fluid through every part of the human system, in equal and just proportion, otherwise one part of the system may become oppressed with an excess and another part become languid and weakened from want of it.

EVERY MOMENT OF OUR LIVES THE BLOOD IS UNDERGOING A PROCESS OF CLEANSING, WITHOUT WHICH LIFE CANNOT BE SUSTAINED,

The Lungs, the Liver and the Kidneys are depurating or cleansing organs, and one at least of the functions they perform is the purification or depuration of the Blood. If the lungs fail to diminish carbon, the liver bile, the kidneys urine, the constituents of carbon, bile and urine must accumulate in the blood, and, by contaminating it, render it capable of duly nourishing and stimulating the organs, without which process life could not be sustained. It is absolutely necessary, therefore, that these functions should be kept in a healthy and vigorous state, so that the depurating process be in perfect harmony with the requirements of the whole system. For this purpose

STERLING'S

BLOOD PURIFIER

is especially designed. It contains well known ingredients, scientifically compounded and carefully selected, and especially adapted to aid nature in her efforts to overcome disease.

STERLING'S

BLOOD PURIFIER

Clears the Blood of all impurities, gives tone and vigor to the nerves and muscles, invigorates the whole system, and gives strength to the bones and sinews.

This specific should be much used in

WARM CLIMATES

on account of its depurificatory qualities. It will, if taken before the immediate approach of disease, *PREVENT ITS INTRUSION* And all its baneful consequences; while it *SPEEDILY REMOVES DISEASE,* Where it had already commenced. It is an *INVALUABLE SAFEGUARD.*

The agreeable coolness and freedom from fever which it induces, are also great recommendations in sultry and noxious climates.

IT WILL DO GREAT GOOD TO ALL BY LAYING THE FOUNDATION OF HEALTH AND STRENGTH.

All heavy and drowsy affections of disease, are effectually warded off by this Medicine; it also conduces to sound and refreshing sleep; a high flow of spirits; great vigor and lightness of body, as well as a keen appetite to enjoy the most homely fare. Sight and hearing, so indispensable to our enjoyment and happiness, are greatly strengthened by the depuration of their respective organs. It also acts equally well in the following cases:

BILIOUS COMPLAINTS,
BLOTCHES OF THE SKIN,
DEBILITY,
FEMALE IRREGULARITIES
HEADACHES,
JAUNDICE,
PILES,
SALT RHEUM
SCROFULA,
TUMORS
LIVER COMPLAINTS,
SECONDARY SYMPTOMS,
ULCERS,

WEAKNESS FROM WHATEVER CAUSE, is one of the very best

SPRING AND SUMMER MEDICINES

ever known; it not only purifies the whole system and strengthens the body, but it creates

NEW, PURE AND RICH BLOOD;

a power possessed by no other medicine in so great a degree—and in this lies the grand secret of its wonderful success.

When the blood becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, or the use of a uniform saline diet, or from any other cause;

STERLING'S

BLOOD PURIFIER

will RENEW the BLOOD, carry off the putrid humors; cleanse the blood, regulate the bowels, and impart a tone of vigor to the whole body.

No one should attempt a sea voyage without a full supply of this article, and in fact, none who are in health should be without it in any case.

No female in delicate health—old, young or middle aged—should neglect to take it.

PRESERVE HEALTH BY WARDING OFF DISEASE!

Keep your blood pure and healthy—all of which is done by the use of

STERLING'S BLOOD PURIFIER.

It is never injurious, and always beneficial, especially to NERVOUS, DEBILITATED and DELICATE FEMALES. It quickens the circulation of the blood, infuses it in the extremities, and creates new life in the most feeble and prostrated,

PERRY DAVIS'

VEGETABLE

PAIN KILLER.

WE BEG TO CALL THE ATTENTION of the public to this long tested and unrivalled

FAMILY MEDICINE.

The Painkiller is a purely vegetable compound, and while it is a most efficient remedy for pain, it is a perfectly safe medicine even in the most unskilful hands

FOR SUMMER COMPLAINT,

or any other form of bowel disease in children or adults; it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA

than any other known remedy, or even the most skilful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the

Pain Killer

is considered by the natives, as well as European residents in those climates,

A SURE REMEDY.

As a Tonic for the Stomach, it is unrivalled. A few doses will relieve severe cases of

INDIGESTION,

and it is often a perfect cure for

Dyspepsia

in its most aggravated forms. Its tonic and stimulating properties, arousing the system to vigorous action, render it a most effectual cure for

COLDS AND COUGHS,

when used according to directions.

For external application, it is unsurpassed by any medical preparation known.

RHEUMATISM,

and Neuralgic Affections, are quickly relieved and often cured by it. Any Soreness in the Muscles or Joints can be relieved by its application. It cures instantly the most violent

Toothache.

It should always be kept near at hand, to be used in cases of severe

BURNS OR SCALDS.

If applied immediately, according to directions, it will give instant relief, and prevent blistering.

BURNING OF THE MUSEUM

LETTER FROM MR. BARNUM.

NEW YORK, July 11, 1865.

Messrs. Herring & Co.

GENTLEMEN—Though the destruction of the American Museum has proved a serious loss to myself and the public, I am happy to verify the old adage, that, "It's an ill wind that blows nobody good," and, consequently, congratulate you that your well-known safes have again demonstrated their superior fire proof qualities in an ordeal of unusual severity.

The safe you made for me some time ago was in the office of the Museum, on the second floor, back part of the building, and in the hottest of the fire.

After twenty four hours of trial it was found among the debris, and on opening it this day has yielded up its contents in very good order—books, papers, policies of insurance, bank bills, all in condition for immediate use, and a noble commentary on the trust worthiness of Herring's Fire Proof Safes.

Truly yours,

THE AMERICAN LAND COMPANY AND AGENCY,

No. 57 Broadway, New York,

Offers its Agency to owners of land of every description, especially in the Southern States, and to Northern and European capitalists, emigration societies and conductors of emigration, and to individuals, (farmers, mechanics and others,) desirous of transferring their labor and skill to the South.

It designs to aid, through the means offered by a central office in New York, and its branches elsewhere, the great work of the social and economical reorganization of the South, by bringing together the owners of plantations and farms seeking purchasers and industrial development on the one hand, with those who command the capital and labor and skill on the other hand. It will devote itself to the work of accumulating and methodizing information and statistics, useful for those who may, on grounds of pecuniary profit, of business enterprise, of patriotism or philanthropy, desire to contribute, through the reorganization of industry, to the material means by which the South can be restored, its people of every condition made prosperous men and good citizens; and its communities brought to take their share in promoting the welfare of the whole country.

The company proposes to interest the enterprize and money of the country in the opportunities and means for their useful and profitable employment, afforded by the broad lands of the South now open for the first time to free labor, but whose owners and occupiers are suffering from the waste of war.

It invites the attention of the public, and is prepared to enter immediately on the transaction of business.
