

THE ILLS THAT FLESH IS HEIR TO.—These ill are almost countless, mighty as the sea shore sands in multitude. Prominent amongst them is the curse of dyspepsia, a scourge which blasts more lives than even the demons of drink or war. But dyspepsia, like all other evils, has its remedies; and, amongst those curative agencies, none surpass, and few equal, the celebrated HUBBELL'S GOLDEN BITTERS. These are not quack specifics, but legitimate remedies. They contain no mineral substances, but are composed only of the purest herbs, which are preserved in the purest and best of imported Jamaica rum. These bitters are useful also for derangements of the liver, are frequently prescribed by our leading physicians, and never disappoint their expectations.

The wife of an ex-negro trader in Petersburg, a short time ago, saw a freedman skinning a live catfish in the market, and expostulated with the remark, "How can you be so cruel?" "Why," said the intelligent contraband, "dis is de way dey used to do me, and I's gwine to be even wid somebody."

"Now, CHILDREN, who loves all men?" asked a school-inspector. The question was hardly put before a little girl, not four years old, answered quickly, "All women!"

The reports presented to the Quarterly Conference of Bethel Methodist Episcopal Church, south, in this city, Rev. T. J. Wightman, Pastor, were of the most gratifying character. During the quarterly conference, which was held on the 20th inst., 100 persons were received into the church by letter and otherwise. Ten were admitted on trial, and several conversions were reported. Large congregations are in attendance, and a Sunday School of one hundred children and twenty officers and teachers in a prosperous condition. The church classes were represented as well attended, especially the two—one for young men and the other for young ladies.—*Family Record.*

Weather unusually dry for the season—cisterns empty; Artesia Well stock rising; water carts in demand; streets paved with pulverized particles of infusorial atoms; and the City Fathers are amusing themselves in throwing dust in the tax payer's eyes and Miller's Almanac speaks of rain about the fourth of July.

OBITUARY.
In this city, on the 11th of March, 1853, of inflammation of the brain, CHARLES DRAINE, in the 62nd year of his age.

He was a native of Antrim, Ireland, and came to this country about thirty-six years ago, and at the time of his death was employed in the Office of Indian Affairs, Department of the Interior, which position he held for twenty-eight years. An honest man, and a faithful servant to the Government and his adopted country, he was dearly loved and respected by his associates in office and less intimate acquaintances. Those who knew him best loved him most. He was a firm and consistent member of the Catholic Church from his boyhood, and enjoyed in his last hours a Christian hope and consolation. He bore his pains with resignation, and looked forward to that crown of life which fadeth not away. He left a wife and several children to mourn the loss of so dear a husband and a father, with whom the community deeply sympathize in their affliction. The Lord giveth and taketh according to his righteous will; and, although sorrow now broods over that once happy home, still it is consoling to think a pure soul has been called from Earth to Heaven. May he rest in peace.

In the land of the blessed where sorrow comes never, His spirit shall rest and be happy forever; Though friends mourn his loss, to die was his gain, May they meet him in Heaven together to reign.
Washington, D. C.

His youngest brother and only surviving member of the family, DR. WILLIAM DRAINE, has been honored by the Department of the Interior Pension Bureau with the appointment of Examining Surgeon—

And, as a hare, whom hounds and horns pursue, Pants to the place from whence at first he flew; He still had hopes, his long vexations past, Here to return, and die at home at last.

His Office is 131 Meeting Street, Pin's Drug Store, where he will be on duty from the hours of 3 to 5 p. m. His residence is at the Citadel, 430 King Street, where he will be pleased to receive all calls from his old friends and the public.

PERRY DAVIS' VEGETABLE PAIN KILLER.—Voluntarily, conscientiously, and with much pleasure, we recommend to our readers the above named medicine. We speak from our own observation and experience when we say that it removes pain as if by magic from all parts of the body, and is one of the best remedies in use for checking diarrhoea, and removing the precursive symptoms of cholera. It is applied both internally and externally, with the best effects, and none who have once used the Pain Killer would willingly be without it constantly in their houses.—*Cincinnati Nonparil.*

JOY TO THE WORLD.

THE INTRODUCTION OF PERRY DAVIS' PAIN KILLER.

TO THE SUFFERING HUMANITY OF this age has relieved more pain and caused more real joy, than any other one thing that can be named.

It is a "Balm for every Wound."

Our first Physicians use it and recommend its use; the Apothecary finds it first among the medicines called for, and the Wholesale Druggist considers it a leading article of his trade. All the dealers in Medicines speak alike in its favor, and its reputation as a medicine of great merit and virtue is fully and permanently established; it is

LEAVITT SEWING MACHINE COMPANY
MANUFACTURERS OF IMPROVED

SHUTTLE SEWING MACHINES.
Originally Established in 1853.

Get the Best.—The Best is the cheapest.

The Stitch will not Rip or Ravel, and is alike on both sides.

STRAIGHT NEEDLE, WORKING VERTICALLY.

These machines are manufactured by authority of a license from ELIAS HOWE, JR., (and others) the original inventor of Sewing Machines, and embody all the essential principles of his invention, to which are added several valuable improvements, important to the perfection of Sewing Machines, secured exclusively to this Company by ample patents.

THE FAMILY MACHINE

Is superior, in all the qualities of a practically useful domestic machine, to any others yet presented to the public. It is simple and durable in construction, working without noise, or fatigue to the operator; using, with equal facility, silk, cotton, or linen thread, in all varieties of family sewing, from the lightest muslin to the heaviest cloth.

THE MANUFACTURING MACHINE,

For Tailors, Coach and Harness Makers, Boot and Shoe Manufacturers, Rubber Goods, &c., &c., performs more and better work than any other. Especial attention is called to recent IMPROVEMENTS in the machines, particularly important in the manufacture of Boots and Shoes; among which is the fact that a smaller needle can be used than by any other, the value of which will at once be appreciated. Particular attention has been devoted to this branch of manufacture, and it is conceded, with unqualified success, especially for Shoe Binding, and Fine Stitching on Patent Leather.

The Company flatter themselves that the result of twelve years' experience in the manufacture of Sewing Machines enables them to present a machine possessing all the qualities of a first-class machine, to greater extent than any other in the world.

BURNING OF THE MUSEUM

LETTER FROM MR. BARNUM.
New York, July 14, 1865.

Messrs. Herring & Co. GENTLEMEN.—Through the destruction of the African Museum has proved a serious loss to myself and the public, I am happy to verify the old adage, that "It's an ill wind that blows nobody good," and, consequently, congratulate you that your well-known safes have again demonstrated their superior fire-proof qualities in an ordeal of unusual severity.

The safe you made for me some time ago was in the office of the Museum, on the second floor, back part of the building, and in the hottest of the fire. After twenty-four hours of trial it was found among the debris, and on opening it this day has yielded up its contents in very good order—books, papers, portfolios of insurance, bank bills, all in condition for immediate use, and a noble commentary on the trustworthiness of Herring's Fire-Proof Safes.

Truly yours,
P. T. BARNUM.
