

The Enterprise.

GREENVILLE, S. C.
WEDNESDAY, SEPTEMBER 11, 1873.

For President,
HORACE GREELEY,
OF NEW YORK.

For Vice-President,
B. GRATZ BROWN,
OF MISSOURI.

OTAR O'CONNOR has been nominated for President by the Louisville Straight Democratic Convention. His letter is taken as the platform of the party. John Quincy Adams was nominated for Vice President.

Governor Perry Nominated for Congress.
The Convention called by the Democratic Executive Committee, for the purpose of nominating a candidate to represent the Fourth Congressional District in Congress, met in Columbia on Monday last, 9th instant. Delegates were present from the Counties of Chester, Fairfield, Greenville, Laurens, Pickens, Spartanburg, Union and York. Messrs. B. F. Perry, I. G. McKisick, W. D. Simpson, J. H. Evans and E. P. Jones were put in nomination. On the first and second ballots no nomination was made. When the third ballot was taken, Governor B. F. Perry was elected the nominee of the Convention, and he was so declared.

Governor Perry will undoubtedly be elected, and in him the Fourth Congressional District will have a representative of the peer of any in the Congress of the United States in ability, character, statesmanship and devotion to his native State and country.

Gen. Grant's Sincerity.
Judge Orr has repeatedly said in his speeches and conversation, as we have been informed, that Gen. Grant was very much opposed to the swindling, frauds and roguery, which had been practiced in South Carolina for the last four years. It is further said, that he authorized Judge Orr to come home and reform the State government, and he should be sustained by all the influence and patronage of his administration. In good faith, his Honor set on foot a scheme of reformation in South Carolina, and bolted from the rogues and corruptionists in the nominating convention. Another ticket was presented to the people for Governor and all State officers, which was called the "Reformers' Ticket," and said to be composed of honest men, who had the honor and prosperity of the State at heart, and were far wiser to the knife against the rogues and scoundrels on the Regular ticket. The Bolters declared most solemnly that if any Federal official dared to support Moses for Governor, his head would be cut off as soon as it was known at Washington.

Now, this all seemed very encouraging to the Bolter's, and very strange to the Democratic-Liberal-Republican-Greeley men in South Carolina, for they knew perfectly well that this pack of scoundrels had been sustained by Gen. Grant and his bayonets in all their rascality and roguery. But for the power and patronage of the Federal Government, and the soldiers of the Federal army sent here by Gen. Grant, these rogues and swindlers would have been driven out of the State long since. We therefore say it seemed strange, passing strange, that Gen. Grant should now turn against his rascally partisans and friends, and wish to put them down. We did not believe a word of it, for we knew that Gen. Grant was surrounded by corrupt men, and upheld scoundrels and corrupt men in other States as well as in South Carolina. He had refused to remove his brother-in-law Casey from office in Louisiana, although he had been convicted of frauds of the grossest character.

Now, behold the result of this bribe-taking President's sincerity to Judge Orr. At the mass meeting of Mr. Speaker Moses' friends in Charleston, the other night, Congressman Elliott, a Boston negro, read a telegram, just received from President Grant, stating that the Bolters found no sympathy in their movement at the White House! We are not surprised at this treachery and falsehood on the part of General Grant to Judge Orr and the Bolters. It is exactly in character with his treachery and lying to President Johnson, when he took charge of the War Office on the removal of Mr. Stanton. There is no reliance on him or his promises or his honesty. Gen. Grant sees that the friends and supporters of Moses have a very large majority of the voters in South Carolina, and if he took sides with the Bolters, he might lose the State of South Carolina in the coming Presidential election. Indeed, this was threatened by Elliott and Judge Mackey in their speeches at Chester. Gen. Grant left the Democratic party, to which he had belonged all through his life, in order to be President. He now leaves the poor, deluded Bolters to secure the vote of South Carolina. This is the way President Grant backs his friends and all honesty and honor when self interest and ambition prompt him to do so.

But there is an old proverb that, "Honesty is the best policy." "Cheating luck never thrives," says the boy in his plays. "Truth will prevail in the end." These are maxims which we would commend to General Grant and his friends at this time. The American people may be hoodwinked and deceived for a time, but they will get right after a while. We do not despair of the Republic yet. The election of honest old Horace Greeley will restore the Government to its former party and republican principles. He will cleanse the Augean stables of defrauders, rogues, swindlers, carpet-baggers and scoundrels. They will all become Bolters through necessity, and seek retirement in which to hide their infamy, and pray that their rogues may be forgotten. The colored people will see how basely they have been imposed on by these mean and unprincipled men, and will find out, by sad experience, that it is always better to choose honest and honorable men to conduct the offices of the Government, at home and abroad. The "Blatant Donkeys" will perceive also, since their miserably ridiculous fiasco at Louisville, that treachery will not always succeed in times of party excitement. Charles O'Connor is a great lawyer, but a most silly statesman. We do not know what to make of John Quincy Adams, Jr. He has been a Republican all his life, and now professes to be so straight a Democrat that he cannot vote for Greeley. If his father, Charles Francis Adams, had been nominated for the Presidency at Cincinnati, who is as strong a Republican as Greeley, we presume his straight De-

mocracy would have fallen on entirely, and he would have had no difficulty in voting the Liberal Republican-Democratic ticket.

In regard to the signs of the times, we would say they are brightening every day. The longer General Grant is before the people, and the more they see and know of him, the less inclined will they be to see him re-elected President. He is rapidly wearing out his military reputation, and his character for sincerity, truth and principle. The American people are not only becoming tired of him, but disgusted with his ignorance, indifference and tyranny. Every election that has taken place, shows that he is losing strength, even in Vermont, the stronghold of Grant Republicanism. On the contrary every speech that Greeley has made, and every line that he has written since his nomination, has given him strength, and increased the confidence in him by the American people. We see that the Liberal Republicans of South Carolina are going to put a Greeley ticket for Presidential electors before the people of the State. This is a movement in the right direction, and in proper time the Democratic party will sustain it. There is no difference between Liberal Republicans and Democrats. They all stand on the same platform, and endorse the same principles.

Ex Governor Perry, of South Carolina, on the Two Candidates for the Presidency.
Ex-Governor B. F. Perry, of South Carolina, has written a letter in response to the invitation to be present at the National Peace Re-union at Louisville on the 11th and 12th September. He concludes as follows:
The election of Horace Greeley, which is now as certain as any future event can be, will not only restore good feelings between the two sections and the races, but it will restore the Constitution, the rights of the States, the sacredness of human liberty, honesty, justice and purity in our Government. How any one who is not an office-holder, or the friend of an office-holder, can prefer Gen Grant with his past administration, to Horace Greeley, is to me passing strange, if he has the welfare of his country at heart. Greeley is a citizen and Grant is a military chieftain; Greeley is a statesman of enlarged, comprehensive and patriotic views; Grant admits that he has "no policy"—in other words, no statesmanship—and his measures prove it. Greeley is an honest, pure man, so acknowledged by all; Grant has received gifts and appointments to the highest position in his Cabinet. Lord Bacon, the wisest, greatest of mankind, was impeached and disgraced for receiving gifts from servants in his court, though in every case he decided according to law. Greeley will have around him the purest and ablest men in this republic; Grant is surrounded by corrupt and unprincipled men, who shape all his measures. In his negotiation with reference to San Domingo, Grant set at defiance the Constitution and law of nations and usurped the war powers of Congress, and then confessed to lobby his measures before the Senate, and offer to bribe Senator Schurz with his power of patronage! Greeley has been in favor of conciliation ever since the surrender of General Lee and has denounced in the strongest terms the thieves and rogues who have been plundering the Southern States. Grant professed to be for peace, but his measures have been anything else, and he has sustained with his bayonets the corrupt officials who have been stealing from the war-worsted States. I might continue the comparison, but enough has been said to show the great difference between the two candidates for the Presidency, and which the interest of the country demands we should elect. I am, with great respect,
Yours, truly, &c.,
B. F. PERRY.

Dr. Tut's Sarsaparilla and Queen's Delight.
No remedy possesses so many valuable Medicinal Properties as this combination of Roots and Herbs and Barks. The Queen's Delight is acknowledged by physicians to be the most powerful remedy known for Impure Blood, Liver Complaints, Nervousness, Female Complaints, Constipation, Rheumatism, Diseases of the Kidneys, Syphilitic Affections, Skin Diseases, Chronic Complaints, &c. But in this preparation it is combined with other vegetable products, which render it virtually doubly valuable. Most diseases have their origin in the blood, and as a Blood Purifier the Sarsaparilla and Queen's Delight has no equal. It requires but a trial to convince the most sceptical.

For Female Complaints, whether in young or old, married or single, at the dawn of Womanhood or the term of Life. Tut's Liver Pills are an acknowledged remedy.

Dr. Tut's Hair Dye is the best in the world.
On Everybody's Tongue.—Eulogiums of the great National Regenerator of Health, Dr. Tut's Sarsaparilla and Queen's Delight. This national virtue is advertised in better than all the paid-for puffing to which the owners of bogus bitters are obliged to resort. It has a spontaneous heartiness about it which carries conviction to the mind and the heart. But it is a well-known fact that the proprietors of the Plantation Bitters have never relied upon newspaper bolstering to establish the value of a medicine which owes its astonishing popularity mainly to its own merit. The thousands who have either experienced or been the eye-witness of the immediate physical good it has wrought throughout the South and North of the land.

Don't Ask, Ask, Spit, Spit, Blow, and disgust everybody with your disgusting offensive odor. When Dr. Sage's Catarrh Remedy will speedily destroy all odor, arrest the discharge and cure you.

Changes of Food in the Stomach.—When the food has been masticated and converted into a semi-liquid paste, it is passed into the stomach, which is simply an enlargement, midway, of the alimentary canal. It is the theatre of the secondary and most important stage of the digestive process. The food is here exposed to the action of the gastric juice. This is secreted by the mucous membrane or internal lining of the stomach, which is full of minute pores containing a microscopic tube or bag. This is in contact with the vessels and is closely related with the nerves and arteries of blood vessels. The function of this apparatus is the production of cells, which are discharged in innumerable myriads into the cavity of the stomach. Arrived here, they burst and pour forth their liquid burthen. This is the primary cause of indigestion. It is a simple and colorless fluid, chemically, it is powerfully solvent, and of acid reaction. Its acidity is mainly owing to the presence of muriatic or hydrochloric acid. Hence the utility of salt, this mineral being the source of the muriatic acid. The hydrochloric acid is mainly contained in a saline solution in the stomach, and is also present in the stomach of a child. Liebig's nerm-d-pepsin. In the opinion of Liebig, this is formed of minute separated portions of the internal coat of the stomach, in the course of decomposition. It combines with the oxygen which has been swallowed entangled in the saliva, and sets free the digestive fermentation. Without an abundant secretion of gastric juice the powers of digestion must be inefficient. Now, Dr. Goulet's Fish's Bitters stimulate the flow of the gastric juice, and thus strengthen the digestive power, and through them the body becomes generally. Valuable Hints.—A regular habit of body for is absolutely essential to physical health and clearness of intellect. No is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes is as necessary to the purity of the body as the free passage of the oil of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous to health, has many disagreeable concomitants—such as an unpleasant odor, a salivary, contaminating blood and bile, hemorrhoids, headache, loss of memory, and general debility.
