

Nicaragua.—Col. Schlessinger, Walker's ambassador to Costa Rica, was escorted out of the country on the 9th ultimo, and the next day Costa Rica formally declared war against Nicaragua. Walker accepted the declaration of war, and marched an army across the lake to Virgin Bay. These were followed by 250 men under Schlessinger. No meeting had taken place between the forces of the two States. One of Walker's detachments seized the English and Costa Rica mail, and having refused to give it up on demand of British officers, despatches were sent to the West India Squadron, which had a concentration of troops at San Juan.

The latest account from this expedition is embraced in a letter to the N. Y. Tribune, dated Zapala, March 18, as follows: "We entered this beautiful place at 5 A. M. The enemy was in sight, numbering 800, and was strongly posted. We sent out two companies of Fry's regiment as skirmishers. The enemy ran. Population about 5,000. The people deserted nearly all their dwellings. We captured two brass nine-pounders, and three carabines, with considerable ammunition, and at least 300 mules and horses. Some of the men found considerable sums of money. The colonel has taken the greatest part of the Don Juan. It is said to be in the mountains with 450 men."

"Costa Rica has 3,500 men in the field under Gen. Mora, the commander-in-chief, and 500 under Baron Balow, in addition to the 400 under Don Bala. "CONVENTION MEETING IN CHARLESTON.—A meeting of persons in favor of being represented in the Columbia May Convention to send delegates to the Cincinnati Convention took place in the Hibernian Hall, Charleston, on Thursday last, and authorized the appointment of a delegation of twenty-one. Maj. A. G. Magrath presided, and Hon. W. D. Foster offered the resolutions. The Standard says of the meeting: "It was not numerously attended. Those present, however, were of great character and influence, and the resolutions were passed by a hearty acclamation, which gave earnest of the fixed intention to proceed."

The South Carolina Temperance Standard is in danger of stopping. The editor says he may again appear in two weeks, but unless some permanent and satisfactory arrangements be soon made he will never issue another number while he lives. In this event all advanced payments will be refunded.

KNOWLEDGE ABOLITION FREEDOM.—The following item is in the New York letter of the Baltimore Sun. Comment is unnecessary: "The abolitionists of this city, including the Rev. 'Sharpe Rife' Beecher, a couple of years ago purchased the freedom of a colored woman belonging to S. F. Gould, Esq., of South Carolina. The woman has since enjoyed 'freedom' here, of which, however, she never seems to have any idea. A few days ago, being out of employment and almost destitute, she heard that a neighbor of her former South Carolina master was at the Astor House, and she proceeded. On finding him she told her story, and suffering and piteously begged to be taken back to her home in the South. The gentleman finally consented, and on Saturday she started a long farewell to 'Northern freedom,' and started for South Carolina."

The Proposed Military Visit.—The "Washington Light Infantry," of Charleston, who contemplate visiting the State Grounds of the Camp, in the 31st week of the present month, have completed their arrangements, and will probably stop a short time at Laurensville, on their way up. They will arrive here on Thursday, the 17th, by railroad, and will remain overnight, for Spartanburg, fully prepared for all the exigencies of the "camp and march," and will do a little to remove the impression abroad, that a volunteer corps are merely "hand-kerchiefs," get up on parade, and then go home, well supplied with their baggage, and a few cents in their pockets. Every man will have his knapsack, blanket, haversack and canteen, and last, though not least, an ample supply of India rubber cloth, to keep out any damp weather that may overtake them.

The Rev. Samuel Gann, Chaplain, several honorary members and invited guests, will accompany them. Reaching Spartanburg on Saturday, they will remain here over Sunday, and march out to the Battle Ground on Monday. An oration will be delivered next day by a member of the corps, and other interesting ceremonies will take place, of which we shall speak more fully at another time. On Wednesday they will take up the line of march for Greenville, and from there, by railroad, home.

The Company will carry their famous Revolutionary Bells—the "Entaw and Cowpens Bell," which has been for many years in their keeping, to the Battle Ground, and will have them solemnly and devoutly worshipped by the whole of Col. William Washington, who will be present, and at the hand of his Cavalry at Entaw Springs and Cowpens.

We trust that this, the first visit of the Washington Light Infantry to the mountain District, will be satisfactory to them, and that they will to their already enviable reputation, at home and abroad.—*Laurensville Herald.*

FRAUDULENT ISSUES OF STOCK.—Much excitement was caused on the evening of the 1st inst. by the rumors of some defalcation at the State Bank, and this was increased by the arrest and commitment of J. L. Eggleston, Treasurer of the Bank. There were conflicting accounts, and much uncertainty about the matter, but we have been able to learn that, in fact, the defalcation was a small amount of unclaimed dividends of one of the gentlemen in the office was induced to suspect that all was not right, and mentioning his suspicions to the President, the books were carefully examined on Sunday, and facts elicited, which, it was thought, were sufficient to justify the arrest. In what manner the fraudulent issues of stock were made is not known with certainty. In some instances, when certificates are lent endorsed for transfer, it is supposed they were sold, and the parties indicated were induced to do so by the convenience of the clerk, either with other stock owners in bank for transfer, or with such new certificates as could be had, having the signature of the President. It is believed, however, that the over issue does not exceed \$24,000, and about \$2,000 of the money so realized has been recovered from a party to whom it had been issued, and who confessed the receipt of very large sums of money for a year or two past. A considerable portion of this sum will be covered by the bonds of the defaulter. Mr. Eggleston was arrested at the residence of an officer of that institution.—*Charleston Standard.*

SANDWICH ISLANDS.—The Honolulu Friend shows the terrific progress of the lava flow which threatens with destruction the beautiful town and bay of Hilo, but that seems most singular to an energetic people like ourselves is the apathy of the inhabitants, who are looking on bewildered, but taking no means to divert the fiery element from its course. The sides and surface of the stream of lava exposed to the air soon cool into a crust, below which the advancing mass keeps forcing a passage, and is thus able to advance rapidly, and turned into new channels. Sometimes the hard sides are tugged and streams let out, which flow almost at right angles with the general current. The friends say: "Every day the lava pours out of Hilo, in a stream some in great force some two miles wide. Three or four miles will bring it through the woods. It follows water channels, dries up aqueous matter, and forms fiery cascades of terrible sublimity. It heads straight down upon us, and nothing but the hand of Omnipotence can save our town and bay. Our expedition seems every day more and more solemn reality. Molten fires are gleaming, trees are falling, the jungle is consuming rivers, are boiling and ascending in steam clouds."

COMPANIES FOR KANSAS.—The Atlanta Intelligencer, of the 29th ultimo, says: "Judging from the number of companies passing almost daily through our city, on their way to Kansas, we doubt not there will be a smart sprinkling of Southerners in the interesting region before many weeks. On Wednesday a company of fifty men, on Wednesday passed through Atlanta, and on Thursday we noticed another company of forty-one, all armed and equipped, going on their way rejoicing. These were from Charleston and other points in S. C. A company organized in this city is expected to leave in a few days for the same destination."

REMARKABLE CASE.—The Rockingham (Va.) Advertiser states that a respectable farmer named Advertiser Henry, residing in that county, has lately obtained from food for fifty days, and he may yet survive several days. For sometime he has been in rather a melancholy mood, and about two months ago he refused to eat, and since that time has not taken anything except water, and he is still alive, though reduced to a mere skeleton. Neither physician nor friends can induce him to take any nourishment. He declares he can swallow nothing, though he does eat now and then take a drink of water. He is now lying in bed, and in this condition will he survive to death.

FATAL ACCIDENT.—The whole community was pained to learn, on Wednesday last, of the almost instant death, by accident, of a young lady of our village. It appears that on the Messrs Alexander alighting from Col. M. N. Norton's carriage, at Mr. Sam'l Reid's, in the afternoon of the 14th inst., the lady, who was seated in the rear seat, and was leaning forward, and was suddenly thrown forward, and fell from the carriage, and was killed on the spot. She was about 20 years of age, and was a native of this State. Her death was a great loss to her friends, and she was much beloved by all who knew her.—*Rockingham Courier.*

THE BANNER.—An eminent English physician says: "I have known the greatest increase amongst the female part of my patients, in the disorder in the forehead, loss of sight, and great suffering in the ear, induced, I firmly believe, from the present absurd fashion of dressing the neck in a high and stiff collar. During the past month I have been in attendance upon one lady, who complains of doleux in the forehead, and several others with similar complaints. It is high time the frivolous custom of the present day should be done away with."

EMIGRATION TO KANSAS seems to be rapidly increasing, as well from the South as the North. On the 10th inst., a steamer left St. Louis with 300 emigrants and eighty cases of mill. Many Southern gentlemen are taking the same route, and a gentleman from South Carolina recently took with him 50, another 30, and still another 20; and it is stated that about 500 slaves have passed through St. Louis, for the territory, since the opening of navigation.

Col. Hodges, the British representative at Hampton, had made representations to the Senate regarding the quantities of ammunition that left that port for the South. An examination followed of these declarations, when it was proved that the supplies had, in most instances, been forwarded on account of two houses in high standing in England, in one of which a member of Parliament was interested.

The Baton Rouge (La.) Sugar Planter tells of a bird, as large as a turkey, but colored like a guinea fowl, killed in that neighborhood by Francis Gaze, and the present and now of which upwards of 900 diamonds were recovered from a party to whom it had been issued, and who confessed the receipt of very large sums of money for a year or two past. A considerable portion of this sum will be covered by the bonds of the defaulter. Mr. Eggleston was arrested at the residence of an officer of that institution.—*Charleston Standard.*

SEVERAL FATALITIES.—We have been informed by several that great fatality prevails about Baton Rouge, in the northwestern part of that State, on account of the prevalence of typhoid pneumonia, in a malignant form. Coleman Cranford and some seven or eight of his neighbors have fallen victims to it.—*Cherter Standard.*

IF YOU wish to attend at the next Sunday, go into the church after services have begun, passing the board aisle with a heavy, soft, and comfortable, and be sure to keep your hat on until you reach the pew. Mind directions, and people will not only notice you, but will frown you to be a wonderful being, indeed.—*Yorkville Enquirer.*

A NOBLE EXAMPLE.—The Charleston Evening News informs us that the Hon. John Townsend, State Senator from St. John's, Colleton, has resigned to the Kansas Association of that city five hundred dollars. He offers that if fifty gentlemen in this State will each subscribe five hundred dollars, he will add another five hundred.

The Bank of Chester and the Bank of Newberry have declared a dividend for the last six months of \$1.25 per share—at the rate of 10 per cent. per annum. The Farmers' Bank of Fairfield made a dividend of \$1 per share.

CORN AND BACON DECLINING.—We learn that in August, corn is down to 45 cents by the quantity, and that bacon can be bought at 9 cents—the high ground. Very little of the new news to those who have read it.—*Edgefield Informer.*

DEPARTED THIS LIFE, at Pendleton, S. C., on the 21st ultimo, Mrs. Emily Campbell, wife of Archibald Campbell, aged 38 years.

We sorrow not "as those who have no hope." For believing that Jesus died and rose again, we likewise believe that those who sleep in Jesus will appear with him in glory.
