Seicr .- A debate sprang up in the U. S. Senate on the 2d May, of which the following passage is given in the Charleston Courier's Washington

Mr. Hale, alluding to what he said were grossly personal attacks upon him in Mr. Clay's recent speech, remarked that he had but one word to submit in reply: That it will take something beside ma

in the reply: I hat it will take something deside that lightly to re deem imbegility from contempt!

Mr. Clay sprang to his feet, greatly excited, saying: I defy the Senator's malice as much as I contemn his baseness. No man shall assoil my rights or those of my constituents and shirk his responsi-bility by skulking behing a plea of non-combateney. It he had been animated by these heroic feelings which he professes, he would not come upon this floor, and under the protection of its rules seek immunity for his insolence. I know he is pleased by this attention. There are those of his class who, like the London attorney, Mark Meddle, in the play, are ambitious of a kick. [Sensation]

He concluded by remarking that he had nothing more to say to that Senator, having twice declined his acquaintance; and he asked parden of the Sen-ate for consuming so much time about a Senator who soils the carpet upon which he treads.

Mr. Hale replied that he had never sought an in-

troduction to him but once, and that was on professional business for the benefit of a citiz a at Ala-Mr. Clay rejoined. He did not think his repu-

Mr. Hale replied that if he did eat his own words. he would have a more palatable meal than the Senator from Alabam , if he should undertake to eat his.

Mr. Evenerr, in a letter in wich he nevepts an invitation to deliver his Washington Address at Springfield, Mass., says:

"I am granfied that you concur with me in the wish to appropriate the proceeds in aid of the finds for the purchase of Magnt Vernon. The recent letters of the proprietor throw some doubt on his present willingness to self the estate. It cannot, however, be doubted, that it will eventually become vantageously invested in trust, and I shall make the same disposition of what may hereafter come into my hands, without the deduction of a dollar for personal expenses. Should the attempt to purchase Mount Vernon eventually fail, the funds raised et n be appropriated to some other patriotic purpose of general interest connected with the memory ... Washington."

The extraordinary measures taken to prevent the circulation of these and similar productions of the old poet show that the song writers of a people are more potent than the law-makers.

WORMS.

As this is the season of the year when worms are most formidable among children, the proprietors of M'Lane's Vermifuge, Fleming Bros. of Pittsburg, beg leave to can the attention of parents to its virtues for the expelling of these annoy-ing and often fatal enemies of children. It was invented by a physician of great experience in Vir-ginia, who, after having used it for several years in his own practice, and found its success so univer-sal, was induced at last to offer it to the public as a cheap but certain and excellent medicine. It has since become justly popular throughout the United States, as the most efficient Vermifuge ever known, and the demand has been steadily on the increase

since its first introduction to the public.

Purchasers will be careful to ask for DR.
M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. of Pirrs-nurgh, PA. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS.

FEVER AND AGUE-an infallible Cure.

We defy the world to produce any medicine which does not contain Quinine, Bark, Arsenic, Mcreury, or any noxons or deadly compound, to cure this annoying disease so effectually as Car-ter's Spanish Mixture. While it contains none of the above named dangerous articles, yet it possesses a power in relieving and curing Fever and Ague which cannot be approached by any of them sepa-rately or in combination. It acts specifically on the Liver, Purifies the Blood, opens the pores of the Skin, and assists rature to expel from the system the seeds of Disease, or what is as bad, the remains of the Mineral Drugs, which clog and finally destroy he constitution.

The e are counterfeit Dollars, Eagles and Sovereigns. The good people of this world do not intend that our President and Queen Victoria shall have all the money-making in their own hands. So they intro-duced a few Bogus coins, to cheat the unwary and open the eyes of Justice, who is represented as blind. The fact is, there is scarcely one pond arti-cle in this world, that has not a counterfect rep.eblind. The fact is, there is scarcely one plant and cle in this world, that has not a counterfeit representation. And if you pure ase the counterfeit at any price, you may just consider yourself cheated, used up, and done for.

Our Agent in Pickens District, S. C. Mr. S. R. McFall, assures us 'that he uses it with great benefit in his own family, and recommends it to his neighbors." CATHARTIC PILLS OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors,

action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give Directions for their use in the complaints which they have been found to cure.

For Costiveness.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of Piles, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

For Dyspersia, which is sometimes the cause of Costiveness, and always uncomfortable, take mild dosses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the heartburn, bodyburn, and soulburn of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a Fotu Stomach, or Morbid Inaction of the Bowels, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

For Nervousness, Sick Headache, Nauska, Pain in the Stomach, Back, or Side, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

For Scroula, Errsipelas, and all Disenses of the Skin, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and pur

they do as much good in preventing sickness as by the remarkable cures which they are making every where.

Liver Complaint, Jaunhier, and all Billows Affections, arise from some detangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion, titiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigustion is the symptom. Obstruction of the duet which empties the bile into the atomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evila. Costiveness, or alternately costiveness and diarrhes, prevails. Feverish symptoms, languor, low spirits, weariness, reatlessness, and melanchely, with sometimes in ability to sleep, and sometimes great drowsiness is sometimes there is severe pain in the side; the skin and the white of the eyes become agreenish yellow, the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious coite, hillous diarrhesa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

Rheumatism, Gody, and all Inflammatory Fevers, are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principal of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a Dinner Pills, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed:

of the unclean diseases of the skin, because your system wants cleansing.

To PURIFY THE BLOOD, they are the best medicate ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable discusses will be swept out of the system like chaff before the wind. By this property they do as much good in preventing siekness as by the remarkable cures which they are making everywhere.
