peculiarity specified .-Edgefield Advertiser. Naws most Escano.-The arrival of the steamers Hermanu and Baltic confirms the news by the Canada, that the British Ministry have con-cluded not to suspeud diplomatic intercourse with the United States. It will be seen by extracts from prominent Euglish journals that the light is break-ing in upon those who were so loudly defending Mr. Grumpton. In addition to the evidence fur-bided by Mr. Marcy of the propriety of the course of our government, the excitement of the people of England gave abundant inducements to them to change their tone towards the United States. Peace meetings have been hild in many places, and the demonstration on the part of the people every where indicates that they desire the solid anity of mutual commercial advantages to the two countries to supersche questions of eignette or di-plomatic differences.-South Carolinian.

THE BRITISH LEGATION .- The Washington cor respondent of the Baltimore Sun says: "I under stand that the chief Secretary of the British Lega tion is preparing, under instructions from the Bri-tial Government, to re-open the Legation at Washington, which was temporarily closed or suspended in consequence of the dismissal of Mr. Crampton."

An old lady in Pennsylvania had a great aversion to rye, and never could eat it in any form. "Till of late." said she, "they have got to making it into whiskey, and I find that I can, now and then, worry down a little."

The young married couple who thought they could live on love and moonlight find there is some virtue in baked beans. For taking the romance out of young folks, marriage is nearly as bad as a lawsuit.

Women are called "softer sex," because they are so easily humbugged. Out of one hundred girls, ninety-five would prefer ostentation to happiness-a dandy husband to a mechanic.

"Don't know, zur."

"Well, remember, there's eight." "Eight! pooh! dad always takes his with-out no scruples.

Have You a Diseased Liver ?

The question, though startling, is sufficient by suggestive when the fact is taken into considera-ion that discusses of the Liver have become most charmingly frequent in the United States. Indeed, there are few formidable discusses that are not in some way traceable to a deranged state of that important organ. Many of the complaints usually classed under the head of Consumption have their origin in the Liver. "Any remedy that would in-sure regularity and healthful action in the Liver, would be a blessing to mankind ?" has been the exclamation of thousands. That remeay has been the found, it is safe and sure. When a fair trial has been afforded it, it has never been known to fail. Reader, have you any disease of the Liver, or disease which you believe proceeds from hepatic

derangement? Lese not a moment, but purchase a box of Dr. M'Lave's Pills, prepared by Fleming Bros., Pittsburgh, Pa., and they will restore you to health. It is the only remedy yet discovered in which implicit confidence may be placed.

Purchasers will be careful to ask for DR. MLANES CELEBRATED LIVER PILLS, manufactured by FLEMING BROS, of Pirrs nonce, PA. There are other Pills perpering to be Liver Pills now before the public. The statistical tables of mortality show a reduction in this country of the proportion of deaths from spulmouary diseases. Doct, Ager attributes this result to the effect of his Cherry Poetoral. He also asserts that the cures from his Cathe tic Pills give ason to believe they will, as they com'o into more general use, materially reduce the mortality from those particular diseases for which they are designed.
