We are requested to say that service may be expected in the Presbyterian Church to-day, at 11 o'clock, by the Pastor.

CONFERENCE.

The South Carolina Conference of the M. E. Church, South, nict in Yorkville yesterday. All the preachers and a goodly number of our citizens have gone thither.

THE WEATHER.

We shall occasionally give notes of the state the thermometer during the winter, at least when marked changes occur. On the 17th instant, before suprise, the mercury

of her childhood : By a slip of the pen, in our last paper, we per verted the object of the Governor in appointing Thursday as a holiday, for which we have been taken sharply to task. We designated it a day of fasting, when he designed it for thanksgiving. Op posed as we are to all corporeal inflections for thiritual ends, it is needless to say we would not have complied with cur own appointment, and therefore ebiolye our readers from all obligation of observance. Fasting is an old institution-feasting modern. We incline to the innovation, as a decided mark of progress.

CANDIDATES FOR GOVERNOR.

So many gentlemen have been nominated to the Legislature for the honorable position of Governo that it almost passes our ability to recollect them We will name the most prominent and the most recuti

- Hon. F. W. PICKENS, Gen. DANIEL WALLACE,
- Col. MAXCY GREGO,
- Hon, R. F W. ALLSTON.
- Hon. R. BARNWELL RUSTT

We suppose that any one of these distinguished gentlemen might with perfect safety be intrusted with the Executive functions of this State. Whil so believing, however, we have a preference; and if we knew any way to give efficacy to our partiality, we should certainly spread curselves for Hon. F. W. Pickens.

NEWSPAPER CHANGES.

The Greenville Patriot and Mountaineer h passed sgain into the hands of G. Errington Elford as sole proprietor. He possesses both industry and capacity to keep his paper at a high standard of mechanical excellence, and will do it. Mr. MeKnight has extinguished the interest of Gilbert & Darr in the Kingstree Star.

THE POPULAR VOTE.

The official returns of the popular vote of the late Presidential election are only partial. A careful estimate, however, has been made in all the States, based upon former elections, and thus a pretty accurate knowledge is obtained of the aggregate vote peculiar products, but the forms of labor at the of each caudidate.

J. T. Zealy. For nicety of julgment and perfection of manipulation, with roundness of object and fineness of tone, we assert that J. T. Zealy stands at the head of his profession in South Carolina, and few better operators can be found in the country. And we may add, that his pupil, Col. L. A. Green, of our village, is but little behind his proceptor.

It will be remembered that Dr. J. W. Parker, of Celumbia, related somewhat of his success in the culture of corn for exhibition at the State Fair, during our Agricultural Exhibition in September. We find the following notice of award to him. Will any of our farmers attempt competition for the next display in Columbia :

The largest crop of Corn grown upon two acres or more of upland, Silver Pitcher. Dr. J. W. Parker, Columbia, S. C. (149 bushels, 1 peck, 2 quarts, on first acre; and 116 bushels, 3 pecks, 3 uarts, on second.)

As far as we can judge by the Columbia papers the first Fair was an immense success, and the number of articles on exhibition far exceeded calcu lation. The arrangements were ample, and every thing in the programme passed off as satisfactorily as could have been expected.

At a meeting of the Society, on Wednesday evening, Gen. Jamison was introduced into the Hall of the House of Representatives, and delivered the annual address, a copy of which was solicited for publication. The subject of the address was Agriculture, and the Means and Measures to its Advancement, and he touched not only upon the

South. The General is known to be a deep thinker, with high mental cultivation and practical experience, and his address caunot fail to add to his eputation, as well as impart information of great alue to the agricultural interests of the South. A RICH ELOPEMENT .- TWO BRIDEGROOMS TO oxe BRIDE - A St. Josephs (Mo.) correspondent, writing on the 23d of October, says: "Last night our gossips were thrown into cesta-

Yes town, and that she smiled equally upon both. Yes-terday morning she was to be married to one and last night to the other, and, strange to any, she kept both engagements. At 9 A. They fied at dusk, and were wedded at Bloomington, just twelve miles dis-tant, and continued on their way to realms ur-known."

IMPORTANT FROM ENGLAND -- It is stated in the Philadelphia American that private letters, received in that city from the Hon, George M. Dallas, Uni-ted States Minister at the Court of St. James, by his confidential friends, convey the important intel ligence that he has succeeded in negotiating a treaty between the United States and England, which covers and settles all the points in dispute between the two countries. It has been the earnest desire of President Pierce and Steretary Marcy to accom alish this difficult task before retiring I on office, so hat all possible troubles might be smoothed awa for the incoming administration The instruction given to Mr. Dallas, when he entered upon his mission, have been zealously acted up to by him, and the result has been most happy, as above noted.

We are induced to make this exhibit of the popplar vote to in a measure counteract contrary statements by some of our papers. The Laurensville Herald, for instance, shows Mr. Buchanan in a minority in the country of 14,000-and entirely omits

the vote of South Carolina (thirty thousand at least) and the Southern vote cast for Fillmore. We opine that the 455,000 Southerners who voted for Fillmore would enter decided objection to being set down as abolitionists, and yet the Herald so treats them.
