This celebrated place will bereafter, have no special interest over other lecutities, where great armies for a time have congregated and then departed. Our telegrams say that it is evacuated, and that General Beauregard has fallen back to some point on the Mobile, and Ohio Railroad. The reasons for a movement so unexpected to the unskilled in military science, and who have watched with breathless interest for tidings from the renewned Gen. in command are given by the correspondent to the Savannah Republican, as follows :

The soil around Corinth is of that peculiar character which is very wet in winter and very dry in su niner. As was stated in a former letter, I saw a mule drowned in a small branch, near the town, where, two weeks afterseen. The consequence was, at the time of my departure, both the troops and horses were suffering for water to an extent you can hardly imagine. The chief supply was obtained from the standing pools in the beds of exhausted streams. Steps had been 14 ken 12 ber a number of wells, but it was ascertained that there two was no rope or tools to be had in the town, and that it would be necessary to send to Columbus, Miss., for the particular kind of rope desired. Early yesterday morning it was made evident to our pickets that the enemy had creeted rifle pens near the woods on Dr. Garnett's tarm. Two of our pickets were wounded by their sharp-shooters. Captain Kirkpatrick's artillery, from Lynchburg, was ordered up within range, and soon cleared the woods and pens of the Yarkees by rapid discharges of shot and shell amongst them, but with what damage to the enemy was unknown. No one was injured among the artillerists.

Several days since a couple of pickets of a Texas regiment, on duty on the Chick-ahominy, saw a short distance in advance of them what appeared to be a scrub tree moving in the bushes. One of them fired and the tree fell! Isside of it a dead Vankee was found. Extraordinary Memory.

The learned Bishop Jewel, who died in 1571, was blessed with a most wonderful memory. He could exactly repeat whatever he had writen at any former period ported. Some of his cavalry may have crossed the river, and probably did. They burnt one or two heidges on the Baltimore and Ohio railroad, and tore up the track for some distance.

After once reading it. During the ringing of the bell for public worship, he could commit to memory a whole sermon, and protonace it without hositation. His usual custom was to write the heads of his strmons on his memory, and so firmly were they, after a few minutes, imprinted on his mind, that he used to say, that if ten thon-sand people were fighting and quarrelling all the while he was preaching, they could not confuse him.
