ARTANBURG.
Friday, September 10, 1863.
PARTICULAR NOTICE.
Our friends are again notified that the CASH is invariably required for all Advertising and Work done at this office. We hope this will be remembered.

Military.
The Carolina is informed that Col. Williams' Regiment is notified to report to Gen. Ripley, at Charleston. Companies to rendezvous on the Railroads, on Friday, 11th instant.

Hon. W. C. Riven.
This gentleman has reviewed the situation of the country, after battling for two years, and he finds nothing to discourage us. We shall try and publish this letter to encourage the hearts of our friends, and to give old crackers something to lean upon, while the soldiers are laying waste the yankees.

Laying up for the Yankees.
In view of the military situation of affairs in East Tennessee, it becomes the duty of our planters to look sharp for the produce they are making this year. Don't lay up nothing for yankee raiders. We hope our farmers will dispose of their surplus crops as fast as they come in, at the Government price, rather than they should be impressed by our own officers. It is far more wise to distribute the provisions of the country among ourselves, than to house them up ready for the enemy. We have every reason to be cautious how we manage our affairs this winter, as we may find for nothing else but the enemy to raid this State from East Tennessee.

Curing an Evil.
The Augusta Constitutionalist gives an instance of a large lot of flour changing hands at a higher price than the Government pays. The impressing agents having received orders to impress all such flour, it was seized on account of Government. If the Government intend anything by putting the price of three dollars for a bushel of wheat, they mean it is a fair price, and that no person should be asked more, even in Confederate currency. If everything could be brought to the same standard, it would end all difficulty in buying and selling. This is what should be done at once by State Legislatures. It would throw out of circulation one-half of our present currency, and make it more convenient for Secretary Mcmminger to keep his accounts, and aid the Government materially in getting rid of too great a circulation. Another good thing—it would stop speculation, and might increase the army by thousands.

Morris' Island Evacuated.
CHARLESTON, September 7.—The bombardment was kept up without intermission all day yesterday, and far into the night. About 150 of our men were killed and wounded at Wagner and Gregg. The attempt to assault Gregg was repulsed. Before the enemy had completed their landing, great havoc is supposed to have been played in the enemy's boats by our grape and canister. At dark, yesterday afternoon, the enemy having advanced their sap up to the very moat of Battery Wagner, and it being impossible to hold the island any longer, Gen. Beauregard ordered its evacuation, which was executed between 8 p. m. and 1 a. m. with success. We spiked the guns of Wagner and Gregg and withdrew noiselessly in forty barges, only one barge containing twelve men, was captured. The enemy may hold Cummings Point, in full view of Morris' Island.

Substitute for Barrels.
As an unusual breadth of sugar cane has been planted, the want of barrels to hold the molasses will be seriously felt. In view of this, I suggest to those making molasses, to build a tank similar to those in form seen at railroad stations; a tank ten feet long, three feet high, and four feet wide will hold one thousand gallons, or twenty five barrels—such tanks, larger or smaller, according to the wants of the taker can be put up in the smoke or other houses and drawn from as required for the use, or to fill up barrels as obtained for transportation. Tanks should be made of twine, seasoned plank or one and a half inch for smaller sizes. The plank should be dressed inside, the edges need not be jointed, but left unplanned; a groove should be cut about six inches from the ends, in the side and bottom plank to admit the end planks. There is no use of a rail or any iron about it. The tank should be held together by frames of scantling around the tank near the ends—and if six feet long—one round the middle, made so as to keep up and keep the planks closely pressed together; also frames scantling should go inside the tank near the middle to keep the plank from bulging when clamped by the keys on the outside. After it is all clamped up, then work it from the inside with cotton or hemp, if from the shrinking of the plank it leaks. Key it up as it may require, cover the whole with lids, and you have it secure from trash. A tank to hold one thousand gallons will cost very little more than one that only holds three hundred gallons.

Excution of Deserters.
RICHMOND, September 4.—The ten deserters from the 18th North Carolina Regiment, recently captured in Fluvanna County, under command of Arjant Mallett, who was killed, will be executed tomorrow, in accordance with the verdict of the court martial, in presence of Gen. Johnston's command, of the Army of Northern Virginia.

Patriotic Letter from the Hon. J. W. Lewis.
CARTERSVILLE, GA., August 21, 1863.
I authorized the Mayor of the City of Charleston to draw on me for one thousand dollars, to be expended either in the purchase of refreshments to the noble soldiers now fighting in our defence, but if not thus needed, then to go to the relief of the poor and suffering of the City.
