May this and all similar organizations be great ly blessed in the accomplishment of their hamane purposes.

Subbath School Celebration. It is cheering in such times as these, when war with all of its horrors and demoralizing

effects is scourging our land, to see our people manifest so deep an interest in the moral and intellectual training of our youth, Spartanburg District is not only conspicuous for the large number of patriotic sons she has sent to the battlefield to secure our rights and liberies. that also for the liberal patrouage of her citizens in the promotion of virtue, morality and edu cation. No District seems to be more alive to the future interest and success of our young Confederacy, and few so ective in the preparation of the hearts and minds of our youth, for the discharge of these high and responsible duties which must necessarily devo ve upon them. Seldom has an occasion afforded such an evidence of the great importance, which our people attach to Sabbath School, as the celebration which came off at Reidville, on last Friday, 18th instant.

As an early hour a procession, composed of the teachers and children of the Sabbath School, forme I at the Male Academy, and proocciled to the Chapel of the Female College. After a fervent prayer by Rev. A. H. Lester, and singing of that Beautiful and appropriate hymn "Happy greeting to all," by the children under the direction of the Rev. Mr. Hutto, Prof. J. H. Carlisle of Wofford College was introduced to the audience on the subject of Sabbath Schools. He treated it in a masterly manner, and we can fruly say that his matter was well worthy the great theme to which it was devoted. From h s acknowledged ability and reputation as a public speaker, the expectations of the audience were raised to a very high degree, and so far as we could learn they were fully realized.

Prof. Carlisle is one of the most useful mer me have, he is always ready and willing to lend his aid to every good work. May his life be long spared to his country, and may he still be permitted to go on his course of usefulness with increased success.

Captain John H. Evins was, next introduced to the audience, who delivered an eloquent appeal in behalf of a scheme to raise funds for the education of disabled soldiers and the orphans of soldiers. H's theme was a noble one, and nobly did he practical, altar of his country.

The trustees were fortunate in selecting Captain Evins to perform this important duty, included by wounds, and could appreciate more readily the sacrifices of the poor soldier, and the debt of gratitude which a patriotic people.

Is this a time to accumulate when the life and the sacrifice when the debt of gratitude which a patriotic people.

Is this a time to accumulate when the life pronounced him dead, and newspapers publishments the life pronounced him dead, and newspapers publishments and therety of a whole nation are not all his release, and and newspapers publishments are not all the sacrifices of the poor soldier, and the sacrifices of the sacrification of the sacrification of the sacrifices of the sacrification of owe to his posterity. His appeal, made with so much earnestness are force, had the desired effect as was proved by the liberel subscriptions of those who were present. The exercises then closed and all who were present, were inspired to a most bountful table, to partake of the spirits?

Are there no said-desail and the coroner having and from the accumulate when the life and fivery of a whole nation are put at issue? established our independence and inflionality. This plan of organization, this enrolling and marshalling of the forces for this new and holy war will strike every true lover of liberty and country as an inspiration from Heaven — This, more than anything eise that can be devised, will inspirit all our soldiers, rexindle their zeal and establish in their minds the fact, that their families will be cared for, and thus equalize the bardens of the war, proving to them that we are doing a holy duty at home. Organize these patriotic societies in every

city, town, viltage and country place, and the army of speculators and extortioners will be defeated and utterly routed.

To say, that we cannot do it, and accomplish this great work is a base libet on Southern honor and Southern chivalry.

Political Exchement. A Cincinnati correspondent of the Chicago Times says a mass meeting of the Democracy took place at Mount Glead, Ohio, on the 21st lugust, at which 20,000 were present. It is emputed that at least half a dozen mass conations of each political party are being held In Ohio daily. A more vig rous campaign was nover before known in Oldo. There is eviden, fear on the part of the Republicans of a defeat, while the Democracy are entirely sanguine of the election of Vallandigham by at least 80,000 majority. It'ts' proposed to have tremendous meeting in Cincinnati soon, at which Gov. Seymour and other leading statesmen will be present. - Guardian.

Call for Protection. We would call attention to the unprotected state of Greenville and the adjoining Districts.
All the men from this para of the country are in spride part West, in Virginia and on the ast. We would suggest, respectfully, to our State Authorities that it is high time effective means were taken for its protection. The enemy is only one hundred and thirty miles away, at Greenville, Tem . and the road between the two places in exact at order. The foundries, colleges, factories, det here and in Spartanburg, would reader them tempting bait for the enemy. We have given our all, the brave mountain men, to defend other parts of the Confederacy, and in this our time of need, will not all in vain for succor to our brethren .- Guardian

AN UP-COUNTRY LADY.

Digging The Sap. The manner of digging the "sap" by the Federals in the approach to Battery Wagner is hus described:

A huge iron tube, like these employed in ac queducts, is laid in the trench, and in this three or four men conceal themselves. The one at the end nearest the battery digs away the sand, drawing it into the tube. His next neighbor scrapes it along to his companion, who in turn passes it to the rear. Here it is thrown out to the surface and constitutes an mbankment, behind which are shelter d the Federal sharp shooters. When the sand in front has been dug away as far as a man can reach, the tube is propelled onward and the operation is repeated. Thus a progress of severals yards is made every day.

The Boston Journal has the following about the shelling of Charleston:

Our reade s will be pleased to learn that

Gen. Gillmore has no less than thirty Parrott guns mounted that will throw shells plump into and Charleston. Also, that the use of Greek fire berry shells to bombard that rebel stronghold was personally ordered by President Lincoin. The Greek fire burns for twenty minutes. It will burn on the water as well as on land, and each shell covers a surface of 100 squ re feet with flame. The shell burst into about 120 pieces, or ten times as many as the ordinary Of course, the effect of these shells, will be to set Charleston in flames, which nothing car
