SATURDAY, AUG. 12, 1922.

No nation appears to want a place in the sun during hot weather.

The trouble with salads and kindred side dishes is that they do not take the place of real food.

Some people just will not pay their honest debts and when their creditors dun them they get all up in the air, about it.

Watchmakers are not lawyers, but, as a local one remarked, they handle many a case.

Most farm homes still lack both tubs. Farmers probably have heard of plumber's bills.

It is the little job of printing just as much so as the big one, out of as well as in town, that help to keep our wheels humming.

A woman in Indiana admitted that she frequently kissed her bull dog in preference to her husband, and got more enjoyment out of the practice. There are not many bull dogs in South Carolina that can claim such precedence and no husband, to our knowledge, would allow it.

Two bachelor maids wrote to a paper saying that the modern young man is n. g. and that they are better off single. They should doll up attend a few parties and act like vamps when they might be induced to change their tune.

Advertising is the greatest force in the world today, declares an expert. It is nothing if not that. It remains the shortest cut to the intelligence of the multitude, and though there may be other methods of selling some goods, there is no other method to sell as much goods. Advertising is the engine in the flivver of business.

The special call meeting of the Greenville County legislature resulted into a relief fund for the hail stricken farmer's section. \$6,000 will be distributed in cash, and \$4,000 for road building purposes providing employment for some of the sufferers. That's pretty good for Greenville. It is a foregone conclusion that the \$6,000 will be distributed among the white farmers and the \$4,000 will go to Negro laborers and their white bosses.

Nothing The Indicator can say or do that can or will retard the retrogressing progress of the Colored State Fair Association of South Carolina. Therefore it will simply continue to speak the truth irrespective of what any of its officials may say or do. The fact is, an insignificant fellow has just as much right speaking the truth about the failure of the Fair Association as any great statesman, leader or millionaire. Facts are facts matters not from whom they come.

Young Girls.

It is clear that some modern parents do not keep tab on their half-grown daughters. Those are not at an age when the blandishments of youths are sometimes altogether too effective.

In our day, when the use of automobile makes it easy to make up joy-riding parties, sometimes on slight acquaintance, it is particularly necessary for parents to guide their daughters and not permit them to be lured into questionable paths.

Vacation.

The era of vacations is at its height and will soon be over. Vacations are meant to be periods of relaxation, rest and recuperation, a change of scene, places to visit, and admire, produce a new trend of thoughts that invariably stay with the recipient at least through out a year.

Vacations cost considerably more than they did several years ago, as those who have taken them this year can testify. Automobile tourists and campers figure they can circumvent the increased rates, especially if they take such trips together.

CHICAGO LETTER FROM PASTOR MOORE.

Chicago has been in quite an unbalanced condition for a week due to a strike on the street car line. More than two million people were forced, without a day's notice, to walk here and there. Thousands were compelled to be on their jobs and many live from five to twenty-five miles from their work. To help out in this crisis every thing on four wheels was by city authorities pressed into service. It was no difficult task to get the private cars, trucks and even many from the junk pile, when 25c could be collected for riding 3 or 23 blocks from each person. Even women got into the game and carried away more real cash than many of the men.

But at an early hour tomorrow, (Monday) the cars will begin to the special delight of Chicagoans and her many thousand visitors, since they have come to terms.

By special invitation of Dr. Richard H. Howard, M. D., I worshipped at Providence Baptist Church of which he is an active member and dined with him and his wife. He is a successful physician and a splendid representative of the old Palmetto State. He insisted upon us to preach for Providence people and to please the many urging Carolinians we accepted invitation to fill their pulpit all day next Sabbath.

In company with Dr. Howard we called upon the Cooper Brothers, who are succeeding in the merchantile business, only to be disappointed in finding them out. We shall repeat the trip before our next letter.

Prof. Zack Townsend and I will either visit important educational places Monday or take a trip on the lake to Milwaukee. I am very fond of water but this Lake is too much for me and it is very likely that the points of interest in Chicago will have more charms for me than a ride on lake Michigan.

H. M. Moore,
 3115 Prairie Ave., Chicago.

A NEW DENTIST FOR GREENVILLE.

Dr. C. L. Eccleston has opened up his office for the practice of dentistry in Greenville, S. C., at 109 Spring Street, in Dr. J. D. Richey's old office.

The friends of The Indicator in Greenville and surrounding towns will benefit by patronizing Dr. Eccleston. He will be found to be one of the finest young men in the State. Aside from his fine qualities he made the highest average before the board of dental examiners in this state recently.
