**AT PRIVATE SALE.**  
 A TRACT OF LAND on the Edisto River, through the centre of which passes the Rail Road, and through one of the corners passes the River.

This tract, originally granted to Jacob Motte for 1000 acres, is the most eligible land for a settlement within the State. The recent termination of two law suits in favor of the plaintiff, has established the title and the location by well known meets and bounds.

The land is remarkably well timbered, but a small part of it cleared and has recently been in cultivation. As cotton or provision land, the superior to this tract is not to be met with. The river and the road both furnish the most complete access to the best means of transportation.

The distance from Charleston is about 65 miles, being 3 miles from Branchville, which the cars from Charleston reach every day by 12 or 1 o'clock; the neighbouring high and fertile soil is not surpassed for healthy summer residences, as the wealthy settlers evince in their own families.

This tract will be sold either in whole or in lots, to suit purchasers.

The Plans are ready for examination. For terms, &c. apply to

 An Indian Remedy For the Tooth-Ache.

THE established reputation and constantly increasing demand for this effectual remedy of pain and preservative of the teeth, has induced the Proprietor to offer it to the American public. Arrangements have been made to supply agents in all the principal cities and towns in the United States, so as to place it within the reach of those suffering and likely to suffer with this most harassing of all Aches, **TOOTH-ACHE.**

THE CAUSE OF DECAY IN TEETH is the depositing of small particles of masticated food (either animal or vegetable) in the indentations of the teeth, or between them, which there remains until decay of the tooth takes place, the acidity of which decomposes the tooth. The great difficulty of all that have written treatises on the teeth, has been, to recommend a liquid, that would mix itself up with this fetid matter, so as to weaken it to such a degree, as to prevent its affecting the teeth.

This discovery (purely accidental) has not only been brought to light, but its application to an aching tooth (when the nerve can be reached) affords almost instantaneous relief. And if its use is continued until the tooth is consumed, none need apprehend pain from the same tooth. It may be remarked, that the teeth are as subject to ache, as any other part of the system, and in the same way. But for tooth-ache, a remedy is now offered to the public, that has become the wonder, as well as the admiration of every one that has become acquainted with its reputation. Since a remedy has been discovered for a disease so general and so excruciating as the tooth-ache, the proprietor has been most anxious to procure a remedy in the most perfect and most efficacious manner, in all his afflictions, and is fully satisfied, that the earth is supplied with a remedy at hand for every disease, where the cause may be traced.

A few extracts of letters are published, in place of the numerous certificates, that might be so they occupy less space, and are more concise, and inspire the public with equal confidence.

From Dr. E. R. Calhoun.  
 ABBEVILLE, S. C., March 21.

Dear Sir—I wish you to ship two gross, or more if you can spare it, of your balm. You may expect me to make a strong pull on you in a short time, as my reputation increases. I shall spare no pains in its management. If you should feel disposed to sell the right of this state, and all south of this place, inform me your terms. I wish you, at any rate, to give me the refusal, whenever you feel disposed to make that kind of a trade.

I remain yours,  
 E. R. CALHOUN.
