### PROSPECTUS. OF THE Southern Christian Advocate.

A T the late General Conferrence of the Metho-dist Episcopal Church resolutions were passed, authorizing the publication of weekly religious papers. on the same footing with the Christian Advocate and Journal (of New York,) and the Western Cristian Advocate (Cincinnati,) at Richmond, Nashville, and Charleston. At Nashville, the paper thus authorized, has already been issued. The one intended for Richmond, will, we doubt not, soon be put forth. And the Georgia and South Carolina Annual Conferences, for whose districts the paper at Charleston is especially intended, have each taken measures for its early publication.

The Act of the General Conference authorizing these publications, was called for by the Southern Delegates, on the ground of its being necessary to an equal distribution of the Church's press to all parts of her communion ; and especially, in view of the peculiar political aspect of the times. Within range contemplated for the paper at Charleston, leaving equal scope for those at Richmond and Nashville, there are about fifty thousand whites in the membership of the Church. Here then are, probably, ten thousand Methodist families, and a much greater number attached to the Methodists who have no weekly paper published among them .--This, under any circumstances, might be held a sufficient reason for the publication we propose; but considered in connexion with the feeling which is known to pervade all classes of men on the subject of our domestic institutions, it not only justifies onr undertaking as one that is expedient, but strongly urges it as necessary to the Chnrch.

We propose, therefore, to publish at the city of Charleston, as soon as the subscription list shall warrant it, a weekly religous paper, to be entitled the Southern Christian Advocate, which shall be zealously devoted to the promotion of good morals and religion to give expression to the views and feelings of our people, kindly, but firmly, on all subjects of bearing on the Church--and in particular, to set forward the cause Christian benevolence, as embodiedin the Bible, Missionary, Sunday-Scool, Tract and Temperance Societies.

This paper shall be printed on an imperia! sheet of the same size and quality with that of the Christian Advocate of New York with, new type, long primer; and the typography in all respects, shall closely resemble the New York paper. The price will be three dollars, to be paid in ad-

vance. Subscriptions paid within one month after receiving the first number, either to the publisher or an authorized Agent, will be considered as in advance. In any case of discontinuance during the year, the subscription for the year must be paid, and postage of the order to discontinue. All communications, whether of business or matter

for publication, unless remitting money or subscrip-tions, to the amount of ten dollars, must be post paid Communications involving facts, or respecting persons, as accounts of revivals of religious meetings, obituary notices, biographies, &c. must be accompa

# Ague and Fever, And every Symptom of General Debility, SPEEDILY AND PERMANENTLY CURED BY COSTER & COXE'S

### Original SOUTHERN TONIC.

NOSTER & COXE, the inventors of this celebrated medicine, from a long residence in the South, and from the nature of their vocation, have been brought immediately into contact with the Ague and Fever in its most obstinate forms, and have frequently been compelled to witness the entire want of success in the practice of the most skillful Physicians. The usual and popular mode of treating this disease has been, first to evacuate the stomach and bowels, and then resort to the use of Tonics-of which class of Medicines a very great variety have been recommended to the Publicall of which have had their advocates, and that which has been by far the most popular one, has been Peruvian Bark and its preparations, particularly that of Quinine. There are insurmountable bjections to the administration of Quinine, as to most individuals, (when carried to a salutary point,) it produces a roaring in the ears, nausea, and a headach, very similar to a billious headach; and when it effects a cure it is seldom permanent. was the hope of avoiding this state of things that induced us to try "the Southern Tonic," and we are happy to say that its success has surprised even us. As there is no Arsenic, Mercury, or any thing in the least hurtful to the human constitution in it. there can be no objection to the administration of the Southern Tonic to the most tender infant : indeed it will be found the most delicate and effective Medicine known in those cases of Disorganized Stomach and Bowels, and of general debility, which so frequently present themselves in children.

We subjoin the opinions of a few Individuals. From Col. JNO B. HOGAN, Collector of the Port of Mobile-formerly Senator from the counties of Mobile, Baldwin. &c. Acting Adj. and Inspector General of the Army in the recent Creek Campaign, &c.

MOBILE, Aug. 18, 1836. GENTLEMEN—During the late Creek Campaign, I was attacked violently with Bilious Intermittent Fe ver, which for several days confined me to my quarters at Tallassee. Your "Southern Tonic" was re commended to me, and my friend Dr Bussey, actually rode from Tallassee to Montgomery and back in one day to procure me a bottle, which entirely reheved me, and enabled me, before I had taken half the quantity, to proceed on and join the army on Hatchachubba. Since my return home my son was autacked, and I sent into the city for your Tonic, and regretted to learn there was none for sale in Mohile. Cannot you send some to this place, so that our citizens may enjoy the benefits of the best medicine of the sort I have ever tried? Your attention to this request will confer a favour on the afflicted, and oblige one who has already experienced its beneficial effects. Your obd't. serv't. JNO. B. HOGAN.

### From J. R. M'LEOD, M. D. MUNTGOMERY, NOV. 1835.

Messrs. Coster & Coxe : GENTLEMEN-I have used your Southern Tonic in a number of cases, and saying, that I have found it decidedly more efficacious in Ague and Fever than the remedies in general use. Its great merit is its judicious combination of Stimulant, Purgative, Tonic and Diaphoretic

Fromt he Token, for 1837. TO A NAMELESS ONE Lady, we never before, Vithin the world's wide space ; And yet the more I gaze, the more, I recollect thy face ! Each feature to my mind recalls An image of the past, Which, where the shade of memory falls, Is sacred to the last.

But she, whose charms in thine I trace, Was not, alas ! of earth; And yet of more than human grace, For Fancy gave her birth ; She haunted me by sunlit streams, And burst upon my sight, When through the pleasant land of dreams,

My spirit roved at night. Lost idol! why didst thou depart? O, let thine earnest eyes-Abstraction! vision! though thou art-Once more my soul surprise ! She comes ! a fair and laughing girl-Whom happy does she seek ?

And raven curls their links unfurl Adown her blushing cheek.

Her Grecian lineaments are bright With beauty half divine; She is 'a phantom of delight,' Her dark eyes are-like thine ! Like her thy form-thy voice of glee, Which happy thoughts attune, Sweet as th' enthralling melody Of singing birds in June !

I clasp her hands in mine once more-I am again a boy ! The past shows nothing to deplore. The future all is joy. We wander through deserted halls,

We climb the wooded height, We hear the roar of waterfalls, And watch the eagle's flight.

We stand where sunset colors lie Upon a lake at rest; And oh ! what clouds of Tyrian dye Are sloping down the west ! And close above the purple pile, The evening star appears, While she who cheered me with her smile, Now tries to hide her tears.

Enough ! the spell is at an end, The pageant floats away, And I so more may idly bend At memory's shrine to-day. I turn to thee, whose beauty first That shape of love renewed, Waking emotions there were nurst

Extract from a letter from Capt. STRINGER, of the U. S. Army. TALLASSEE, June 13, 1836.

Governor Clay of this State is with us, and has frequently introduced the mention of the great re-lief he received from the use of your Southern Tonic in my presence. It is evident he is assured that he is indebted to your medicine for his speedy recovery from his recent severe indisposition. Hi good opinion of it is certainly a high compliment.

Yours, truly, THOMAS STRINGER.

MONTGOMERY, June 30, 1836. Messrs. Coster & Coxe :

GENTLEMEN-I have used your Southern Tonic with unparalleled success. I cured four cases of Ague and Fever permanently with one bottle of this invaluable mndicine.

### FROM AGENTS.

CAHAWBA, August 5, 1836. Messrs Coster & Coxe:

GENTLEMEN-It affords us pleasure to add our testimony, founded on experimental knowledge, to prove the efficacy, and establish the reputation, of your invaluable Southern Tonic. We have sold all you sent us except two bottles, which were broken, and we have not heard of its failing in the first instance. You will please send us 10 dozen bottles by the first opportunity, without fail, and oblige yours, &c. HARVEY & CREIG.

From our representative to the Legislature, Col. Jno. A. Campbell.

GENTLEMEN-No medicine stands so high in my estimation as your Southern Tonic, for the cure of Ague and Fever. I used it at first by the advice of my family Physician, with success, and its effects upon more recent cases have been equal y gratify-

MONTGOMERY COUNTY, Dec. 1, 1835. Messrs. Coster & Core :

DEAR SIRS-I feel gratified by this opportunity of testifying to the merits of your "Southern Tonic." I have used it in many cases in my white and colored family, and not one case failed. In short, I assure the public that it is in my op nion, the best medicine for the cure of Fever and Ague now in use.

Very respectfully, yours, WM. M'LEMORE.

### From Major J. B. MORSE.

DEAR SIRS-I have been afflicted with Ague and Fever for a long time, and although the remedies which were prescribed gave me temporary relief, yet none removed the cause of the disease, and thereby permanently cured me till I used your South-ern Tonic. It did so. This gave me great confi-dence, and as I saw that you had recommended it in dence, and as I saw that you had recommended it in cases of debility, general weakness, and inactivity of the digestive organs, I induced my wife, who had been laboring under these symptoms for a year or more, to try it. She used one bottle with some evidences of an increase of health, and a few bottles more taken in moderate doses entirely cured her. Respectfully, yours,

J. B. MORSE.

REMARKABLE DISCOVERY. From the Hamilton (Tenn.) Observer.

It is well known to our readers that among the many natural curiosities found in the exthe Great Laurel Ridge, (Cumberland Mounprodigious vaulted apartments and chambers, astonish the beholder. Several petrified trees moths, and other animals whose races are now extinct.

But the most remarkable discovery that has ever been made in this part of the countryif not the greatest natural curiosity in the world, was brought to light on Sunday, 24th Jan. by two scientific gentlemen with whom town. They have been for several weeks exploring the caves above alluded to, and carry away with them.

It is believed by these gentlemen that all those of men-probably hunters. Their clothis evident that too was in a measure turned to stone. They are described thus-one sitting, with the head leaned asit were on a projecting rock, and the other standing, with a spear balanced in his hand, as though he was surprised, and had just started on a quick walk. The dog lies as if couched in terror, or about to make a spring-but the features or body are not distinct enough to determine which position.

This wonderful formation cannot be accounted for in any other way than that these persons were buried by some convulsion of nature. The cave in which they were found is full 125 feet into the mountain, and 1s situated about a mile and a half beyond what is called Mammoth Grotto, in a direct line. The entrance to the place is difficult, and it is thought that it was never before attempted at all. At the foot of the entrance of the cave is a considerable brook of water, which appears to gather from all parts of it. There is also a valley made this interesting discovery are making which they intend to have forwarded to New

A FORTUNE MADE BY ACCIDENT .--- I ODCC knew a man who died immens ly rich, who traced all his good fortune to a rusty nail, which he preserved with a sort of pious ven ration. The links between what he was and what he had been he concatenated thus:
