\$100 Reward.

RAN away from the Subscriber, from his residence, on South Edisto, Willow Swamp, Orangeburg District, S. C., on Monday night, 23d Oct., a Negro man named HOWARD. Said Negro is well proportioned, about 6 feet high, and of black complexon-high forehead, a somewhat prominent nose, full face, and no whiskers; he has a scar on the inner ankle of (I presume) the left foo, produced by a burn, and on one of his arms a mark resembling a letter S. Howard speaks with plausibility and ease; is rather assuming in his address, yet mild and humble in his manners. He is a koon, shrewd fellow—walks erect and fast, and is apt to bear uncommonly on his toes when hurried. According to his own account, he originally belonged to Joshua Lee, a planter near Clinton, Va., to which place it is supposed he will direct his course, or to Norfolk or Richmond. He had on when he went away, blue pantaloons and coat, either a blue or yellow vest, and a black hat. He took away with him a pair of saddle-bags, and is supposed to have a free ticket.

To any person who will lodge said Negro in jail, so that I get him, if it be in this State, I will pay a reward of fifty dollars, and all reasonable expenses; if in North Carolina, seventy-five dollars and expenses; if in Virginia or Maryland, one hundred dol-WM. RILEY. ars and expenses.

The Cheraw Gazette, Fayetteville Gazette, Raleigh Register-Richmond Whig, and National Intelligencer will please publish the above once a week for five weeks, and forward their accounts to the subscriber at Orangeburg C.H., S. C. W. R.

DR. MULLER respectfully offers his professional services to the inhabitants of Sandy Run and surrounding country. He has located himself, for the present year, at Mrs. Nancy GEIGER'S, on the State Road.

Drugs, Medicines, &c. &c.

N consequence of the increased and still increasing labors of the Subscriber's business, and the conviction, forced upon him, that his strength and health are unequal to it, he has been induced to associate Mr. F. W. GREEN, of this town, in business with him, with a view to his assistance.

In announcing this arrangement, the Subscriber cannot be so unmindful of his duty to this community, (of whose coafidence he has so largely participated, and for which he cannot feel too grateful,) not to assure them, that his own undivided personal attention, will continue to be, as heretofore, closely devoted to the business-and that by express stipulation, no article is to be brought into the Store, that does not undergo his strictest scrutiny, and meet his ap-probation. The business will be conducted in his own name and at the same stand.

In fulfilment of these promises, he can only offer his past conduct, as a guarantee :- and in again soliciting a continuance of former patronage, trusts that his friends will have no cause of complaint.

R. S. BEARNARD'S

Gholera Remedy for Cholera Morbus. CHOLERA, Summer Complaints, of children &c may soon be expected, and the following medi cine is a sure and safe cure. No family ought to be without one bottle at least, when it is notorious thousands of children die annually in this State with that obstinate complaint. Diseases of the bowels frequently effect grown persons as well as children and no instance has yet been known where this medicine has been used where it has failed. It is therefore confidently recommended to every one

READ AND BELIEVE. This remedy has been used by many eminent hysicians, some of whom have charge of the largest lespitals in the United States, where the Cholera has prevailed to a great extent, and been fatal to the intemperate, aged and lunatic persons. Their confidence in this medicine is such, that they say they are not afraid of the most inveterate cases of Asistic Cholera, when taken in time.

The following are only a small proportion of the certificates I have of the efficiency of this certain remedy for the Cholera. Those opposed to quackery will at once see that this is nothing of the kind, for those who have subscribed their names to these certificates, live among us, and are known to be men of the first standing, and upon whose word the utmost reliance can be placed.

Directions .- Take a table spoonful of the mixture with the same quantity of water, every hour or half hour, as occasion may require, until vomiting, purging and pains have ceased. In common, ordinary cases of diarhosa, a table speonful of the mixture may be taken three or four times a day, and repeated at night on going to bed. This medicine has been administered to children afflicted with diarhea, o cholera morbus, cholera infantum and summer com laints, with complete success. In no case has ailed to cure the most inveterate attack: The best mode of administering it to children, is, to take tea spoonful of the mixture and mix it with the same uantity of water, giving it as above directedttle sugar may be added to make it more palatable

Kr Keep the bottle well corked. When the cholera was raging here to a great ex-cent, the Rev. Dr. John French, had occasion to use his preparation twice in his own family, and has given the following certificate of its efficacy: "On Thursday my little son came home from

chool, making great complaint of sick stomach and pain in the bowels. He looked to be quite sick. mmediately gave hlm a dose of this medicine; he was presently relieved, and has not complained

"On Friday, while absent from home, a white girl ving at my house, was taken with nausea and painl n the Lowels. My wife gave her a dose of this medicine, and to use her own words, it acted like a charm. She was well before I returned to the house, and has remained so ever since.

Norfolk, Sept. 6th, 1832. This certificate, which adds no little weight to the value and importance of my medicine, is given by the Rev. Arthur Cooper, Inspector of our Borough. and I have no doubt his name will be recognized by every individual in this section of the country. He presents it cheerfully, believing it to cause many to possess what he considers to be the most valuable of all medicines. I am sure it will convince those who have an abhorrence to patent medicines, that this is no quackery. Only read this.

NORFOLK, July 17, 1835. Mr. R S Bernard-Sir, I am greatly opposed to anything like quackery, but when I reflect upon the good your invaluable remedy has done, and might ontique to do, if made generally known, I am wil ing to throw aside any thing like prejudice, and freely ive my opinion upon your medicine. In my situaion of life, it frequently happens that diseases of every kind come under my observation-but the major part of them seem to be, at this season of the year, premonitory symptoms of Cholera-many of which, I have no doubt, prove fatal for want of such preparation as yours. Now, sir, the remedy for Cholera (as you call it) is the very thing that is want ing to stay the progress of this distressing diseaseed This I speak from experience. I have not only usist repeatedly in my own family, but have administered it to many others, and I can with truth say its effects have surpassed my mest sanguine expecta tions. In several cases where the bowels were in most deranged state, other remedies had been administered, until really the patient was in great danger of dying, and from simply giving a dose or two of your remedy for cholcra as described, immediate renet was found. In one instance I used it upon a servant, a member of my family, that was laboring under a dreadful bowel complaint, spasms and vomittook them prisoners. They proved to be Introduced to be Intr ing-for some time my wife and self had serious apprehensions that she would die-but after giving one lose of your remedy for cholera, the vomiting ceased the pains gradually disappeared, and the next day she entirely recovered. I have also used this medicine with children troubled with bowel and summer complaint, and in no case has it failed to cure them. Most willingly do I recommend it to my acquaintances, and hope all prudent persons will avail them-

selves of so valuable a medicine.

ARTHUR COOPER. This invaluable medicine is for sale only by A. FITCH, Columbia.

From the Providence [R. I.] Patriot. THE SUM OF LIFE. Searcher of gold, whose days and nights All waste away in anxious care. Estranged from all of life's delights, Unlearn'd in all that is most fair,

Who sailest not with easy glide, But delvest in the depths of tide, And strugglest in the foam, O come and view this land of graves, Death's northern sea of frozen waves,

And mark thee out thy home.

Lover of woman, whose sad heart Wastes like a fountain in the sun, Clings most where most its pain does start, Dies by the light it lives upon-Come to the land of graves-for here Are beauty's smile and beauty's tear, Gather'd in holy trust.

Here slumber forms as fair as those Whose cheek, now living, shames the rose-Their glory turn'd to dust. Lover of fame, whose foolish thought Steals onward from the wave of Time. Tell me-what goodness hath it brought,

Atoning for that restless crime?

The spirit-mansion desolate,

And open to the storms of fate ; The absent soul in fear; Bring home thy thoughts, and come with me, And see where all thy pride must be-Searcher of fame-look here!

And warrior-thou with snowy plume, That goest to the bugle's call, Come and look down-this lonely tomb Shall hold thee and thy glories all-The haughty brow, the manly frame, The daring deeds, the sounding fame, Are trophies but for death; And millions who have toil'd like thee Are stay'd, and here they sleep. And see-Does glory lend them breath?

AN IRON HORSE.-A mechanic named David Ritter, of New-Haven, has invented an Iron Horse, that is propelled by springs, by turning of a crank, which the rider does with the greatest ease. The horse is a fac simile of a live one, and will go at the rate of twenty miles an hour. He thinks there will be no use for rail-roads, as it will be much cheaper, as the horse will not eat one bushel of oats in fifty years, only a little oiling three or four times a year.

One of the latest instances of absence of mind is that of a man who on turning down the bed clothes at night to creep in, placed his candle in the bed and blew himself out.

(III.) Argus. THE DISAPPOINTED ANGLERS,

AN INDIAN TALE. In a winding of the river Armidar, just before it falls into the Caspian Sea, lies an island unfrequented by the inhabitants of the Continent. In this seclusion, blessed with all that wild, uncultivated nature could bestow, lived a princess and her two daughters. She had been wrecked upon the coast while her children as yet were infants, who, consequently, though grown up, were entired unacquainted with man. Yet, inexperience The Cotton Market at Liverpool was without change.

In France the elections had terminated decidedly in favor of the Ministry. Their majority in the Chambers would be fully equal to the former House. M. Lafitte had failed in his election in Paris and Rouen.

In Spain the Queen's cause seems to be only processor to the Merklin. The execution took of Dorothea Merklin the Dorothea Merklin the Dorothea Merk place at 10 o'clock in the morning, and in an tain.
