"From an immense number of testimonials from the regular faculty, touching the virtues of the Cor-dial, I have in particular selected the following, which may he of use to you. You will also find a umber of others of less importance inclosed. This mmediate certificate is from a body of eight of the blest medical practitioners in France. To Dr. Magnin, Inventor of the Lucina Cordini, on Elizir of Love.

Elixir of Love. "Respected and Honored Sir.—We have all, in a variety of cases, tested the remarkable effects of your great discovery, and have assembled for the purpose of bearing evidence to the facts, and tender-ing you the honor which is your due. The Lucina Government is nour opinion, an infallible remedy for the prostation of the Procreant Functions, and Artificial

renness: and therefore must prove a blessing to the human race. We can also bear evidence that there is nothing in it of a mercurial or deleterious na-ture ; and in short, that it is one of the noblest medicinal dist overies of any age. "With feelings of admiration and respect, we re-

to Dr. Magnin. "I am now on the wrong side of eighty, and yet 1 could be on my honor, or oath if necessary, that a bottle or two of your Cordial of Love has male me feel as vigorous as a boy of five-and twenty. I think you have discovered the "Elixir of - Life," which the alchymists have been so long in quest of; and that (pardon my officiousness) you should have

named it accordingly. 14 From the eminent Dr. Devigney, of Brussels. October 3, 1837.

To Dr. Magnin,-My dear Friend:-I am most ratified at the unprecedented popularity of your Encime Cordial, and am able to bear testimony to its surprising virtue. I had a patient recently, I______ M_____, a gentleman of fortune, who had for several - a gentleman of fortune, who had for several years abandoned himself in the vortex of dissipation' and was only reclaimed from it at length by the utter prostration of all his vitile energies. He was, indeed, reduced to the last extremity of debility and inside the streem of the debility and the streem of the streem ness, for, if an occasional flash of excitement warmed his system, the reaction was almost immediare, and the result perfect prostration. I had ap-plied all theusual nostrums in such cases; but, as I the "Lucioia Cordial" advertised, I must confess that even the great weight of your name did not give me much hope in it, at least so far as regarded the case in hand. I feb soun i to try it, however, and was soon satisfied of its efficacy ; for before a bottle was expended, my patient gave evidence of the re-turning elasticity of his system; and he is now, hav-ing used four bottles, as well as ever. The number of documents, such as the above

which have been received by Mr. Magnin since the first appearance of "Le Cordial de Lucine," would fill a volume as large as the Bible.

This wonderives and astonishing medicine is for Morus Haken wie at No. 70 Chesnut street, Philadelphia; and by Dr. A. Fitch, Columbia, S. C. Price \$3 per bottle. After the 2 12m. Mag 25.

After the 20th of June, I shall go North for a market, which if obtained, it is not improbable that the same articles may be re-shipped by the purchaser for a Southern market, with a fuir one hundred per cent. on their backs ; when, of course, they will (as coming from a distance) be most gratefully received and paid for ; and that too, after being exposed to drying, sensoning, sea, and sea-water, for some months.

Even at the same price, how much more are Southern cuttings worth, when they can be planted 24, 48, or 72 hours after being severed from the tree, to cuttings of partially seasoned wood?

In fact, at this very time, agencies are about to be stablished at the South by Northern sellers. In order that the difference in point of vigor, rowth, &c., and indeed the immense superiority of
