### COLLEGE COMMENCEMENT,

On Monday last, went off with an colat very gratifying to the friends of this noble institution. It was attended by a concourse of the intelligent, the distinguished, and the beautiful, from all parts of the State. The literery performances of the young gentlemen were very creditable to them, and the address of the President exceedingly impressive, admirably suited to make a most lasting and beneficial impression on his vouthful auditory. The order of proceeding was as follows.

The procession was formed in front of the State House, under the direction of Adjutant General JAMES JONES, Marshal of the day, and there joined by the Members of the House of Representatives. with their Speaker at the head, the Senate and President, and moved to the College Chapel in the following order:

The Tutors, Professors of the Institution. Students of the Freshman Class, Sophomore Class. Junior Class, Graduating Class, Former Graduates of Citizens generally, Officers and Students of the Theological Seminary. The Reverend Clergy, Officers of the State, Civil and Military, House of Representatives, with the Speaker, attended by its officers, Senate, with the President, attended by its officers, and President of the College When the procession arrived at the College Chapel, it opened to the right and left, and formed two lines tronting each other, hetween which, the rear marched forward into the Chapel, the lines joining as the rear advanced, and entering in inverted order:

The president informed the Convention that he had received from Mr. R. E. Russell, proprietor of the Botanic Garden in Columbia, with a request that he would present them to the Society, a Loaf of Beet Sugar from France, and several beautiful specimens of native silk, which were laid before the convention-

F. D. Quash Esq. moved, Theuche convention return their thanks to Mr. R. E. Russell for the specimens of sugar and silk presented by him-and also to Mr. J. Breck of Boston for the Pamphlets on Agriculture presented by him.

The President requested ... know what disposition he should make of the specimens before him, whereupon it was moved by Mr.

That they be presented to the Secretary, which was unanimously agreed to. W. GILMORE SIMMS, Esq. introduced the following Resolutions, with a request that

they should be laid on the table; which was agreed to.

Resolved, That no people can be capab' of self-government, who require to b-de ceived, as to the amount of their overnment expenses; and that no man m be held a freeman, who does not look ne cost of his

liberties ip the face. Respired, Therefore that Direct Taxation, while it saves the citizens from the constant impositions of the cupaing, is the only honest, cheap, safe medum for raising supplies, in a country such as ours.

Resolved, 'That it is a fraud upon the public, wherever a Bank, or other chartered corportion, declares a dividend upon borrowed money, or upon any basis, other than 31,414 66 its oear receipts, and good faith profits.

Resolved, That if it be not an usurpation, it is at least an abuse of power, on the part of the Legislature, to tax the citizen, for any but the unquestionable exigencies and expenses of the country, and that most allianone between the State and any one class. of its citizens, in trade or speculation, result infavorably to that wholesome competition of other plasses of the community from which the people derive many of their chief securi-

On motion, of Hon. J. P. RICHARDSON, the Convention adjourned to meet at .6 o'check to-morrow evening.

Mr. Editor-I was pleased to see it lately mentioned that it is proposed to put in nomination, Gen. THOS. F. Jones, for the Presidency of the Rail Road, and would feel highly gratified if he should accede to it. It would certainly conduce much to the | interests of that great work, to have a real for a term of years upon reasonable condipractical business man at the head of it .--One who would entirely and exclusively devote himself, to the arduous duties of the office; who would combine clear sound judgment with firmness and energy; and who would, with labour and persevering industry, carefully and cautiously examine into details. Such precisely, are the distinguishing characteristics of Gen. Jones; not hypothetical, merely; but faitly tested and shewn in several successive works of a public nature, which have happened to fall under his charge, as well as in the general scope of his own business. His penetration and good judgment, which are generally known, are not superior if equal, to the patient and per
