THE ADMISSION OF VIRGINIA.

The following is the bill for the admission of Virginia which passed the the House on Wednesday last by a strict party vote. The bill was passed as it came from the Senate:

AN ACT to admit the State of Virginia to representation in the Congress of the United States.

Whereas, The people of Virginia have framed and adopted a Constitution of State Government which is republican; and whereas, the Legislature of Virginia, elected under said Constitution, have ratified the Fourteenth and Fifteenth Amendments to the Constitution of the United States; and whereas, the performance of these several acts in good faith was a condition precedent to the representation of the State in Congress; therefore,

Be it enacted, &c., That the said State of Virginia is entitled to representation in the Congress of the United States: Provided, That before any member of the Legislature of said State shall take or resume his seat, or any officer of said State shall enter upon the duties of his office, he shall take and subscribe and file in the office of the Secretary of State of Virginia for permanent preservation, an oath in the form following:

"I,——, do solemnly swear that I have never taken an oath as a member of Congress or as an officer of the United States, or as a Executive or Judicial officer of any State, to support the Constitution of the United States, and afterwards engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof, so help me God."

Or such person shall in like manner take, subscribe and file the following oath:

"I,——, do solemnly swear that I have, by act of Congress of the United States, been relieved from the disabilities imposed upon me by the fourteenth Amendment of the Constitution of the United States, so help me God." Which oath shall be taken before and certified by an officer lawfully authorized to administer oaths. And any person who shall knowingly swear falsely in taking either of such oaths shall be deemed guilty of pergiry, and shall be punished therefor by imprisonment not less than ten years, and shall be fined not less than one thousand dollars, nor more than ten thousand dollars. And in all trials for any violation of this act the certificate of the taking of either of said oaths, with proof of the signature of party accused, shall be taken and held as conclusive evidence that such oath was lawfully and regularly administered by competent authority.

And provided, further, That every such person who shall neglect for the period of thirty days next after the passage of this act to take, subscribe and file such oath as aforesaid, shall be deemed and taken to all intents and purposes to have vacated his office.

And provided, further, That the State of Virginia is admitted to representation in Congress upon the following fundmental conditions:

That the Constitution of Virginia shall never be so amended or changed as to deprive any citizen or class of citizens of the United States of the right to vote who are entitled to vote by the Constitution herein recognized except as a punishment for such crime as are now felonies at common law, whereof they shall have been duly convicted under laws equally applicable to all the inhabitants of said State provided that any alteration of said Constitution prospective in its effects may be made in regard to the time and place of residence of voters.

That it shall never be lawful for the said State to deprive any citizen of the United States, on account of race, color or previons condition of servitude, of the right to hold office under the Constitution and laws of said State, or upon any such ground, to require of him any other qualification for office than such as required of all other citizens.

That the Constitution of Virginia shall never be so amended or changed as to deprive any citizen or class of citizens of the United States of the school rights and privileges secured by the Constitution of said State.

The most objectionable features of the bill are the conditions which are contained in the Senate's amendments and which prohibit the State from amending its own constitution with regard to suffrage and the right of holding office. Mr. Thurman and other leading Democrats of the Senate denied very justly the right of Congress to make such a condition precedent to the admission of any State. It could only be done through a Constitutional Amendment by which some of the reserved rights of the States still left might be taken from them. Only in this way could the Constitution be made to recognize such an exercise of power. But what cares the Republican party for Constitutional restrictions when they oppose the accomplishment of their purposes. They not only set up to but boldly avow the principle of the omnipotence of Congress, and regard the checks and balances of the Constitution as the relics of an effete civilization—the quintessence of old fogyism.

Virginia, under the circumstances, seems to have obtained the best possible terms, and the passage of the bill seems to have awakened much enthusiasm among her people. She is rapidly getting rid of her black population; and soon the conditions of the Senate amendments will be entirely inoperative, from the fact that the race, whose rights they are designed to protect will have passed beyond her limits. A brilliant future is no doubt before her, in spite of Congress.

THE WANDO FERTILIZER.—We would call the attention of our readers to the advertisement of this pioneer of South Carolina, phosphatic manures, which appears in this paper. The names of the President and Directors of the company that manufacture it are well known to the planters of this State, and a sufficient guarantee that the Wando Fertilizer is in every respect what they represent it to be. The agents at this place, Messrs. Westfield & DuPre, will be happy to supply those interested in the subject with pamphlets setting forth at length the history and merits of the Wando.

RHODES STANDARD MANURES.—These fertilizers have been before the public for so many years that their merits are generally well known but the experience of the manufacture and his immense facilities enable him to make improvements continually. As will be seen by an advertisement elsewhere circulars with full particulars in regard to all the fertilizers known as Rhodes' Standard manures can be obtained from the general agents, Messrs. B. S. Rhett & Son, of Charleston, or of the agents at this place.

SOUTHERN DAILY GUARDIAN.—We have received the first number of the new series of this journal published by Wm. H. McCaw & Co., at Columbia, S. C., and edited by Charles P. Pelham, and Wm. H. McCaw, Assistant. It is neatly printed, and presents a varied and attractive miscellany. The past prestige of the *Guardian* is a guarantee of what its future will be. Mr. Pelham is a writer of abillity and Mr McCaw is a young man of fine talents. We predict for the journal a brilliant future, and extend to it our very best wishes.

☞ By reference to an advertisement in another column, it will be seen that Mr. A. M. Hill, has opened a Grocery and Commission House at the old stand of Mr. Thomas Eakin on the Public Square. Mr. Hill will keep at all times a well selected stock of goods in his line and, hopes by attention to business, to make it to the interest of the people to favor him with their patronage. He guarrantees his best efforts to give satisfaction both in the price and quality of his goods, and hopes to merit a continuance of the patronage bestowed upon the old House. We commend him to our friends.

☞ By reference to the advertisement in another column it will be seen that our former townsman Mr. G. Houser has opened a cigar Manufactury at Newberry C. H. Mr. Houser would be glad to receive the patronage of our people, and his skill and experience, afford a guarantee of his abilitp to furnish the very best articles in his line.

☞ See the advertisement of Messrs. Miller & Robertson, the agents of the Carolina Fertilizer, who are now offering valuable premiums for the largest increased production upon five acres, with the use of this valuable Fertilizer. Who of our friends will not enter the lists? Here is an opportuniay of being paid twice over for the cost of fertilizers. They are also the agents for other valuable fertilizers, for which see their advertisement.

☞ Messrs. Quarles, Perrin & Co., are offering a choice lot of shawls, cloaks, and dress goods, at cost—a fine lot of clothing at reduced rates, extra sized suits at prime cost. To the planters of the District they will make liberal advances on cotton, and will deliver corn at invoice prices with the freight added.

☞ We learn that our townsman, General McGowan, has purchased the fine residence, lately sold by Mrs. James M. Perrin, to Joel S. Perrin. The price paid was nine thousand dollars. It one of the finest residences in the village. By reference to advertisement it will be seen that General McGowan is offering for sale his beautiful residence on Magazine Hill.

☞ Messrs. H. W. Lawson, advertise 300 bushels of Dickson's Pure Cotton Seed. The seed was raised on the plantation of Mr. M. O. McCaslan of this District, and will be warranted of the best quality.

☞ The fine imposed by Judge Vernon, upon James N. King of Ninety-Six, for assault and battery should have been printed $20 instead of $30.

☞ In our list of the Jurors published last week we inadvertently gave the name of Mr. Edwin Wilson as colored.

☞ See advertisement of Mr. G. P. Pettigrew, offering for sale a valuable tract of land in the vicinity of Downdesville.

☞ See notice of the settlement of the Estate of Andrew Gillespie, dec'd on Monday the 20th inst.

☞ See notice to Debtors by Thos. Eakin.

☞ See notice of fresh arrivals at Parker & Lee's.

The Southern people are watching with intense interest the cotton tax case pending before the Supreme Court of the United States in Memphis. They argue that if cotton can be thus taxed, while the products of other States are not subject to taxation, the cotton States are virtually outside the pale of constitutional equality, and their products in constant peril of confiscation, involving ruin to the producer. The decision will have an important bearing on the next planting.

WANTED.

One Hundred Dollars,

IN

SILVER COIN,

FOR which the market price will be paid, Enquire of JAS. W. FOWLER at the

EMPORIUM OF FASHION.

ABBEVILLE LAND

FOR

SALE.

THE subscriber offers for sale his very desirable tract of land in Abbeville County, three miles West of Lowndesville, lying on Ross Creek, and bounded by lands A. Y. Bowman, J. W. Brown, and R. Sadler. The tract contains two hundred and eighty-three acres more or less, of which about forty-acres are creek and branch bottom land; about sixty-five acres are in woods well timbered; and the remainder is good arable land. The terms will be made reasonable. For further particulars, address the subscriber at Lowndesville, Abbeville County, S. C.

G. P. PETTIGREW.

ETIWAN GUANOS,

SULUBLE MANURES, AND SULPHURIC ACID,

MANUFACTURED AT CHARLESTON,

UNDER the direction of Dr. N. A. Pratt, chemist for the Sulphuric and Super-Phosphate Company

Soluble Phosphoric Acid in the form of Soluble Phosphate of Lime, or Dissolved Bone Phosphate, is the basis of all good Fertilizers, and these are valuable in the ratio of Soluble Phosphoric Acid which is in them.

The immense deposits of Phosphatic Guanos which was discovered in 1867 in South Carolina by Dr Pratt, consists mainly of Insoluble Phosphate of Lime, which is made available as a Fertilizer by being ground to powder, and reduced to Sulphuric Acid to such a condition as to make its in-soluble phosphate soluble in water, and thus made capable of being taken up by growing plants. The insoluble Phosphate found in any commercial Fertilizer is of no more value to the plant than the original Phosphate rock. The greater the proportion of this Soluble Phosphate which any Fertizer contains, the less the quantity required per acre, and consequently the cheapest Fertilizer is that containing the highest percentage of Soluble Phosphate.

Impressed with these truths, the Sulphuric Acid and Super-Phosphate Company have erected at Charleston the first extensive Acid Chambers South of Baltimore, and are able to offer to planters the highest per centage of Soluble Phosphate of Lime known in any market.

Their Fertilizers are offered under two forms:

1. ETIWAN, No. 1.—Pure So luble Phosphate, guaranteed to contain 34 per c ent, of Dissolved Bone Phosphate of Lime, $90 per ton, 10 per cent, discount for cash.

2. ETIWAN, No. 2.—Peruvian Super Phosphate, guaranteed to contain 20 per cent, of Dissolved Bone Phosphate, and 1½ to 3 per cent. of Ammonia, with a sufficient addition of Peruvian Guano to adapt it to all Crops, $70 per ton, 10 per cent. discount for cash.

We also offer Di-solved Bone, of high grade, for planters or manufacturers, who may desire to mix into any other compost, and we suggest that this is the best and cheap st method for manufacturers to transport the Sulphuric Acid contained in the mixture. Will be sold at low rate for cash per centage.

PROMPTNESS

IN FULFILLING

PAST OBLIGATIONS,

THE BEST

RECOMMENDATION

FOR FUTURE CREDIT.

WE WOULD respectfully inform such of our customers as are in arrears to us for goods sold them last year, that the time has come when we expect all, without any exception, to pay up.

We are compelled to have money during this month. We have waited on our customers long and patiently, and we know it is only necessary to assure them of our need of money, to induce them to pay up. Cotton is bringing a good price now, and there is no reason or justice in keeping a merchant out of his money longer, when the debtor has the means of paying at his command.

Come forward gentlemen, settle up old scores and put us in a condition for indulging you during the year upon which we have just entered.

WHITE BROTHERS.

Jan. 7, 1870, 37—tf

Notice

TO PLANTERS.

WE have made arrangements for shipping Cotton, by which we will advance liberally on all Cottons put into our hands for shipment, and charge only Seven per cent Interest on the money advanced. We will have the Cotton held at the discretion of the owner. Planters who are not satisfied to sell their Cotton at present prices, and yet need money to meet their engagements with Merchants, can ship their Cotton through us, draw sufficient funds for meeting present demands, and take the risk of realizing better prices, by holding as long as they desire. The Commission Merchants to whom we ship are second to none in point of responsibility, prudence and business capacity.

White Brothers.

The following is an extract from a letter received from our Factors in New York, in reply to inquiry made in regard to expenses of holding cotton.

"The expenses of storing cotton in New York is 25 cents a bale per month. The insurance is 15 cents on $100 for one month, 22 cents for 2 months, 30 cents for 3 month, 37 cents for 4 months and 45 cents for 5 months."

WHITE BROTHERS.
