NO DEAD AND SCORES INJURED

VIOLENT STORM WHICH STRIKES NEW YORK TAKING BIG TOLL OF LIFE AND PROPERTY—HITS FARRIS WHEEL KILLING SIX PEOPLE

New York, June 11.—A violent storm accompanied by shifting winds that reached a velocity of 88 miles an hour took the lives of more than 50 persons, injured more than a hundred and caused enormous property damage in the metropolitan section late today.

Forty persons were reported to have lost their lives while boating in Long Island Sound, and many persons were killed by falling trees, lightning and accidents caused by the wind. Ten bodies of the drowned have been recovered, and the waters about New York are being searched tonight for 30 missing.

The storm came at the close of one of the most torrid days of the season. The wind coming gently from the south and southwest shifted suddenly into the northwest and increased in velocity to 88 miles and sweeping through New Jersey, Westchester county, to the City Island, the Bronx and Manhattan, left death and destruction in its wake. Torrential rains, then lightning, followed the wind.

Hundreds of thousands of New Yorkers were on the beaches and at various outlying resorts seeking relief from the heat, when the storm broke and it was from these that the storm took its death toll.

Twenty thousand holiday makers went to City Island today and half went on the waters of Pelham Bay. It was jammed with boats of every description when the storm hit it. Few had an opportunity to get ashore. The known casualties occurred off Execution Light, which is about six miles east of City Island; Rat Island, about three miles east, and another island nearby.

The fury of the electrical storm that swept New York late today destroying property and life, broke suddenly over a little amusement park at Clason's point, the Bronx, dashed into a Ferris wheel crowded with young people, crushed it to the ground and passed on leaving more than forty injured.

Shrieks of mirth broke from the steel cars of the wheel as it carried its cargo of youth high up into the breezes. Then the storm and maddened cries of fear and agony as the upper half broke away and was catapulted by the winds into the shallow waters of Long Island Sound. The lower half buckled and fell in a twisted mass of steel, wooden girders and human bodies. The hundreds of men, women and children in the resort were thrown into a panic. Amid the lightning flashes, the thunder's roar and the rain torrents, women fainted, and men fought and children were brushed aside in frantic efforts to reach shelter and to lose sight of the ghastly pile that so shortly before had been a wheel of merriment.

THREE SMITHS.

Rebecca, Blanding and Meta Smith had their tonsils removed this morning at the Memorial hospital. To operate the same morning on three members out of one family is a very good record. The parents, Mr. and Mrs. J. Allen Smith, Jr., as well as the three patients, are feeling much better after the operations.

A NEW COLONEL

There is a new colonel in the city. He is no newspaper colonel either, but a genuine colonel who wears a uniform. The new colonel is Col. C. D. Brown and he owes the honor to Governor Harvey, being named as a member of the Governor's staff.

TROUBLED TIMES FOR PARLIAMENT

COLLINS SEES DIFFICULTIES AHEAD IN IRELAND—COUNTRY NOT SO WELL PROVIDED WITH FUNDS AS WAS CASE YEAR AGO

Dublin, June 10.—A meeting was held at Mansion House this evening in support of the panel candidates for parliament chosen by the Free Staters and the Republicans. Eamon de Valera presided.

Michael Collins in a speech said he could foresee for the new parliament great possible difficulties. Ireland had passed from the stage of violent revolution, to a stage of lesser revolution, but was not out of the revolutionary stage. The country now was a great deal poorer than it was a year ago.

"We are faced by a situation," Mr. Collins continued "in which inertia is coming into the national life and productivity is reduced. I received today a report from the inspector of taxes stating that the collection of revenues was extremely unsatisfactory, the main cause being a lack of any effective means for enforcing payment.

"This is no time," Mr. Collins added, "to take on war with North-east Ireland and with the British empire, too. We have seen the artificial situation created on the Formanagh-Donegal border in the last days and the British troops called to aid the Northern government. British troops entered the Donegal area for a certain distance, and it only needs that sort of an advance to bring war into all the rest of Ireland.

"Such a situation can be averted. The difficulty in the northeast is not on the border but in Belfast. We must meet the trouble at its seat and not give others the advantage of meeting trouble where there should be none. Otherwise the whole of Ireland will be overrun and an artificial trench made around the six counties. The Northern leaders are planning for this, and if we do not act wisely the trench will make partition permanent."

DR. J. L. MARTIN DIES SUDDENLY

Saturday Afternoon at His Home On Wardlaw Street.—Funeral Held Sunday Afternoon

Rev. Jas. L. Martin, D. D., died suddenly Saturday afternoon, June 10, 1922 about 4 o'clock. He had been feeling as well as usual and was reading a newspaper on the front porch of his home shortly before his death and the announcement that he was dead brought a shock and sorrow to all. He has been the object of special interest lately because of the sudden death of his beloved wife about two months ago, and the departure last week of his only daughter, Nora, now Mrs. Parker Wright, for her home in Pasadena, California. Since then he has been cared for by his faithful servant "Bob" and many loving friends.

Dr. Martin was 83 years old, and was born in Fairfield County, where he was a practicing physician for several years before attending the Columbia Theological Seminary from which he graduated in 1870, becoming pastor of the Abbeville Presbyterian church in that year. He served as pastor here for fourteen years. Since 1884 he has served churches in Tennessee, Texas, and Missouri. His last charge being the Presbyterian church at Waynesboro, Ga.

Dr. Martin married Miss Hettie Stitt of Fairfield county and to this union was born two children, one son who preceded his mother and

SENATE IGNORES TRADE OF FUTURE

TARIFF RATES APPROVED WITH RECKLESS ABANDON—SENATORS SIMMONS OF NORTH CAROLINA AND JONES OF NEW MEXICO SPEAK.

Washington, June 11.—Assertions that many of the rates proposed in the tariff bill would prohibit imports of affected commodities from every country except Germany were made and reiterated today in the senate by Democratic opponents of the measure during debate on duties on razors, gold leaf and other articles. Rates on razors ranging up to an equivalent of approximately 400 per cent. ad valorem were approved.

Senator Simmons, Democratic leader in the tariff fight, said "the idea permeates the whole bill that we must put in rates to keep out German products without any consideration they will have on our trade with other countries."

Arguing that if the situation as to Germany was such as proponents of the tariff bill claimed, Senator Jones (Democrat) of New Mexico said the condition there resulting from a greatly depreciated currency could not be taken care of by general tariff rates. He added that many of the duties proposed by the finance committee majority would prove to be "an embargo against England and the other countries."

"Congress is following a will of wisp with this tariff bill," he said.

As to razors, Senator McCumber (Republican) of North Dakota, in charge of the bill, said the rates should be high enough to shut out certain grades coming from Germany and used, he said, as premiums by many American stores. He asserted that these razors not only could not be used for shaving, but would "not even cut a corn."

Aside from the rates on razors, the senate approved, over minority protest, duties of 60 cents a hundred sheets on gold leaf; 30 per cent. ad valorem on nickel silver sheets, strips rods and wire; 7 1-2 per cent. ad valorem on bismuth; six cents a pound on cadmium.

Just before the senate recessed after a five hour session, Senator McCumber gave notice that a return to night sessions would be necessary unless the senate applied itself more closely on the tariff.

LIQUOR SEIZED ON NAVAL VESSEL

INFORMATION REACHES ADMIRAL AT NORFOLK OF STRONG SMELL OF WHISKEY FROM CARGO—GUARDS FIND ONE THOUSAND QUARTS

Norfolk, Va., June 11.—Approximately 1,000 quarts of liquor valued at \$10,000 were seized by marine guards of the navy yard today in a raid on the naval transport Sirius, under orders of Rear Admiral Philip Andrews, commandant of the Norfolk navy yard. Officers and men of the ship are confined to their ship under guard.

The Sirius is commanded by Commander W. J. Kelton, U. S. N. R. F. and Ensign Harry C. Mechtold, paymaster in charge of cargo aboard the Sirius. Both Commander Kelton and Ensign Mechtold were among those confined to the ship at the time of the raid, but Admiral Andrews announced tonight that they, with some other officers and men, had been permitted to leave the vessel.

Both Admiral Andrews and Admiral Rodman, commandant of the Fifth naval district, announced that a searching investigation would be made under the direction of Admiral Andrews.

Information came to Admiral Andrews that a strong smell of whiskey was evident in cargo being unloaded from the Sirius on to barges alongside for shipment to the naval supply station at the naval base. Waiting until the barge had been loaded, Admiral Andrews ordered a search of the contents of the shipment and then had the ship thoroughly searched by the marine guards.

Guards were placed on board the transport and alongside the vessel.

The Sirius returned to Hampton Roads about a week ago from the West Indies and has been at the navy yard since. The whiskey, according to information received from Admiral Andrews, was put aboard the vessel as cargo at one of the West Indian ports.

The commanding officer of the Sirius, according to Admiral Andrews, was detached from the vessel today and ordered to the receiving barracks at the naval base.

A board of investigation has been convened.

LITTLE INTEREST IN STATE POLITICS

FIVE HAVE QUALIFIED TO RUN FOR GOVERNOR—SOME EXCITEMENT IN SIXTH DISTRICT IF NOWHERE ELSE—SEVERAL INCUMBENTS UNOPPOSED.

Columbia, June 11.—With only one more week in which to enter the various races for state and federal offices in the Democratic primary this summer, no apparent enthusiasm has yet been aroused in the political situation in South Carolina. The entry books close at noon on June 19.

Five candidates have qualified to make the race for governor. Several congressmen are so far unopposed as are several state officers to date.

The Sixth congressional district looks to be the prize ring this summer as far as races for the house of representatives are concerned. Three candidates are already in the field against Philip H. Stoll, incumbent.

Another place that is attracting a few candidates is the office of state superintendent of education. Three men have qualified to make this race and several more are being mentioned.

Those who have qualified to date are:

SENATE GIVES UP NIGHT SESSIONS

IDEA OF EXTRA WORK ABANDONED FOR TIME—MINORITY TWICE ENGAGE IN MORE OR LESS VIOLENT EXCHANGES

Washington, June 10.—The senate abandoned tonight temporarily, at least, its night sessions for consideration of the tariff bill.

Committee amendments disposed of today had to do with duties on table, butcher and other knives and scissors and shears. Before the senate got down to the amendments there was a lively row between Senators Simmons and Gooding, chairman of the Republican agricultural tariff bloc about the duties on agricultural products.

Senator Simmons charged and Senator Gooding denied that there had been an agreement by which agricultural products were given protection in the return for the support of the friends of agriculture for high duties on manufactured products. Exchanges between the senators became heated, the Idaho senator declaring that it was "not true" that members of the bloc had entered into any agreement and Senator Simmons retorting that a "denial does not prove anything."

Later in the day there was another controversy between the majority and minority when Senator Harrison (Democrat) of Mississippi sought to have the senate reconsider its vote removing cash registers from the free list. Asserting that Fred B. Patterson, president of the National Cash Register company, was in Washington when the senate was voting attending a meeting called by the Republican national committee "for the purpose of obtaining campaign funds." Senator Harrison declared "the people can place their own interpretation on his presence here.

He added that "the record of the Republican party is one of granting special privileges to special interests."
