

Beaufort County Republican

THURSDAY, NOVEMBER 9, 1871.

MISCELLANEOUS ITEMS.

Next to nothing—1 to 10.

Permanent headquarters—the shoulders.

An Indiana religious sect call themselves the "Soul Sleepers."

The big toe of an Alexandrian negro was partially knawed off by rats while he slept.

Madame Ristori has lately sold her residence near Florence to a Russian nobleman for \$200,000.

Immense numbers of fur-bearing animals have perished in the Northwestern conflagration.

The Fur East is the name of an illustrated fortnightly newspaper published at Yokohama, in Japan.

The deepest excavation in the United States is a copper mine near Lake Superior. It is 1,300 feet deep.

Resolutions of "thanks to God and the police of the city" were passed at an Indianapolis meeting.

One single county in Tennessee is answerable for the woe which will spring from 400,000 bushels of peanuts.

An experiment is making at Pittsburg, in smelting silver ore from Utah. It is now, to a considerable extent, sent to Wales.

Chicago is laid out as square as a chess board, eight squares to a mile. Thus Sixteenth street is half of a mile from Twelfth street.

Proof positive—Good young lady—"Little boy, have you ever been baptized?" Small heathen—"Oh yes, mum; I've the marks here on my arm."

PRIDE—Pride is of the seven deadly sins; but cannot the pride of a mother in her children, for that is a compound of two cardinal virtues—faith and hope.—Dickens.

The Archbishop of York has been officiating at Glengarry Kirk, and England is greatly excited—not at the preaching of the gospel, but at the place of preaching.

The mansion of the murdered Nathan in New York, worth a rent of \$10,000 a year, can find no tenant at any price, because of the blood history which it bears.

Henry Ward Beecher says the most gratifying circumstance in his life was being kissed by Kossuth. A contemporary asks: "Isn't this a little hard on poor Mrs. Beecher?"

Fanny Ellsler, (the genuine one,) whose dancing delighted our fathers and grandfathers, is now living quietly at the Hague. She is sixty-one years old, and is noted for her deeds of charity.

The captain of an American vessel at Limerick, Ireland, employed his own crew to discharge the cargo instead of the dock laborers, and one night after the ship's hawser was cut in several places.

The Hague, political capitol at Holland, is reported to be the wealthiest town, for its population, in the world. At least one-third of its citizens are said to be rich enough to live entirely on their income.

An Irishman, writing from Philadelphia the other day to his friend in the old country, concluded his letter thus: "If ever it's my fortune to live till I dy—and God now whether it is so or no—I'll visit old Ireland afore I leave Philadelphay."

"Mary, where's the frying pan?" "Eddie's got it carting mud and clambells up the alley, with a cat for a horse."

"The dear little fellow! what a genius he will make. But go and get it. We're going to have company, and must fry some fish for dinner."

A lady elegantly dressed in the "habillaments of woe, was met in the street a few days ago, by an acquaintance who ventured to remark about her being in mourning. "Y-e-e-s," said the bereaved one, mournfully, taking a few steps to trail her dress, and looking over her shoulders at the effects thereof, "I've just lost my husband—don't you think this is a sweet veil? Such a deep hem!" Such resignation of affliction is touching.

The severest thing said against Eve's daughter was by Lady Mary Wortly Montague: The only satisfaction I have in being a woman is that I shall not be compelled to marry one of my own sex.

The Boston Traveller notes a recent discovery, of tanning by the liquor of forest leaves. The old school-teachers knew of that process years ago, only the licker they used was from the branch itself.

"Why, Uncle Johnny," said his friend, "can you afford to eat shad at twentyfive cents a pound?" "Well, no," said Uncle Johnny reflectively, "but I can put him in mine ice chest and keep him till he gets sheaper."

There are consumed at a single beer garden in the Bowery, New York, during the three summer months, 3,360 kegs of lger, or 324,000 glasses, which, at five cents per glass, cost the imbibers \$16,800.

THE CAUSE AND CURE OF CONSUMPTION. The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest predisposition pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime, which is clogging these organs so that they cannot perform their functions, and then restore up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear away all diseased bile that has accumulated there, and rouse it up to a new and healthy action, by which natural and healthy bile is secreted. The stomach, bowels, and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid and the appetite poor. In the bowels the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Serravallo's Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy, living blood. After this preparatory treatment, what remains to cure most cases of Consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of abscesses or tubercles, and assists Nature to expel all the diseased matter, in the form of free expectoration, when once it ripens. It is then by the great heat and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up sound, and my patient is cured. The essential thing to be done in curing Consumption is to get up good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs, a cavity of abscess there, or the cavity is more liable to grow in flesh and get fat; this Nature is helped, the cavity will heal, the matter will ripen and be thrown off in large quantities, and if a person is weak and thin, the matter will ripen and be thrown off in large quantities, and if a person is weak and thin, the matter will ripen and be thrown off in large quantities.

Bill Heads, Letter Heads, Handbills, Bank Checks, Show Cards, Law Blanks, Envelopes, Business Cards, Visiting Cards. Cheaper than can be done in Charleston or Savannah, and in a style unequalled this side of New York. We have one of Gordon's fast Presses, beside two others, and the public can rely upon having their work done promptly.

THE SINGER NEW FAMILY SEWING MACHINE and the new MANUFACTURING MACHINE, for Tailors and Boot Fitters, are the best in the market. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Restorer and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair. They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. FOR FEMALE COMPLAINTS, in young girls, in the most delicate stages, the use of Vin-Cat-Bitters, at the turn of life, these Tonic Bitters have no equal. For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, Bladder, these Bitters have no equal. Such Diseases are caused by Vitiolated Blood, which is generally produced by derangement of the Digestive Organs. DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Distress, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Rheumatism, Dropsical Swellings, and all diseases of the skin, which are generally produced by derangement of the Digestive Organs. They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system. FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blisters, Spots, Pimples, Furuncles, Bells, Chancres, Itch, Scald Head, Skin Itch, Erysipelas, Itch, Scald, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects. Cleanse the Vitiolated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Blisters; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow. Pin, Tapes, and other Worms, lurking
