OF SOUTH CAROLINA, EXECUTIVE DEPARTMENT. THE YEAR IS APPROACHING ITS termination, and hambly acknowledging the Supreme Ruler of the Universe as the arbiter and controller of its destinies, and in accordance with time honored custom and concurring with the Proclamation of the President of the United States, I deem the present a fitting occasion to nd, to the people of South Carolina the adoption of HURSDAY, the 39th day of November as a day of solan Thanksgiving to Almighty God for his numbered

essings. Reterently assembling in their sanctuaries of rayer and praise, may they make their humble contrion and acknowledgements, remembering in their orias the desolate and oppressed, and realizing that he that knoweth Him hath mercy on the poor. And through he holy and impressive influence of these acts of devoion, may we be the better prepared to perform our duties to God and our fellow-men, to resist evil and conquer mptation, and become more consecrated to every pious d patriotic duty.

virtue whereof, I have hereunto set my hand and caused the Great Seal of the State to be affixed, at L.S.] Columbia, this eighth day of November, A. D. 1871.

and in the ninety-sixth year of the Independence of the United States of America. ROBERT K. SCOTT, Governor.

F. L. CARDOZO, Secretary of State.

The Schooner Altoona is expected daily with a cargo of Railroad iron for the P. R. R.

A hearse has been brought to town by Mr. J. BRODIE.

The Fire Department is ordered out Tuesday Nov. 21 by the Chief Engineer. See advertisement.

PEACEFUL .- Our town is remarkably quiet and correspondingly dull. No disturbances have transpired to mar the serenity, and our ocal is bothered to get items.

Monday evening a storm set in blowing heavily from the east, and raining without cessation the night through. Tuesday morning the wind changed to the westward, the clouds vanished, the sun came out warm and pleasant, and all nature grinned again.

FIRES .- Saturday morning there was an alarm of fire which had its origin in BEN-NETTS Cotton house. It was extinguished without any serious damage.

Though but a week has elapsed since the trains on the railroad commenced their regthe receipt in passengers alone. Very lit-

were well filled with a jolly set of smokists and the platform cars were crowed with those who had a desire to see the whole country as we whisked along. Too much praise cannot be said of the road, its theroughness of build, and the manner in which the Superintendent and Chief Engineer have discharged their several duties. The Engineer informs us that for a distance of forty seven miles there is but one curve in the road and that so slight it would not be distinguished.

The evening was passed by many of the guests and families at a dejeuner given by Supt. MILLETT at the Saxton House. Speeches were made by about all the invited, complimentary to the road and its management, and at a late hour the festive party returned to their homes well pleased with the events of the day and its pleasures.

In New York a Mrs. Miller took it into her head to vote, and accordingly voted. We have not heard that any earthquake followed. It is not so terrible after all, this woman suffrage, is it? The earth rolls on in its good old way despite what this woman did on Tuesday, and even the social fabric, for all we can see, remain about as before. Perhaps thisgs would not have been shaken beyond repair even had a few more women voted.

A correspondent of the N. Y. Times has been "seeing" the noted orator, WENDELL PHILIPS, and here is portion of what the great thinker thinks:

THE GRANT ADMINISTRATION

Seated in the library, after some desultory conversation respecting Massachusetts politics and the growing strength in Europe and America of the labor movement, your correspondent turned the discourse upon national affairs, the policy of the administration respecting the Southern States, so bitte.ly assailed by the conservative Press, &c.

CORRESPONDENT-What do you think of President GRANT's chances of a renomination to the Presidency in 1872?

Mr. PHILLIPS-On the whole, good. Within another year-within a few months, probably-we will see GRANT add another to his already strong chances of success. He has now four great points in his favor: The Fifteenth Amendment, the Ku Klux, reduction of the national debt and the assault on the citadel of mormonism. Let him add friends now think he ought to a fifth strand to the cord-'abor-and his

position will be impregnable. Whoever carries the most radical banner wins the er discoveries of over-issges in the ular trips, the expenses have fell beneath next Presidency. GRANT, as all the indications point that he will, attract this vast element of strength to his side by a generous espousal of the cause of the working n a 1, and he will ride into power on a wave of popularity greater than that which gave him his first election. All the earnestness and magnificence of strength put forth by SUMNER in the East, or by CARL SHURZ in the West, in that cast, will be powerless to avert it. The people will sustain him. In the hollow of his hand, by the meting out or withholding of justice, he holds his success or his failure.

The City government of Charleston have commenced the work of retrenchment in good earnest. Salaries are being cut down to the smallest living point. The Mayor wanted to follow suit and eut his salary down from \$3.000 to \$2,500 but the Council opposed it. We do not see why the rule should not apply to the head of the city govment as well as to the minor officers. If the gentleman is satisfied with a reduction of \$500, we are at a loss to see the objections.

A goodly number of officers are to be swept away entirely, and the drain upon the City's exchequer is to be stopped as far as possible.

Ye print elsewhere an article from the eston News, upon the straitened condiof the State finances. It takes the d of repudiation under certain condiwhich are, that the people resist the ment of taxes coming due in January a clear exhibit is made by the Governf the finances of the State. We believe an exhibit would puzzle the financial mathematical skill of the Governor bea all hope; and however lucid it might b his excellency, we should prefer to ree his statements with a liberal grain of wance.

Tammany, the great ulcer in the side of the Democratic party has been cut out. The big Sachems and the little Sachems, and the minor warnors are no longer on the war path. They have been extirpated root and branch, not with warfike instruments, but something more powerful, the ballot box. Out of the many candidates put up by the wigwam only one is elected, the notorious thief TWEED. Solitary and alone the great Sachem will set in the State Senate, powerless for good or for evil. He may not reach even that point, but pass his winter in Sing Sing, where he properly belongs.

The Railroad excursion of which we only ad time to incidentally refer to last week was an undeniable success. The train consisting of eighteen cars left here about 11 o'clock, arriving at Yamasee a few minutes

THE FUTURE OF THE REPUBLICAN PARTY.

CORRESPONDENT-Will the Republican Party remain the dominant political party of the nation beyond the next Presidency? Mr. PHILLIPS-That depends upon its own quickness of apprehension and resoluteness of retention of the higher principles. I assume as granted that in the nigh-athand November election the State of New-York, whatever may be the result in the Metropolis, will be added to the long list of Republican victories. The "Empire State," wrested from the Democracy, will leave them without a stronghold, almost without a nucleus whereupon to work for a Presiden-

tial candidate. A "new departure," greater than that which VALLANDIGHAM attempted to inaugurate, is in that case inevitable. What the programme is likely to be is already foreshadowed by the speeches and editorials of Western politicians and journalists. The struggles will be within the Republican Party. A disintegrating process, which may be fatal to the organization or strengthening and purifying, will be the consequences. In such a warfare, bitter and protracted, perhaps, beyond any which this country has yet witnessed-the new party being sure to draw off thousands of Conservative Republican votes-only in the

adoption of the most aggressive radical policy can the Republican Party, in such an emergency, preserve its existence. The fiasco of the last Democratic Conventionwhich failed to nominate CHASE when he past 12, and proceeded to the extreme point stood ready to make the plunge into the J w Whitwell, D Currie, C C Waters, St. of the road, some fourteen miles through one | depth of infamy-is not likely again to ocof the richest lumber Counties in this por- | cur to party thirsting for a share of the tion of the State.
