THE CAUSE AND CURE OF CONSUMPTION. -The primary cause of Consumption is derange-ment of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest predisposition to pulmenary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime, which is clogging these organs so that they cannot perform their functions, and then rouse up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schenck's Mandrake Pills. These Pills clean the stomach and bowels of all the dead and morbid silme that is causing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there, and rouse it up to a new and healthy action, by which natural and

The stomach, bowels, and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid and the appetite poor. In the bow-els the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy, living blood. After this preparatory treatment, what remains to cure most cases of Consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, puri-fies the blood, and is readily absorbed into the

very bad, if the links are not entirely destroyed, or even if one lung is entirely gone. If there is inope. I have seen many persons cured with only one sound lung, live and enjcy life to a good old age. This is what Schenck's Medicines will do to cure Consumption. They will clean out the stomach, and give Nature the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be. I is important that while using Schenck's Medi-cines, care should be exercised not to take cold; keep in-doors in cold and damp weather: avoid night air, and take out-door exercise only in a genial and warm sunshine. I wish it distinctly understood that when I recom-mend a patient to be careful in regard to taking cold, while using my Medicines, I doso for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured; into a solong is there imminent danger of a hull re-furn of the disease. Hence it is that I so strenu-ously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pheasant. Confirmed Consumptives' lungs are a mass of sores, which the least change of atmos-phere will inflame. The grand secret of my suc-cess with my Medicines consists in my ablifty to subdue inflammation instead of provoking it, as many of the facuity do. An inflamed lung cannot, with safety to the patient, be exposed to the biling blasts of Winter or the chilling winds of Spring or Antam. It should be carefully shelded from and it risting influences. The utmost caution abuilt he body has restored to it he natural quantity of flesh and strengt. I was myself cured by this treatment of the worst and the body has restored to it the natural quantity of flesh and strengt. I was myself cured by this treatment whom I hearty these many years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I hearty these many years, with on

One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monaters of disease. No System of Medicine, no vermifuges, no anthelminities, will free the system from worms like these Bitters. J. WALKER, Proprietor. R. H. MCDONALD & CO., Druggists and Gen. The Paimonic Syrup nourishes the system, pur-fies the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up sound, and my patient is cured. The essential thing to be done in curing Con-sumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs,-a cavity or abscess there,-the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure is a new order of things,-a good appetite, agood nutrition, the body to grow in flesh and get fat; then Nature is helped, the cavities will heal, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is inope. Thave seen many persons cured with only one

The Fatigue of Washing Day no longer Drended, but Economy, Efficiency and Clean Clothing Sure.

In calling public attention to this little machine, a few of the invaluable qualities, (not possessed by any other wasning machine yet invented,) are sere enumerated. It is the smallest, most compact, most jortable, most simplest in construction, most easily operated. A child simplest in construction, most easily operated. A child ten years old with a few hours practice, can thoroughly comprehend and effectually use it. There is no adjust-ing, no screws to annoy, no delay in adapting! It is al-ways ready for use! It is a perfect little wonder! It is a miniature giant, doing more work and of a better quality, than the most claborate and costly. One-half of the la-bor is fully saved by its use, and the clothes will last one-half longer than by the old plan of the rub board. It will wash the largest blanket. Three shirts at a time, washing thoroughly! In a word, the ablation of any fab-ric, fr. m a Q tilt to a Lace Curtain or Cambrie Handker-chief, are equally within the capacity of this LITTLE GEM! doubter and detractor at once become the fast friends of the machine. We have testimonials without end, setting forth its nu-merous advantages over all others, and from hundreds who have thrown aside the unwieldy, uscless machines, which have signally failed to accomplish the object pro-mised in prominent and loud sounding advertisements. It is as perfect for washing as a wringer is for wring-ing. The price is another parameunt inducement to puring. The price is another paramount inducement to pur-chasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.
