HORRY NEWS.

T. W. Beaty, Editor. FRIDAY, AUGUST 25,.....1871.

The Philosipher's Stone.

It is related, that once when Congress was debating on the question of ways and means, to provide for the present contingencies of the government, John Randolph suddenly arose from his seat, and with great vehemence exclaimed, "Mr. President! Mr. President!! hear me!!! I have found the Philosopher's Stone; it is 'Pay as you go." .

Tradition tells us, that whoever found the Philosopher's Stone, would ever after be happy. In the days of the ancient philosophers, the instructing | Luke has been arrested, and has given bond. and educating the youth, was taught orally; some of those teachers arose to great distinction, whilst others attained to such small degree, that their names have been forgotten. No doubt but the anxiety to excel in learning, gave rise by the train. Henry Williams, a colored man, to the saying of "the Philosopher's is suspected of being the murderer and is in Stone," for he who could excell Plato, jail .- Marion Cresent 6th. Socrates, Diogenes and others of their compeers, surely must be happy.

But we think John Randolph came that can make every one happy, if they will only adopt his maxim, "Pay as you go." No sheriffs, deputies, or constables to haunt you; a contented mind rests upon the pillow where sweet sleep is the reward of the days toil. If this be the reward of the individual person who, in all his transactions, more. adopts Randolph's maxim, and pays as he goes, how much more so should it he for those, who by the voice of the people, have been chosen to serve their interests? Should they not continually keep before them the maxim, "pay as you go." Morally they have no right to contract debts for which the people are to be taxed, unless with the express understanding and consent of the people. They should always use the Philosopher's Stone, "pay as you go."

At the last session of the Court in this County, our Grand Jury brought to the attention of the Court the fact, that speculations were being made by officers of the county, and by others, in the various claims upon the county, does he? Why,I thought we was gwine to gir such as the County Commissioner's orders, School orders, Jury Tickets, &c., at a heavy discount to the great injury of the county.

If the County Commissioners, who commenced the business management for the woman cause, and poured out her eloof the affairs of the county with a cash balance in hand, had adhered to the maxim "pay as you go," our present Commissioners would have been relieved of much perplexity, and the people of a burdensome tax.

The same ill omened fate attends the administration of all our county affairs. Many orders drawn, or indorsed by the County School Commissioner, dating as far back as last January, are yet unpaid, and it is our belief that quite one third of all the orders given in this county for school purposes are now unpaid. On presenting them to the County Treasurer, the invariable reply is, "no funds; Treasury exhausted." Is it to be wondered at that persons holding this scrip, after applying a gain and again for the payment of a paper that they believed the State and County had provided for, should force it in market, at any price, in order to obtain means to assist in supporting their families, or that persons who advance the money for them, should make a large margin?

Yet, in the face of all these facts, the Trustees of this School District have advertised for, and offered to engage, fitteen first class School Teachers, to teach (as we learn) five month schools; this gives \$3,750. for this School Distriet alone. There are eleven School Districts in this County, and taking the excessive population of this District over the others, it will give us an expenditure of over \$30,000 for school p rposes in one year. Perhaps these parties intrusted with the people's interests have made their calculations. and are satisfied that they can pay a they go; if so, holders of the old scrip would like to know what provisions are made for them.

Appreciated.

The Wilmington Daily Star; thus speaks of of the improved appearance of the Horry News:

"The HORRY NEWS is a neat little she i, has undergone decided improvein en s lately."

of commendation from so high an authority in Journalism, is even more

But the secret is, Raones, the old publisher, is back, and a paper must be clean before it can pass Rhodes.

ITEMS.

A WINTE MAN CLUBBED BY A NEGRO.-Willie Owens, a white young man, was, o Wednesday last, stricken senseless and dangerously hurt by a blow given with a heavy stick by one Luke Owens, colored. From what we can gather of the affiair, Luke came into the yard of Mr. William Baker, who lives about three miles from town, and seemed de sirous of getting up a difficulty with Mr. Baker. He was with some trouble gotten out of the yard and stopped in front of Mr. Baker's house continuing to use threatening language to Mr Baker. Young Oweus endeavored to make him go away from this place, but had attempted no violence towards Luke, when he received the blow. He was quite stunned at first and seemed to be dangerously hurt, Since that time Mr. Owens has been reported much better, Marion Crescent

MURDER.- On Satureday night last, Mr. James Brown, living at Grice's Station, in Columbus Co., N. C. was brutally murdered, and his body afterwards placed on the R. R. track,

The Weldon News says: The workmen en gaged in the construction of the new Petersburg track on the South side of the Roanoke, are nearest finding the Philosopher's Stone daily turning over a large number of human bones, from five to lifteen feet below the ground -the last relics of the Indians that but a few years ago, as it were, were wont to roam at liberty through this section.

The Williamston Spectator says: That a gentleman near Jamesvili has already relized watermelons raised on two acres of land, and that he will probably get about fifteen dollars

The lazy school boy who wrote the name of a distinguished soldier and patriot as & Drew Jaxon, has been out-done by a theological student, who, having half a dozen shirts to mark, wrote the first John Thomas and the remaining five ditto.

The Mount Vernon Hawkeye says that a good joke is told of a Cedar Rapids petition man, who was seen in the cemetery copying names from the tombstones upon his petition.

After getting quite a list, he exclaimed I guess you can't go back on us like some others did. Dead men tell no tales.

A jury in North Carolina, after being charged in the usual x ay by the judge, retired to their room, when a white juror ventured to ask a colored associate if he understood the charge of the judge, "Golly!" exclaimed the aston ished juror, "he don't charge us nutlin for dat

travels Mrs. Stanton met an Irish woman whose back bore the scars of many whippings at the hands of her husband. Mrs. S. thought it was a splendid chance to gain an advocate quence upon the head of Biddy like the flow of water over a militail. Mrs. S. finally stopped for breath, and her auditor took occasion to say, I always feels better after Patrick whips me. The orator stood not upon the order of her going, but went at once."

The editor of the Elmira (N. Y. 1Advertiser has poor luck buying medicine. He says, "I went to a drug store early one morning for a dose of morphine for a sick faiend. The night clerk objected to giving it to me without a prescription, evidently fearing that I might destroy myself. 'Pshaw' said I, do I, look like a man who would kill myself? Gazing at me steadily for half a minute, he replied, 'I don't know .-Seems to me if I looked like you I should be greatly tempted to kill myself."

A poor toper, as a last resort for more drink, took his Bible to pawn for liquor but the landlady refused to take it. "Well," said he, "if she want take my word or God's word, it, is time to give it up," And he went and signed the pledge, and kept it faithfully.

HEAVING THE LEAD. The steamer "Fanny" was coming down the Upper Missisippi, loaded with pig-lead. As she was going over a shoal place, the pilot gave the signal to heave the lead. The only man forward at the time was a green Irishman.

his it to heave the lead, your honor? Where

"Overboard, you blockhead!"

The irishman snatched up one of the pigs flead and threw it overboard; the mate, m endeavoring to prevent him, lost his ballance and fell into the river.

The captain running to the edge of the deck, asked: " Why don't you heave the lead and sing out how much water there is?"

"The lead is heaved, yer honor," said Pat, and the mate's gone down to see how much

A Switt Witness Exposed.

Col. Safford, of the Selma Times, speaking of the infamous and swift witness, Taliaferro, who recently regaled the smelling committee with such horrible tales about the Ku Klux ventilates him as follows:

"We helped to bury, one Sabbath after noon in the fall of 1864, at our home in Madison, Ga., five Yankee prisoners, whom Captain Taliaferro and two other assasins like himself had foully murdered. Well do we remember his telling us how four of the men had plead for their lives, telling him thank you friend Bernard; a word that they were his prisoners, that they were soldiers, that they had their

then we remember how one brave spirit told him to kill, that he was an infamous hound, destitute of all heart and soul, of courage and manhood, and that he could kill whenever he got ready, that a man had but one time to die, chance for his life, would show him how a man could die. The infamous Taliaserro placed a pistol to the heart of the brave fellow and fired; not satisfied with killing the prisoner, he mutilated him by firing three or four shots into his head and face. Taliaferro told us this himself before we went to where the prisoners were dead; and the fact of the killing sustained his statement of the butchery."

Good Advice to Farmers.

The long continued drought by which our section is afflicted must diminish, to a very serious extent, the prospect for a corn and cotton crop the present year. One month ago we all had good cause to feel elated at the promise of a fine harvest and encouraging returns for our labors; but this cheering prospect has been suddenly reversed by an influence which we had no power to avert, and at which we have no right to complain. This disappointment of our reasonable expectations shows us how uncertain is the realization of all human calculations; but it should by no means serve to disgust us with the business of farming, or to dampen the energy and enterprise the sum of one hundred dollars, from the of any who are engaged in that important and honorable calling. On the contrary, it should stimulate us to continued and redoubled exertions.

If we fail in a summer crop, let us see it we cannot repair the dgmage, to a great extent, by directing early and vigorous attention to the ensuing Fall and Spring crops. Small grain should be sown largely and early. Wheat should be sown on land that is thoroughly pulverized by the plow and dy you gave me in case of sickness. I ran to made rich by the application of ma- get it out. mures, otherwise it had better not te sown at all. Λ good plan is to sow oats at the last plowing of cotton, on such cotton land as you design to grow oats the next season. By sowing thus early on a meliow soil, (the condition which our cotton lands are presumed to be in) the plant obtains a size and vigor, he injurious effects of the winter freezes; and is not liable to rust in the Spring. We suggest that this plan be tried this season on any cotton land that may be ploughed after the showers set in. Turnips should by no means be neglected. Let every man sow double the acreage of turnips he at first intended. Clover, a valuable crop at all times, is especially important after this dry season. We regret that it is so little known in this section, where it is susceptible of being raised to such great perfection and profit. A half-acre lot of clover, if sown in the Fall, will yeild as much forage as six work animals will not do to leave them on all night: so I went to the middle of July-three months in the heart of the workin season; and with a half feed of corn and fodder, your animals will keep in better condition than they would with a full feed of corn and no clover. It any are incredulous, let them try it. We have.

There are other grasses, not much known in this section, and the seed of which may be obtained at the Drug Stores in this place, which doubtless might be sown with profitable results; qut as an economizer of horse feed (it we may be allowed such an expression) we know of nothing better than the of the judge. I wonder if he clover. And we say this without intending detriment to the "Long Grass," a species lately introduced by a friend Both res of ours, and of the merits of which, the foo and especially of its peculiar adaptedness to this climate, we do not pretend that w to gainsay.—Lancaster Ledger.

An Exhausted Husband.

The following choice piece of sarcasm, from he Metropolitan Record, purports to have een written by a young wife in New York to her prim and spectacled naiden aunt in

MY DEAR AUNT: Although you told me when I invited you to my wedding, that I owe to was too young to marry, and not capable of choosing a mate for life properly, and with due consideration, I know that you may now feel that I was wiser than you thought. In tonic. selecting dear Orlando I have gained a most affectionate and attentive husband, and one who has neither a fault nor a vice. Heavens! Bitters What must a girl suffer who finds herself united to a'dissipated person, neglectful of her, and disposed to seek the society of unworthy persons, who drink, smoke and do all sorts of

Thank Heaven, Orlando is perfection. To-day is ny eigteenth birth-day, and we have been married a year. We keep house now, and i can make pretty good pie, only the wives and little ones at home, and that under crust will be damp. However, 1 thing than our fondest hopes could expect. they ought not to be killed for doing that must be the oven. Once I put peppermint in the pudding sauce, instead of lemon

nothing else than defending their flag; | flavoring, but then Oalando was trying to kiss me right before the girl, who didn't much like either of us going into the kitchen at all.

The flowers are comming up beautifully in the back-garden. We sowed a great many seed, but hardly expected so many diants .-Among the most numerous is one variety with a very large leaf, that scratches one's and that the tied prisoner, without any fingers, and don't smell nice. I wonder what it is? Orlando frightens me by talking about weeds, but seeds always come up, don't they?

> Dear Orlando! I come back to him agaihso excelent, temperate and true. Tell all the girls to marry as soon as they can, if they can find a husband like mine.

> I have but one trial-business takes him so much away from me. A lawyer must attend to business, you know; and sometimes they carry on the cases until 2 at night. Often and often he has examined witnesses untill halfpast 12, and came home perfectly exhausted .-And the nasty things will smoke so, that his dear coat quite smells of it. And as is makes him as ill as it does me, I have to air it, and sprinkle the lining with Cologne water, before he dares to put it on again.

> I had a terriable fright the other nightdreadful. Orlando had told me that business -I think he said it was a case of life and death -would detain him late. So I sat up, as usal, with a book, and did not worry until 1 o'clock. After that I was a little anxious, I confess, and caught a cold in my head, peeping brough the up stairs window blinds, for dear aunt, it was not until 3 o'clock that I heard a cab driving up the street and saw it stop at our door; then I thought I should faint, for I was sure some dreadful accident had happened

I ran down to open the door, and Mr. Smith, a friend of Orlando's, who is not, I must con. fess, very much to my taste-such a red faced, noisy man—was just supporting my dear boy

"Oh, what has happened!" cried I.

' Don't be frightened, Mrs. White," said Mr Smith. "Nothing at all; only White is a little exhausted. Application to business will exhaust a man, and I thought I'd bring him

"All right, Belle," said Orlando, "Smith tells the truth-I'm exhausted."

And, dearest aunt, he was so much so, that he spoke quite thick, and couldn't stand up ithout tottering. Mr. Smith was kind enough e to help him up-stairs, and be laid upon the bed so prostrated that I thought he was going to die. Then I remembered the French bran-

"Have a little trandy and water, dear?"

"The very thing. Smith is exhausted, too Give some to Smith," said he,

And I so repreached myself for not having hought of it before Mr. Smith was gone. But I gave a glass to Orlando, and, under Provilence, I think it saved his life; for oh, how

"Bella," said he, quite faltering in his speech, which, it is said, will protect it from othe room is going round so fast that I can't growing desh ever since catch your eye. And, besides, there's two of you, and I don't know which is which."

I knew these were dreadful symptoms. "Take a drink, dear," said I, "and I'll try to

wake Mary, and send her for the doctor." "No," said he, "I'll be all right now. Here's cour health. You're a brick. I—" And over ie fell, fast asleep.

O, why do men think so much of moneymaking? Is not health better than anything

Of course, as he had lain down in his hat, I took that off first. But when it came to his boots-dearest aunt, did you ever take off a gentleman,s boots? Probably not, as you are a single lady-what a task! How do they ever get them on? I pulled and pulled, and shook and wriggled, and gave it up. But it would consume - say from the middle of April at it again, and at last one came off so suddenly; and over I went on the floor, and into his hat, which I had put down there for a minute. I could have cried. And the other came off the same way, just as hard and just as sudden at last. Then I put a soft blanket over Orlando, and sat in my sewing chair all night. Oh, how heavily he breathed. And I had, as you may fancy, the most dreadful fears. He might have killed himself by his over-application to business, for all that I knew. The perfect ones go first, it is said.

Oh, how differently should I have felt had anything happened to my belove i Orlan.lo. He has not had so exhausting a day since, and, I think, sees the folly of over-work; though if courts will keep open so late, what can poor lawyers do? I think it is very inconsiderate

convert then, for runing a remedy improves and th ersonal ap pearan Bitters have trity in such cases, best and safest stipation, toning the to the liver, and relievervousness and depreseering and beneficial of by thousands, who on to health. CONSUMPTION, BY J. H. SCHENCK, M. D.

M ANY a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and figure are sleen. fiends are sleeping the dreamless slumber into which, had they caimly adopted

DR. JOSEPH H. SCHENCK'S

SIMPLE TREATMENT, and availed themselves of his wonderful efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that
wherever sufficient vitality remains, that vitality,
by his medicines and his direction for their use,
is quickened into healthful vigor.

is quickened into healthful vigor.

In this statement there is nothing esumptuous To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The Theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the The Seaweed Tonic and Mandrake Pfils are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption orginale in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here them comes the culminating result, and the setling in, with all its distressing symptoms, of CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts the Podophilum Peltatum. They possess all the blood-scarching, alterative properties of calomel, but unlike colomel, they

"LEAVE NO STING BEHIND," The work of cure is now begining. The vitiated & The work of cure is now begining. The vittated a mucous deposit in the bowels and in the atimentary canal are ejected The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

ASUPPLY OF GOOD BLOOD. The Seaweed Tonic, in conjunction with the

Pills, permeates and assimilates with the food Chylification is now progressing without its previous tortures Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach, An appetite sets in.

Now comes the greatest Blood Purifier ever yet Now comes the greatest Blood Purifier ever yet given by an inkulgent father to suffering man. Schenek's Pulmonic Syrap comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lugs in the form of gatherings, it prepares them for expectoration, and in a very short time the malady is vanquished the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or the womanhood that was.

GIVEN UP AS LAGET

GIVEN UP AS LOST.

The second thing is, the patients must stay in a The second thing is, the patients must stay in a warm room until they get well, it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fail and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirit—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain. To despair of cure after such evidence of its

ossibility in the worst cases, and moralcertainty in all others, is sinful. Fr. Schenck's personal datement to the Faculty of his own cure was in aese modest words:

"Many years ago I was in the last stage of conamption; confined to my bed, and at one time obsystems thought that I could not live a week, physicians thought that I could not live a week, then tike a drowning man catching at straws, I heard of and obtained the preparations which I now off r to the public, and they made a perfect cure of me. It seemed to me that I could feel them pentrate my whole system. They soon repend the matter in my itings, and I would spit up more than a pint of offensiv yellow matter every morning for a long time.

As soon as that began to subside my fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have growing dash ever since?

"I was weighed shortly after my recoverey" added the Doctor then looking like a mere skeleton my weight was only ninety-seven pounds my present weight is two hundred and twenty-five (225) pounds and for years I have enjoyed uninter
