#### Theodore Tilton's Ticket.

The Golden Age (Theodore Tilton's paper) confesses with something of a groan that the Republicans, to judge from present appearances, will have nothing better as a platform as a platform than to pretend that inasmuch as Mr. Bout well has reduced the public debt "Gen. Grant shoull be bound upon our backs for a second term." To the Republican party ought to give its next Vice Presidency to a negro-say for instance, Frederick Douglas, or Robert Purvis, Senator Revels, or some other excellent citizen whose civic vir tues God has clad in the divine comeliness of a dark skin."

WHY THE COLORED OFFICERS WERE ENUBBED AT THE LONG BEANCH BALL. -Major Lewis Gaul and Captain Watkins, of the Second Battalion Massachasetts Colored Volunteer Militia, recrived cards of invitation to attend the grand civil and millitary ball at Long Branch on Monday evening. On presenting themselves at the hotel, they had been positively invited. The cards of invitation were thereupon pro-

Mr. Rennie, who was greatly excited, said that it would be unpleasant to receive them, as the ladies were much alarmed. Furthermore, Mr. Rennie said President Grant was exprected, and he would be greatly displeased at the presence of colored persons in the room.

We suggest to Theodore Tilton, that the name of Major Lewis Gaul be placed on the National Republican ticket for Vice President, instead of Senator Revels. Oh no! don't Grant us Revels, but, Grant us Gaul.

## Suspension of the Dally Republi-

The Charleston Daily Republican, of the 8th inst. gives notice of its supension, for the present.

The suspension of this paper, so ably, gentlemanly and courteously conducted by Mr. Fox, its editor, will be a serious loss to our people; and one more, who has striven and labored earnestly for the enlightenment of a benighted people, has fallen a Martyr, sacrificed for the individual interests of others.

The Republican, was owned by a company of the leading Radicals in, and out of this State, and because the editor was a gentleman of too high a sense of honor, of his position, to advocate the individual interests of each member of the association, in their varied schemes for their self interests, damnatory to the Republican party of the State, whose organ his paper was, the State and Government patronage, has been taken from it, and one among the ablest conducted papers of our State has been sacrificed, because it would not sanction open robbery.

The Sunday-School Boy and his Rsible.

A little boy, a Sunday-scholar, was one day sent by his mother to a shop for some soap when the shop woman, ! having weighed it, took a leaf from the Bible that was placed on the counter for waste paper; at which the boy was greatly astonished, and eagerly exclaimed. "Why, mistress, that is the Bible!" "Well, and what if it be?" replied the woman, "It is the Bible," repeated the boy, "and what are you going to do with it? "To wrap up the soap," was the answer. "But, mistress, you should not tear up that inside, she said: 'Don't go father!' work, for it is the Bible!" cried the boy, with peculiar emphasis. Special Notice.

THE CAUSE AND CURE OF CONSUMP-TION,-The primary cause of Consumption is derangedment of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the foot is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired having the slightest predisposition to pulmonary disease, or it they take cold, will be very liable to have Consumption of the Lungs in some of its forn s; and I lold that it will be impossible to cure any case of Consumption without first restoring a good di, estion and bealthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased in cuts and shime, which is clogging these organs so that they cannot perform their functions, and then ruse up and restore the liver to a healthy action. For this perpose the surest and best remedy is Schenck's Mandrake Pills. These Pills clean the stomach and bowels of all the dead and morbid stime that is causing disease and decay in the whole system. They will clear out the liver of all dise sed bile that has a commutated there and rouse it up to a new and cleanse the stomach and bowels from all diseased mulated there and rouse it up to a new lealthy action by Which natural and healthy

The stomach, bowels, and liver are thus cleansed by the use of Schence's Mandrake Pitis; but there remains in the stomach an excess of acid, the organ is tor pid and the appetite poor.—In the bowe's the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Seawedd Tonic proves to be the most valuable remedy ever discovered. e the most valuable remedy ever discovered. I is a lkaine and its use will neutralize all excess of acid, making the stomach swig: and fresh, it will give permanent tone to this important organ and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy, lying blood. After this preparrtory treatment, what remains to cure most cases of consumption is the free and persevering use of blessels. remains to cure most cases of consumption is the free and percervering use of Sheack's Pulmonic Syrup. The Pulmonic Syrup nour ishes the system, pariles the cloud, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens distributed to the diseased lungs. There it riall morbid matters, whather in the form of cesses or tubercles, and then assists Nature expel all the diseased matter, in the form of free expentoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pu monic Syrup, that all ulgers and cavities are healed up sound, and my patient is cured.

The essential thing to be done in curing Con sumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs,—a cavity or abscess there,—the cavity connou heal, the matter cases cavity or abscess there,—the cavity comou heat, the matter cannot ripen, so long as the system is below par. What is necessary to cure is a new order of things,—a good appetite a good narrition, the eady to grow in flesh and get fat; then Nature is ieled, the cavities will heat, the matter will ripen and be thrown of a d in large quantities, and the person regain heath and strength. This d the person regain hea th and strength. This is the true and only plan to cure Consumption and if a person is very bad, if the lungs are not entirely d stroyed, or even if one lung is entirely gone, if there is enough vitality left in the othe oh al up, there is hope.

I have seen many persons cured with only one sound lung, five and e-joy life to a good o'd age. This is what Scheuck's Medicines will do to care. Consumption. They will clean out the stomach sweeten and strangthen it, get up a good digestion, and give Nature the assistance she needs to clear them. lear the system of all the disease that is in the lungs, whatever the form may be-It is important that while using Schenck's Medicines, care should be exercised not to take cold; keep in doors in cold and damp wheather: avoid night air and take out-door exercise only in

genial and warm sunshine. I wish it distinctly understood that when I recomend a patient to be careful in regard to aking cold while using my Medicines I do so for special reason. A man who has but partly revered from the effects of a bad cold is far more special reason. tab e to a relapse than one wao has been entirely cured, and it is precisely the same in regard to Consumption. So long as the lungs are not per Censumption. So long as the lungs are not per-fectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I so strengusly caption pulmonary patient against exposing themselves to an almosphere that is not genial and pleasant. Confirmed Con-sumptives lungs are a mass of scres, which the least change of atmosphere will inflame. The secret of my success with my Medicines consists in my ability to subdue inflamation instead of voking it, as many of the faculty do An in be exposed to the bitting plasts of willier of the childing winds of Spring or Autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a cure under

almost any circumstaces is an impossibility.

The person should be kept on a wholescm and nutrious diet, and all the Medianes continued until the body has restored to it the natural quantity of flesh and strength. I was myself cured by this treatment of Con sumption, and have lived to get fat and hearty
