#### Night Air.

It is a prevalent idea that night air is not so healthy as the atmosphere when under the influence of light. This opinion must have originated from some cause, or else it must be set down among old wives fables. No one ever had an opinion that the composition of air was changed during the night hours, but certainly it is well known, that air and atmosphere are two different things. The atmosphere may become perfectly corrupt, and in many places it becomes so, but air is a fixed composition, therefore, when it becomes mixed with a superabundance of carbonic acid or any other gas, it is no longer air. The atmosphere—that ocean in which we continually bathe, and on which we continually feed, often becomes unfit for respiration by extraneous matter floating in t, under the different names of miasma, infection, &c. It has been said, " the belief of night air being injurious, is an ertor, which has hindered the introduction of ventilation more than all other." This we do not believe, for it is well known that the effluxing marshes is the most dangarous during might hours, and those who are exposed to the night air in any country, except upon the cean, never en-joy such good health as those who are protected from its influence. The doma-tic animals such as cows and horses, which tic animals, such as cows and horses, which State, and also from Union County, N. C., are housed every night in summer, "do better," as the farmers say, than those which are exposed to the free ventilation of chilling damps, and the extraneous gas-es which sluggishly float near the earth's surface at night, owing to the absence of the sun, which, during the day, carries them up like the dew, above the stratum in which we live and walk. No one ever supposed that the pure atmosphere had anything to do with causing the death of persons exposed at night within the tropics; nor does it produce the cough of the consumptive and asthmetic, nor the langour and miserywhich the sick so frequent-

ly experience. These and other sufferings experienced more particularly at night, are caused by carbonic acid, absence of sunlight, rapid reduction of temperature, the air being saturated with moisture, &c., and not by that air without which we cannot live three minutes. It is absurd to suppose that fresh air supports our life and destroys our life and gives us health at one and the same time. The same thing cannot possess the utterly incompatible character of good and evil, of supporting life and destroying it. It is all nonsense to talk about pure air being hurtful to life and health, at any season by night or day ; but while carbonic acid, absence of sunlight, rapid reduction of temperature, the atmosphere saturated with mojsture, &c., at night are the causes of sickness and suffering, it is no error to believe that the night atmosphere is oftentimes injurious to health. A belief in this need not prevent good ventilation, for if cotton cloth screens are placed in windows during night hours, a free ventilation is obtained. and the air is somewhat rarified, before it enters the apartment; this meets all the necessary conditions of freedom from exposure, and a plentiful supply of as good air as can be obtained. Those who believe that constant exposure to night air is not injurious, have never had the good fortune of trusting to that notable appendage, placed so prominently on man's front for a detector, viz; a good olfactory explorer. -Scientifie American.

# Rail Road Meeting.

At a Meeting held in the Court House on Sale Day last, the following Report and Resolutions were adopted :

In the opinion of this Meeting, the construction of a Rail Road from Lancaster Court House to some point connecting us in the scheme of roads in this State, amongst other advantages, by enhancing the price of our land, quickening industry, and more thosuphly developing the resources of our soil, affording greatly increased facilities for the transportation of our produce to market, and by throwing us into more intimate con-nection with other portions of the State, is a work, to the accomplishment of which, we are invited by every motive of self-interest. as well as by every sentiment of patriotism to the furtherance of which, therefore, be it Resolved. That a meeting of the citizens of this District be held in the Court 'House on the first Monday in August next, for the purpose of adopting such measures as may tend to the accomplishment of this great

work. Resolved. That Delegates and citizens from the Districts of Chester, Fairfield, Richfind, Kershaw, and Chesterfield, in this nvited to attend said meeting and participate in its deliberations.

The Report and Resolutions of the Com-mittee having been read, J. W. Cooke, Esq., addressed the meeting in favor of the report and resolutions-his remarks were brief, but spirited, and to the point. Mr. Williams also spoke in favor of the Preamble and Resolu tions of the Committee, urging upon the meeting the great importance of the work to be accomplished, the entire practicability and success of the enterprise; and moved the unanimous adoption of the Preamble and Resolutions offered by the Committee.

The Preamble and Resolutions having been unanimously adopted, Mr. Williams th n moved that the Report and Resolutions be published in the Lancaster Ledger until the first Monday in August next, and that the Chester, Winsboro, Columbia, Camden Cheraw, and Charlotte papers be requested to copy.

On motion of Mr. Williams the meeting adjourned.

#### Tribute of Respect.

The Protestant Episcopal Church of South Carolina mourn with Geartfelt sorrow the loss of their beloved Bishop.

Bishop Gadsden was endeared to his flock n this Diocess, on account of his humility, his purity, and his holiness. For thirty years he had been the bosom

companion and councellor of Dehon and Bowen, and as their successor, he filled the office in a most worthy manner. Meekness, gentleness, forbearance, modesty, were his predominant characteristics.

When elected to the Episcopate in 1840. he would have shrunk from assuming the high responsibilities which would rest upon him, and requested of the Convention time for consideration and prayer. At a subsequeut conference which he held with the clergy, they passed a resolution, "assuring

the Rev. Dr. Gadsden of their sincere respect and of their cordial determination to sustain him in the exer ise of the office to which w ng the solemn question now before him."

Mrs. Clay, who is now in her seventy-first year, and in the enjoyment of robust health, has been the mother of eleven children, four of whom died in childhood. Eliza, a young lady of unusual promise, was very suddenly removed by death, in 1824, while en route to Washington with her father; and almost at the same moment the afflicted parents received intelligence of the decease of another most interesting and accomplished daughter, the wife of Mr. Dubalde, of New Orleans. A third daughter, upon whom the father's affections seem to have centured after the death of the other two, died in 1835. She was married to Mr. James Erwine, of New Orleans, and her loss was a blow from which Mr. Clay never recovered. Of the ive sons, the eldest Theodore Wyne Clay, has been, since boyhood the inmate of a lunatic asylum. Thomas Hart Clay, born 1803, resides in Kentucky and is engaged in the manufacture of hemp. Henry Clay, Ir., it is hardly necessary to say, lost his life at the battle of Buena Vista, while fighting chivalrously for his country. James B. Clay, and John M. A NEW AND VALUABLE BOOK ! LIFE OF ROBERT EMMETT.

The Celebrated Irish Patriot and Martyr. With his Speeches, &c. also an Appendix, containing raluable portions of Irish His-tory, by John W. Burke. THIS work is one of the most readable

L biographics ever offered to the Ameri-can reader, and will be hailed with joy by every admirer of the distinguished but illfated subject. Besides the life of ROBERT EMMETT, it

gives a minute detail of the various insurrections and outbreaks of the Irish in attempting to free themselves from English bon-dage. Also the Life of Theobald Wolfe Vone, the trial of Mitchell, O'Brien, Meagher,

and their compatriots. The work contains 308 pages, beautifully bound in Muslin. Price only one Dollar. All order for the Book will be promptly

attended. Liberal deduction made to agents who will sell the work for us. For sale by Booksellers generally, Address JOHN W. BURKE, Cassville, Ga.
