New York, Nov. 13.—Locked in each others arms on the bare floor of a dismantled flat on east Fifty first street, of which they had been dispossessed on Friday two sisters, Louise and Valerie Atel, 44 and 38 years respectively were found dead today. In the mouth of each was a rubber tube which connected with the ebullient.

In the hand of the younger woman was an open letter written in German, which stated that the sisters had decided to lie together after talking the matter over for a week, and requesting that they be buried in one grave. "For this consideration," the letter continued, "We give our bodies for the benefit of medical science."

The two woman had failed to pay the rent for the flat they occupied and on Friday were dispossessed. At the same time their furniture, which they had bought from an installment company, had been given permission by the janitor to remain in the flat over Sunday.

Letter to J. J. Cherry & Co. Lancaster, S. C.

Dear Sirs: "Three-quarter" is a good phrase for the best outside of Devoe. Devoe is the standard; mark it 100. The next best—there are several not far apart—are three-quarter paints; you may mark them 75 to Devoe's 100.

The bulk of the paints in market are 40 or 50 or 60; a few are better than 60; a few are worse than 40.

How do they act? They cover from one to three-quarters as much as Devoe; and they last from one to three-quarters as long as Devoe.

What are they worth? The same rule don't hold; it costs more to put on some paints than they are worth; they are not worth anything; the "put-on" costs two or three times as much as the paint.

Yours truly, F. W. DEVOE & Co. Lancaster Mercantile Co. sells our paint.
