The Lancaster B and L Associa tion Disbanded

The Lancaster Building and Loan Association, pursuant to resolutions passed at the last meeting of the stockholders, is rapidly winding up its affairs, and is now about a thing of the past. The heavy taxes of the association last year was the cause of its undoing. The last series of its slock had been running just three years.

We regretted to see this associa tion disband. During the ten or twelve years of its existence it was the means of many young met saying up frem their monthly earnings a few dollars, to say nothing of the many new cottages dotted over the town that probably would never have been erected but for the assistance of the building and loan. It has added considerable to the taxable prop J. McNinch, of Lancaster, has erty of the town and the regret is general that it has become defunct.
