Russian Crew Kill Officers

Captin and All Officers except Eight compliant Ones On Board the Most Powerful Battleship Left to the Czar Are Mur dered

Odessa, June 28 .- The red flag of revolution is at the masthead of the Knisz Potemkine, Russia's most powerful battleship in the black Sea, which now lies in the harbor in the hands of mutingers.

The captain and most of the officers were murdered and thrown overboard in the open sea and the ship is completely in the possession of the crew and a few of ficers who have thrown in their lot with the mutineers

The guns of the Kniaz Potemkine command the city, and in the streets masses of striking women who yesterday fled before the volleys of the troops, are now inflamed by the spectacle of open revolt on board an imperial warship and are making a hold front against the military.

All day long, firing has been heard in many quarters of the city A number of burricades have been erected and tumult and disorder reign

EXPECT CIVIL SEA FIGHT,

The main squadron of the Black Sea fleet, consisting of the battle ships Georgei Pobiedonosetz(Gorgia the victorious), with two cruisels, are expected to arrive here to-night and a regular naval battle is in prospect.

The lioters are in a most defiant mood and are not inclined to surrender without fighting.

Reports of the munity, which occured while the battleship was at sea, are difficult to obtain, as the mutineers refuse to allow communication with the shore; but from the shooting of a sailor who crew, a complaint against bad food. According to one version, this sailor, whose name was Omsitchuk, objected to the quality of the "bortchte," or soup, and was immediately shot down by a mess officer.

Weekly Crop Builetin.

Weekly Crop Summary of The Weather Bureau

The temperature during the week ending 8 a m . June 29th, Had Been Warned Not to Preach, lirewatery ?- (harleston Post, averaged 4 degrees per day above normal. The extremes were a maximum of 100 degrees at Flarence on the 23rd, and a minimum of 66 degrees at Greenville on the 22nd. There was more than an average amount of bright sunhad a wilting eff et on all vegeta -

dry out very fast.

aniouuls tofrom two to over three] inches there having occcured no In many places the ground has and left town this morning. become baked and hard and unworkable.

Farm work made rapid progiess during the week where the oil was fit for cultivation, and practically all fields have been rid of grass and weeds, and are in better condition than at any time this season.

Cotton is suffering less from the drought than other crops, and made a general improvement, although the plants continue small and are growing slowly. Cotton has now a healthier color, and is fruiting normally with a marked it is ascertained that in arose therease to the area from which blooming is reported. The im. was presenting, on behalf of the provement is confined principally to cotton on heavy soils, while on sandy lands the crop continues poor and uppromising, and in many places lousy, and the plants have a sickly appearance and in a few sections are shedding their lower leaves. Sea-Island ootton is in good condition but has begun to wilt in places. Corn is suffering for rain, and early corn is very poor; later plantings are better but will soon detcriorate unless it rains. Most of the March plantings have been laid by. Worms continue destructive in the western counties. Tobacco leaves are ripening and some of the lower ones have been stripped, cured and market ed Wheat and oats harvest is now finished. Tide water rice is doing well; June plantings in the Georgetown district are coming up to fairly good stands. Gardens doing poorly. Shipments of peaches are heavy from the ridge section. Cantaloupe shipments have begun, and watermelons will be marketed next week. Pastures are failing. It has been too dry to plant peas on stubble lands.

Minister Saved From Mob By Ruse Of Litle Girl

Longer at Pottsville, Ark , but Disregarded Injune tion.

Casa, Ark., says that the Rev. J. J. Gray, a Methodist minister shine. Although there were to of Pottsville has been saved from destructive wind storms, yet there rough treatment at the hands of were fresh to brisk winds each a mob only by several little girls, day which, being het and dry who clung close to him as he left a school, house, before which tion, and caused the ground to nearly a score of men had gathered intent upon seizing the There were scattered showers preacher. AV.

Washington, June 27 .- The weather bureau's weekly summary of crop conditions says:

"While heavy rains have hindered the cultivation of cotten over a large part of the central and northern Texas, where many fields are foul, the crop as a whole has experienced general improvement through the epiton belt. The plants are generally undersized, especially in the central and eastern districts but good growth is nearly every where reported. Complaints of dice continue from South Carolina and Georgia. In Texas less damage from web worms and boll weevils is indicated; in western Louisiana, however, some fields have been abandoned on account of weevils, and in Oklahoma and Indian Territory web worms continue damaging. Some picking has been done in homes, as Death claims, in each extreme southern Texas.

"Under favorable conditions for transplanting tobacco, this work has been largely finished and the general condition of the crop is promising."

GREATLY IN DEMAND

Nothing is more in demand than a medicine which meets modern requirements for a blood and system cleanser, such as Dr. King's New Life Pills. They are just what you need to cure stomach and liver troubles. Try them. At Crawford Bros', J F Mackey & Co's and Funderburk Pharmacy, drug store, 25c, guaranteed.

A GRIM TRAGED".

is daily enacted, in thousands of one. another victim of Consumption or Pneumonia. But when Coughs and Colds are propeily treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctor, gave her up. Finally she tookDr, King's New Discovery for Consumption, Coughs and Coldse which cured her, and to-day she is well and strong." It kills the germs of all diseases.
