

## MAKES ICE CREAM BLOCKS.

The Clever Invention of a Young Negro of Lancaster --How the Device is Operated and Some of Its Advantages.

Lancaster cor. The News and Courier: Your correspondent witnessed a day or two ago a practical test of the ice cream block freezer, invented by Chas. P. Hudson, a worthy young colored citizen of Lancaster, upon which he obtained letters patent last March, as noted in this correspondence at the time.

The freezer is a remarkable invention, and those who are familiar with such things confidently assert that it is only a question of time when the Hudson freezer will be in general use throughout the country, so superior are its advantages to those of the old style freezer.

There is nothing complicated about the Hudson freezer. It is simplicity itself and can be easily operated by a five year old child. It is a rectangular wooden box, lined inside with galvanized tin, in which a detachable metal rack or frame rests, in the latter being spaces provided for holding cans or crasses containing the cream. The cream cans are one inch in diameter, but their width and length depend upon the size of the freezer, the sizes varying all the way from the fractional part of a gallon to many gallons. These cans when placed in the frame in the box provided for them are one inch apart. In other words, they are so arranged that each can is entirely surrounded by the ice and salt with which the box is filled, after the cream cans have been placed in position. The advantage of having every part of each cream can come in contact with the ice and salt is obvious. Instead of having a large bulk of cream to be frozen through, as in the case of the ordinary freezer now in use, the cream in these small cans freezes solid in an incredibly short time.

The freezer rests on a rocker, and the ice is made to circulate around the cans by simply rocking the machine like a small cradle, the effort or labor being no greater than in the case of the latter.

The cream freezes to the consistency of that made in the old style freezer in five minutes, and in ten minutes it becomes a solid block like ice. Water placed in the cans, instead of cream, is frozen into blocks of ice in the same length of time.

After the cream is frozen it can easily be removed from the cans by dipping them for a moment in warm water. The blocks may be cut into any size desired and are then ready to be served. They will keep indefinitely, it is claimed, when placed in a refrigerator.

In case it is desired to use the cream blocks for excursions or picnics, they can be wrapped in wax paper and placed in a tin cabinet prepared for the purpose, which fits into the freezer, after the rack holding the cans is taken out.

Among the advantages of the Hudson freezer is the fact that many different flavored creams can be frozen at the same time --as many in fact as there are cans in the freezer. The cream will also freeze into solid blocks without any agitation, as produced by the rocking process, by simply leaving the cans in the freezer well surrounded by ice and salt, though, of course, taking a longer time to do so.

Another advantage in the new freezer is the absolute purity of the cream, which is vouchsafed, the tops of the cans being so constructed that it is impossible for salt or any foreign or poisonous matter to get into the cream.

Young Hudson has received hundreds of propositions from various parts of the United States, many offering to buy his patent and others wanting territory rights only, but, knowing that he has a fortune in his truly wonderful invention, he appears to be in no hurry to dispose of it.

### NO FALSE CLAIMS

The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. Sold by Funderburk Pharmacy.

### Crops of The State.

The following is the weather-crop report for the past week as compiled by Section Director Bauer:

The mean temperature for the week ending Monday, August 14th, was slightly above normal over the eastern half and slightly below over the western. The extremes were a maximum of 103 degrees at Blackville on the 8th, and a minimum of 64 degrees at Greenville on the 9th. There was less than the usual amount of sunshine. High winds, damaging to corn and cotton, prevailed during the middle of the week in the western counties. Bottom lands were flooded along the upper portions of the Saluda, Broad, Wateree and Great Pee Dee rivers and their tributaries, and considerable corn destroyed.

The long drought was broken over the entire state. The rainfall was heaviest in the central counties where it amounted, in places, to over six inches, and was least in Beaufort and Georgetown counties, where it was generally less than half an inch. There was rain nearly every day and the ground is now thoroughly saturated. The rain was needed and in places was beneficial, but in others it caused deterioration in crops, especially cotton, and interfered with farm work, especially haying and pulling fodder. Nearly all crops have been laid by, and further cultivation is now impracticable.

With very few exceptions, the reports on cotton indicate rapid deterioration due to excessive shedding, rust and the plants turning yellow. These conditions prevail over practically the entire state, but are most marked on sandy lands. In many places growth has stopped, while in a few the plants are making new growth. Bolls are opening rapidly in the south central counties and considerable has been picked. The excessive heat of the 5th, 6th, 7th and 8th was very damaging on cotton.

There is a general improvement in the condition of late corn due to the ample moisture which came opportunely. Tobacco curing is nearly finished. Peas, sweet potatoes and all varieties of cane are doing well. The frequent rains interfered with preparations for fall truck crops. Rice made fine progress. Pastures improved rapidly and again afford fine grazing. Turnips were sown extensively. Late fruits, especially apples and peaches, are rotting badly.

People would no doubt sympathize with you more if you didn't waste so much time telling them how it happened.

## Sick Headache

When your head aches, there is a storm in the nervous system, centering in the brain.

This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting.

This is sick headache, and is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epilepsy, fits, dizziness, etc.

Alay this stormy, irritated, aching condition by taking Dr. Miles' Anti-Pain Pills.

They stop the pain by soothing, strengthening and relieving the tension upon the nerves --not by paralyzing them, as do most headache remedies.

Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs.

"Sick headache is hereditary in my family. My father suffered a great deal, and for many years I have had spells that were so severe that I was unable to attend to my business affairs for a day or so at a time. During a very severe attack of headache, I took Dr. Miles' Anti-Pain Pills and they relieved me almost immediately. Since then I take them when I feel the spell coming on and it stops it at once."

JOHN J. McEILAIN, Pres. S. B. Eng. Co., South Bend, Ind. Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

## UNIVERSITY OF NORTH CAROLINA 1789-1905.

Head of State's Educational System, DEPARTMENTS, Collegiate, Engineering, Graduate, Law, Medicine, Pharmacy.

Library contains 43,000 Volumes. New water works, electric lights, central heating system. New dormitories, gymnasium, Y. M. C. A. building.

667 STUDENTS 66 INSTRUCTORS.

The Fall term begins Sept. 11, 1905. Address Francis P. Venable, President, CHAPEL HILL, N. C.

## Woodman Holds Own Against Seven Negroes.

Georgian Kills Two, Fatally Wounds Three Others and Puts Two to Flight.

Cordele, Ga., Aug. 14.--Parties arriving on the Albany and Northern train this afternoon brings reports of a shooting affray which occurred near Oakfield, 18 miles southwest of Cordele, this morning in which two negroes were killed outright and three fatally wounded by a woodsman named Malfis who is a woodman for the Oakfield naval Stores Co. Telephone and telegraph wires are down, but all stories agree that the woodman had words with several negroes in their settlement Saturday night. In consequence seven of them waylaid him as he started on his rounds today. About 8 o'clock, while three miles east of Oakfield, he was confronted by the negroes who were advancing on him with "clippers," clubs and other weapons. Malfis drew a heavy pistol and opened fire. Two negroes dropped dead instantly from his unerring aim and three others fell to the ground mortally wounded. By the time Malfis could reload his pistol the other two had fled. The angry woodman pursued them but did not again get a glimpse of them.

The coroner's jury is holding an inquest this afternoon. It is not likely that Malfis will be arrested.

### TWO BOTTLES CURED HIM

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Ia., "but two bottles of Foley's Kidney Cure effected a permanent cure." Sold by Funderburk Pharmacy.

JOHN E. WELSH, DENTIST, Lancaster, S. C.

Office in rear of Funderburk Pharmacy. July 1, 1905.

Foley's Honey and Tar for children safe, sure. No opiates.

## CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature

of

In Use For Over Thirty Years CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

Dr. R. G. Elliott, Lancaster, S. C.

Residence phone No 187. Office, Davis Building, corner Main and Dunlap streets; phone No 72.

Will practice in both town and county of Lancaster. All calls, either day or night, will receive prompt attention. Jan. 10, 1905--17.

### NOTICE.

The board of county commissioners in their meeting Monday passed a resolution to the effect that hereafter no magistrate in Lancaster county will be paid for holding an inquest unless it is impossible to get the coroner, and then the magistrate must comply with the law by securing affidavits from three citizens of the immediate community that it is important that an inquest be held in the particular case under consideration. M. C. Gardner, County Supervisor.

### Notice.

My regular office days will be Saturdays and first Mondays. All other days you will find me at my office near L & C depot. Will keep school books at both offices and will be glad to wait on you any day in the week. W. M. Moore, Co. Supt. of Education. Jan 16, 1905

## MONEY TO LOAN

I have made arrangement with lenders of money in New York City, with whom I am able to negotiate loans secured by first mortgage on improved cotton farms, at 7 per cent interest--repayable in annual installments of five years. No brokerage or commission charged. Only a reasonable charge for abstract of title. R. E. WYLIE, Aug 31--6m, Attorney at Law

## Winthrop College Scholarship and Entrance Examination.

The examination for the award of vacant scholarships in Winthrop College and for the admission of new students will be held at the county Court House on Friday, July 7th at 9 a. m. Applicants must not be less than fifteen years of age. When scholarships are vacated after July 7th, they will be awarded to those making the highest average at this examination provided they meet the conditions governing the award. Applicants for scholarships should write to President Johnson before the examination for scholarship examination blanks. Scholarships are worth \$100 and free tuition. The next session will open September 20, 1905. For further information and catalogue address: Pres. D. B. Johnson, Rock Hill, S. C.

### Notice to the Public.

I will hold all inquests in the county. Phone to my residence at Pleasant Hill for me when needed. J. Montgomery Caskey, ept. 20--17

J. E. RUTLEDGE, Dentist, Lancaster, S. C.

Working on credit doesn't pay, and my terms from this time henceforth are strictly cash.
