## The Storm King.

CINCINNATI, July5 .- The storms of the past three days have seldom if ever been equalled in severity in Ohio and Indiana. Hurricanes and tornadoes, with floods of rain, have followed each other in rapid succession. This city and its immediate vicibity escaped the fury of the storms. The country north of this and parallel, in Indiana, suffered severely by the furious storms which passed over it on the 2nd, 3d and 4th instant. The telegraph wires have been generslly prostrated. At Springfield, Ohio, it is reported that the telegraph poles were blown down across the turnpike so thickly in some places as to entirely obstruct the travel cust of Springfield. On the Pacific and Atlantic tele-

graph line there were more than a hundred poles down. Some of them were struck by hightning and others prostrated by the wind. Passengers from Logansport say road. the storm vesterday levelled trees nearly all the way from Logansport to Richmond, Ind. In Richmond trees were blown down in the streets. At Washington, Intians, the storm was excedingly Spears of wheat were scatfierce. tered about wildly and carried many feet in the air. At Colum-

has the storm was very severe and destructive. The general prostration of telegraph poles is without parallel in the history of the telegraph. An alarmingly large num-ber were shivered to pieces by the lightening and totally destroyed, while others were partially destroyed and many prostrated by the wind. To-day will be a busy day in repairing these lines. By to-night they will be ready to tell their history of the storm.
