FAVORABLE SIGNS FOR THE SOUTH.

It is one of the most favorable signs Parks Cooper, from York, and Henry of the times that the Southern people are devoting themselves with assiduity to the cultivation of their farms, and to the advancement of their material interests, while devoting less attention to politics than heretofore. This is in the highest degree sensible.

again, that the people of the North All of the five are sentenced to imcare nothing about the South except prisonment for life, except Gibson, so far as she can be used towards whose sentence was for ten years. keeping in power one or the other of the great political parties of the country. The Republicans openly confess this, and prove it daily by their falsehoods about this section, and their cool indifference to our welfare. The Democracy of the North profess friendship for us, and, as a general and best ever grown in Abbeville rule, show a desire to guard and protect our interests in common with the interests of every section of the Union. Still, at the last Presidential election there are many thousand bushels yet it was due solely to the course of socalled Democrats of New York-Boss Kelly and others-that the country was again tuned over for another four years to the tender mercies of Radicalism, regardless of the fact that our section is the special object of the hate and malignity of the Radical party. Most emphatically on that occasion was the South sorely wounded in the house of her friends. It is evident, therefore, that while the South remains in poverty as compared with the North-to which the war was a blessing as great as it was a most serious disaster to the Southshe can hope for nothing in the political world beyond being a hewer of wood or drawer of water. In cases where her interest happens to be identical with those of the North, such as the improvement of the Mississippi River, for instance, she will receive some consideration. When- on Monday the 7th instant. The ever, though, the North can derive no Secretary called the roll and the folbenefit from any measure in which lowing gentlemen were present: the South is interested, it may be accepted as a certainty that such meas- garee, J.
