THERE IS NO DEATH.

There is no death! The stars go down To rise upon some fairer shore; And bright in Heaven's jeweled crown

There is no death! The dust we tread

To golden grain or mellowed fruit,

The granite rocks disorganize, And feed the hungry moss they bear; The forest leaves drink daily life From out the viewless air.

They only wait through wintry hours

There is no death! An angel form He bears our best loved things away; And then we call them "dead."

He plucks our fairest, sweetest flowers; Transplanted into bliss, they now idorn immortal bowers.

Sings now an everlasting song Around the tree of life.

Or heart too pure for taint and vice, He bears it to that world of light, To dwell in Paradise.

Born unto that undying life, They leave us but to come again; With joy we welcome them the same-

And ever near us, though unseen, The dear immortal spifits tread; For all the boundless universe

Lose by It-No Third Party Move ment in the Allianae Enterprise. The Washington Star recently

published a two column interview with Senator Edmunds upon the present political situation and outlook. As between the two great parties the Senator does not see any great dif ference between the situation now and what it has been for several years, but as to the Farmers' Alliance the situation is one of extraordinary interest and importance because of its possible effect upon the next national election. The reporter asked: "What dangers to both parties and to the country are there in the situation?"

"I do not think there is any danger to the Democratic party," the Senator replied with a faint smile. for in the next Presidential election medicine. Practicing physicians, ery large Democratic majority of humanity, S. S. S. has no rival. States as well as members, would elect a Democratic candidate in a Constitutional and regular way, although he may have carried the smallest number of States. As t the danger of the Republican party. it is that the Farmers' Alliance may carry in the next Presidential election some States that would other wise vote for a Republican candidate. and thus in effect, if there should be no election by the people, give the election to the Devocratic cand

issues of the Presidential campaign

"The Republicans will doubtless stand by the same ground for justice and equality of rights among the citizens of the United States and for fair elections and for the protection of American labor and industries that it has maintained hitherto."

"Do you think that silver will be an issue in the next election?"

"I don't think it will be an issue between the Republicans and Democrats, for I think that the Democratic party will hardly wish to make the silver question an issue to the extent of running any considerable risk of separating silver and gold as coin money for the country, and certainly the great body of the Republican party I am sure will not up to the point of safety. I have no doubt but that the Republicans will be in favor of using silver as money as i has always done. What the Farmer's Alliance platform, if it should nominate a candidate for President, will be I am quite unable to say."

"How is the feeling of union among the certain classes to be met?" "I think it is to be met as every other disturbance in society ought to be, by a candid consideration, by correct information, just reasoning and by the enactment of such laws as may fairly appear to be for the promotion of the general public good. It is upon such considerations that every government of the people must be carried on."

"Is the third party movement likely, and if so, what might it lead to? Is communism at the bottom of

"A third party movement," said the Senator, "does not exist in the Farmers' Alliance enterprise. bad for them would manifestly apism is at the bottom of the Farmers' Alliance movement. The per centage of communism in this country is, I believe, almost infinitesimally small. The great body of the laboring people of the country, which, taking all the departments of human activity, embraces probably ninety-five one hundredths of the whole number of grown up people who are altogether too intelligent and honest to think that communism will be of any benefit to them or their families, but they believe that it is destructive of private rights, of personal prosperity and personal happiness, and if car-

and ignorant out of the toil of intelligent and industrious people."

"How might the finances of the country be effected by this movement?"

"The finances of the country always depend very largely upon the confidence that people engaged in business and people having capital have in the administration of its government. If any of the movements of which we have been speaking should appear so formidable as to made unsound legislation at all probable, the finances of the country would be very greatly disturbed, and that, of course, would disturb every branch of labor and business. This everybody perfectly understands."

A Cloud of Witnesses.

We know of no medicine that has so many testimonials to its efficiency as S. S. S., the great blood purifier-Many of the best known people in the country certify to the marvellous results it has wrought in the various forms of disease for which it is recommended. These testimonials come not alone from persons who "For in this respect all is fish that have been relieved of their sufferings comes to its net, or indeed that goes by S. S. TEMPERANCE DEPARTMENT

BEAUTIFUL WORDS.

BY MRS. T. LATHRAP.

Only a glass of sparkling wine, Is that all? Is that all?

Tempting a moment with ruby shine: Is that all? I've seen a soul in a passion of pain,

Held it in thrall! Held it in the al! Only an idle, an evil word, Is that all? Is that all? Only a darksome thought thus stirred, Is that all?

I've seen the wreck of an honored name,

Cry out at the wine that with iron chain

The sunless gloom of a path of shame After the fall, after the fall. Only a trifle! Be gay as we go, Is that all? Is that all?

Only a few "wild oats" to sow Is that all? I've seen the reaping in loss and tears, The harvest growing of sorrowful years, And this is all, and this is all!

The Fight Against Rum.

Spartanburg Delighted with the Talk of an Eloquent Advocate of Woman's Suffrage-The Substances of her Lecture.

From the News and Courier,

SPARTANBURG, April 7 .- The Court House was crowded last night to hear the lecture of Mrs. Mary T. Lathrop, of Michigan, on the temperance question. Many returned home for want of room. The Band of Hope opened the exercises with some lively temperance songs. Mr. C. B. Ezell introduced the speaker. She is a fine looking woman, and strong in body as in mind. She went to the platform with an ease and grace that indicated her familiarity with such places. She laid aside her hat, and stood up before the audience and, as a little girl expressed it, she talked just like a man. She started off by showing that woman was forced to the front. It

than men. These will ne ey just can't do it. It is necessary for them to become breadwinners. They have to enter the business places of life by the side of men. In the South the war left many widows with families to raise. They could not do that and sit in idleness. Crocheting tidies and working slippers would not give the children meat and bread. Thus women have been forced to work. They have the privilege of working for a living, paying taxes without voting and being hanged by verdicts emanating from a jury not made up of their peers. In work, education and moral

was not her choice

there. In New Eng

It is not of her own choosing, but she is here to stay. The speaker then showed the part woman was taking in the temperance work. Her picture of the progress the whiskey power had made since the early days of the Republic was a true one. She showed how, by degrees, the saloon was evolved from years of legislation until now it stands forth the acknowledged power in the political machinery of both parties. As go the saloons, so the elections go. They are entrenched behind law. They are here with the authority of Government. It is to remove these, the greatest evil in our country that the white-ribboned army are banded together to-day. The battle is joined. The forces are arrayed, and it is to be prohibition or a fight to eternity.

reforms woman has been forced to

take the position she occupies to-day.

The W. C. T. U. had first tried to save the individual drunkards. That failed, as it must do with the open saloon in every town. Then they appealed to the saloon keepers, and that was the most futile and fruitless effort they had ever made. They simply pointed to their license and laimed that they were doing just what their friends, the voters, said they could do. Finally the women had determined to make their attack over the poor drunkards and the saloon keepers and appeal to this great Government through its ten million voters. She believed that the child was now born that would see the last licensed saloon swept from the face of the country.

Her argument was clear, forcible and logical. Her manner of speaking is very attractive. She has no abuse for any one. Spartanburg will always give this gifted, good woman a warm welcome.
