Election Results Sustained.

Following a long executive session last Thursday night it was announced by the state board of canvassers that the ruling of the Lexington county board of canvassers, in favor of the dispensary, had been sustained. We understand that the prohibitionists have announced their intention to carry the case to the supreme court.

Governor Blease gives out the following statement as regards the recent elections:

"I have nothing to do with the state board of canvassers, and I am really not interested in what they have decided or what they will decide. Lexington was a Blease county, and as a majority of her white people want the dispensary I would be glad to see them have it. Williamsburg was very close and I would be pleased to see it go in the dispensary column. So far as Sumter is concerned, like Orangeburg, I would like to see her stay dry. The surrounding counties to her—at least Richland, which has a majority for Blease—will be very glad to furnish her citizens their liquor, and get the benefit of the money for good roads and good schools. So I am really not worried as to Sumter's outcome. I think all these counties had good first class election commissioners, and that what they did they did conscientiously, believing from all the facts before them that they were right, and as governor, I shall sustain their actions, regardless of what may be the opinion of the prohibitionists or anybody else."

I can eat anything I want to and as much as I want and feel better than I have at any time in ten years. I refer to anyone in Boone Mill or vicinity and they will vouch for what I say."
