

CALOMEL IS MERCURY! IT SICKENS! ACTS ON LIVER LIKE DYNAMITE

**"Dodson's Liver Tone" Starts Your Liver
Better Than Calomel and Doesn't
Salivate or Make You Sick.**

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work! Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver Tone on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful to-night and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Liver Trouble

"I am bothered with liver trouble
about twice a week. I am
Dingman, Webster City Iowa. "I
have pains in my side and back and
an awful soreness in my stomach. I
heard of Chaimbelain's Tablets and
tried them. By the time I had
used half a bottle of them I was
feeling fine and had no signs of
pain." Obtainable everywhere.

REASON WHY WE CAN SELL BUGGIES FROM TEN TO TWENTY-FIVE PER CENT CHEAPER THAN THEY CAN BE BOUGHT ELSEWHERE.

Our vehicles are manufactured in such vast numbers that the producing cost of each item is reduced to lowest possible terms, yet the quality is actually better in every respect than you could secure from a buggy builder who builds each buggy to order. Figure it out for yourself. These buggies are built by one of the largest vehicle factories in the world. When this factory buys hickory, or steel, or leather, or rubber tires, or trimmings, paints and varnishes, or any of the hundred and one other articles that enter into the manufacture of a horse drawn vehicle, he places his order for such an enormous quantities that he secures the very best material that can be had and he gets it at prices that only quantity buyers can secure.

Then, instead of building a single set of wheels and gears, a single body, seat, top, etc., in fact, instead of building a dozen or a hundred parts, according to one pattern, they build a thousand sets of wheels, a thousand sets of seats, shafts, gears, etc., of one pattern. Each and every one just alike; all going through the factory at one time. That means economy at every step and at every process. Each machine is set to do a certain thing a thousand times, two thousand times, or four thousand times, as the case may be, and never a change in the adjustment of the machine. Every operator works as methodically as the machine he is operating, without any lost motion, without any useless stops, without interruption—at one thing and only one thing. His work actually produces more results and better results than would be possible if he were continually changing from one thing to another, as he would have to do in a smaller factory with a limited manufacturing capacity.

And so it goes in every department of large vehicle factories, there is economy at every step and better value in every part. Modern labor saving machinery in the large factory do a thousand things that smaller factories must do clumsily and inefficiently by hand. Electricity welds the steel parts together in a fraction of the time required to do the same work by hand with open fire forges. Tires are pressed onto the wheels cold instead of being heated and then shrunk to fit the fellows. This means perfect fitting and better wearing and a great saving in cost.

And again, instead of shipping one of each style in one small shipment, they ship a large number of each style to the large dealers only, and the large dealer gets a price that only large dealers can secure. It would be almost impossible for the large vehicle builder to attend to the detail work of shipping out and retailing buggies to the Southern trade that would meet all the Southern demands. But it is plain horse sense that the large dealers who can buy in large quantities for cash can buy vehicles from the large vehicles manufacturer much cheaper than the smaller manufacturer can buy material and build them. Write us for our new catalogue.

OUR GUARANTEE MEANS SOMETHING.

A. D. Martin, Candidate for Superintendent of Education

Incontrovertible Facts:

1. I held the office of County Superintendent of Education for one term—1908-1912.
2. My administration was energetic and progressive. The Lexington, Leesville, Batesburg, Brookland, Chapin, Gilbert, Samaria, Calvary, Hulon and Cedar Grove school buildings were established and other improvements made. These buildings and improvements were badly needed and superintendents, who preceded me, should have had this done.
3. The State and county departments of education cooperated harmoniously in education matters and much state aid was thereby obtained.
4. Settlement of many long standing school dissensions.
5. Books in office kept in good shape and always open for inspection.
6. High school aid for the school at our county seat. Superintendents who preceded me should have gotten this support long ago.

What to Depend On.

7. Another progressive administration and the conduct thereof courteous and gentlemanly;
8. Fair and square dealing to all.

"SPECTACLED AMERICANS"

The man of sense is he who best preserves those faculties which nature has endowed him.
He may "hate to wear glasses," but sentiment is not an evidence of weak mind, but of weak intellect.
In this day of conservation, men and women should preserve their mental and physical strength, wear them for the force and vitality, as much as for the
